School Overview

We follow the Expeditionary Learning model, in which students engage in learning expeditions and have multiple opportunities for hands-on learning. Students participate in fieldwork experiences with civic leaders, industry figures, and environmental scientists that take them outside of the classroom and give them a chance to experience the concepts they are learning. Students receive a strong background in science, technology, and sustainability and have multiple opportunities after school to apply the ideas learned in class to real-world projects. Parents play a major role in the school, from attending student-led conferences to being chaperones and participants for fieldwork to contributing to various school committees. Students belong to Crews, which are small advisory groups with an advisor. Students participate in a four-day wilderness/backpacking adventure.
