School Overview

The Globe School for Environmental Research provides a small, caring learning environment where students are treated as individuals. The principal and staff are accessible and responsive to students' needs. The environmental science focus is enhanced by trips to the New York Botanical Garden, the New York Hall of Science, American Museum of Natural History, camping, and day trips along the Bronx River watershed. Students are engaged in a year-long environmental research project to improve the school, local, or global community.
