

**NYC School Survey  
2013-2014 Report**

Principal: CHRIS AGUIRRE  
 School Type: High School  
 School DBN: 13K674

Dear Members of the School Community,

The NYC School Survey Report shares parent, student, and teacher responses to the NYC School Survey. In this year's report, survey questions are organized and reported as they relate to the three broad categories of the Quality Review Rubric [Instructional Core, School Culture, and Systems for Improvement]. This report does not replace the Quality Review, but rather, the use of familiar language should help school communities use feedback to support a dialogue around school improvement.

Taking the time to reflect on our school's strengths and areas for growth is an important step in improving the teaching and learning environment in our schools. Please share, discuss, and reflect upon your school's report and use the information as you plan together for the continued success of your school.

Carmen Fariña  
 Chancellor

**What do the colors mean?**

These colors indicate how survey satisfaction at this school compares to the satisfaction of all High Schools this year. Green indicates scores above the average, gray indicates average, and red indicates scores below the average.

This year, constituents generally reported high levels of satisfaction across the City. Therefore, it is possible to have positive survey responses and be below average compared to other schools. Readers should consider the survey responses in this report both on their own and in the context of responses from other schools.

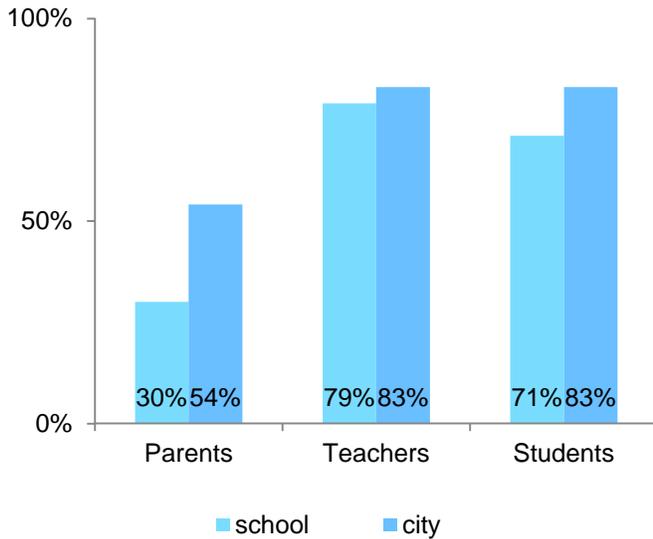

**How do your school's responses in the following categories compare to all High Schools?**

	% Satisfaction	Citywide Satisfaction Average for all High Schools
Instructional Core	81%	87%
Systems for Improvement	78%	85%
School Culture	81%	86%

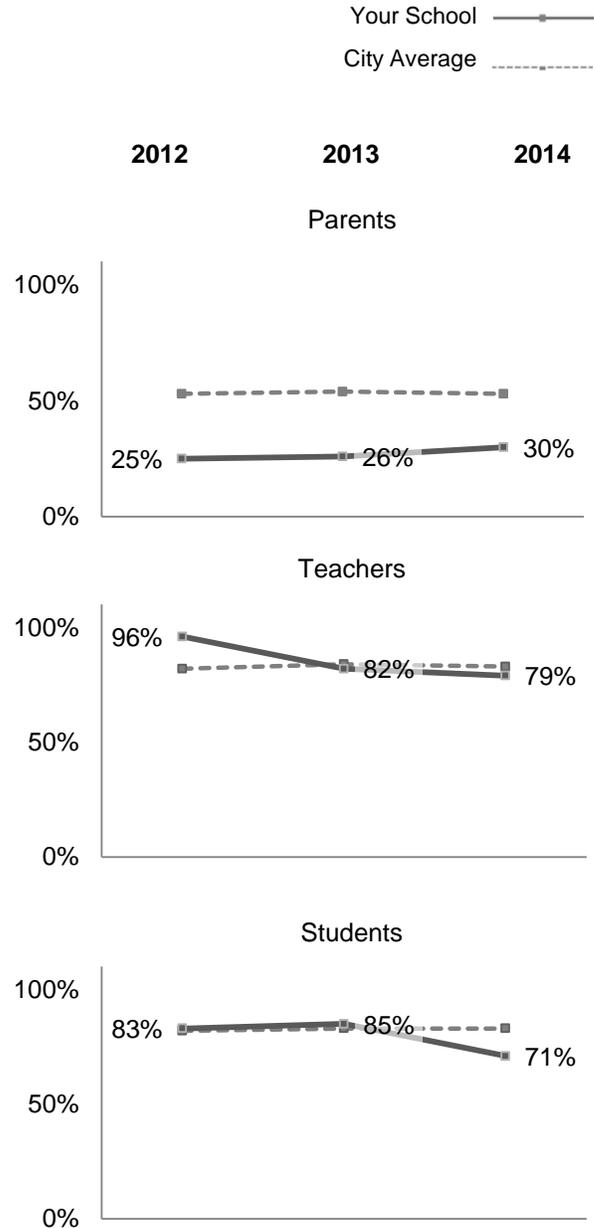

**How satisfied were participants at your school in the following categories?**

	Parents	Teachers	Students
Instructional Core	94%	66%	83%
Systems for Improvement	92%	56%	85%
School Culture	92%	67%	84%

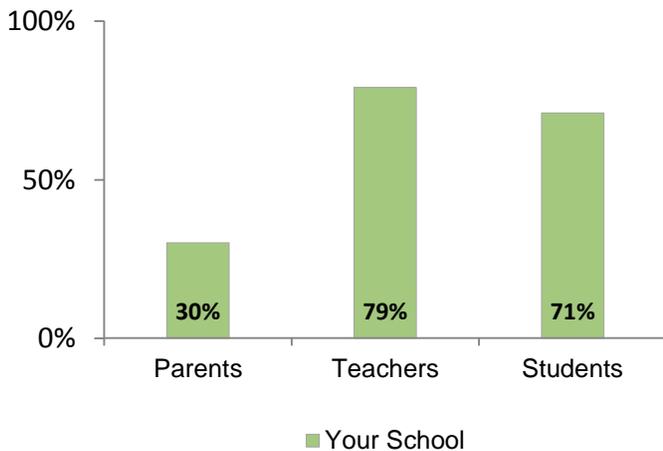

How do survey response rates at your school compare to the City average?

How have response rates at your school changed over time?

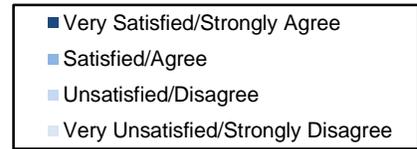

Who took the survey **online**?

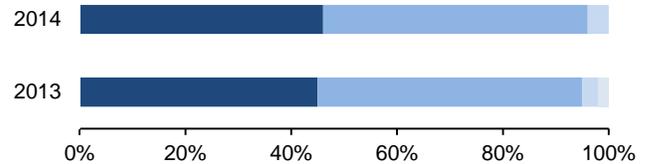

How has your school community answered certain important survey questions over time?

**P**

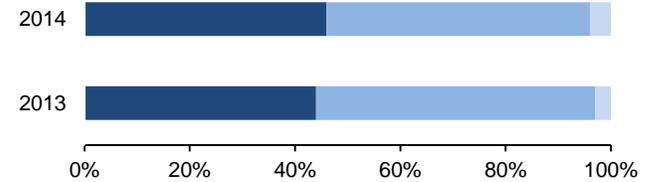

**How responses of parents at your school have changed:**

How satisfied are you with the education your child has received this year?

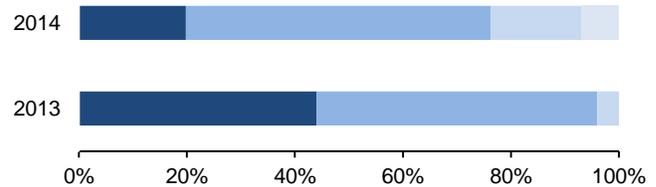

How satisfied are you with the response you get when you contact your child's school?

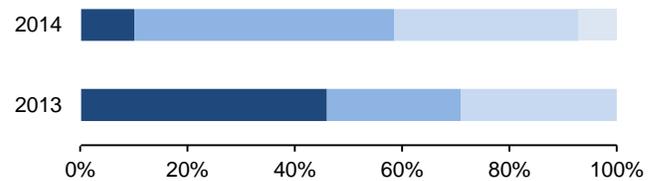

**T**

**How responses of teachers at your school have changed:**

I am safe at my school.

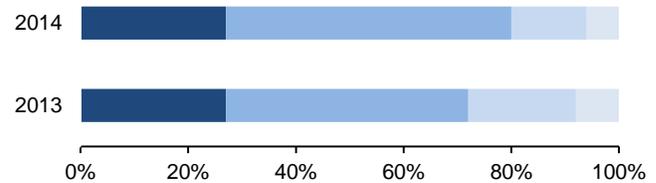

I would recommend my school to parents seeking a place for their child.

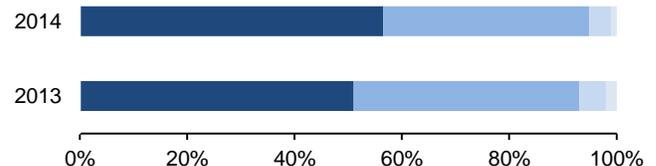

**S**

**How responses of students at your school have changed:**

My school offers a wide enough variety of programs, classes and activities to keep me interested in school.

I need to work hard to get good grades.

**Who took the survey at your school?**

This report summarizes the responses that parents, students, and teachers at your school provided on the 2014 NYC School Survey.

Questions are sorted into four categories: Instructional Core, Systems for Improvement, School Culture, and questions that are reported for informational purposes only.<sup>1</sup> Within each category, parent survey responses are listed first followed by teacher and student responses.

Responses to each question are reported as percentages. The most common response to each question is displayed in bold print. The positive responses are reported as a percentage to the right of each question.
