Framework for Great Schools

Research shows that schools strong in the six areas are far more likely to improve student learning.

KEY:

School Overview

Global Scholars value the small, supportive learning environment we offer. We have a socially respectful community that students enjoy. Students can organize events and participate in discussions pertaining to school life and current events. Teachers offer after-school consultations and welcome student feedback. Citizenship is valued and community service is encouraged. During advisory periods, teachers and students develop community practices that reflect the values of our school: dedication to academic success, cultivating critical thinking, and developing student voice. Our curriculum includes the Columbia University Teachers College Reading and Writing Project for English Language Arts. Our mathematics program provides enrichment and intervention, and focuses on developing a conceptual vocabulary and rich understanding of mathematics. ...
