School Overview

The philosophy of the Britou-Moore Academy for the Gifted and Talented is to expose all students to an enriched, rigorous, academic course of study which will prepare them to compete and excel in today's global economic society. The philosophy of the Medgar Evers Academy of Science Technology Engineering and Mathematics (STEM) is to instill a love of scientific inquiry and mathematical application to prepare students for post-secondary education in an interdisciplinary and contextualized academic learning environment. Our school community envisions a culture of successful students. Students in the 8th grade can opt to take a full 9th grade curriculum for high school acceleration. Graduates leave with multiple options for success in high school and in college. In their senior year, students can enroll in college-level courses from local colleges. After full completion of these courses, students are granted a college transcript.
