School Overview

M.S. 343 is a small school committed to providing a meaningful learning experience, focusing on technology, to prepare students for the 21st century. Students enjoy the small learning environment which provides them with both individual and group experiences. They also benefit from block programming, which allows teachers to support students' strengths and simultaneously address their needs. Additionally, our technology (including iPads, iPad minis, Macbooks, and document cameras) is incorporated into all content areas, creating a hands-on approach that students benefit from. Students also enjoy our incentive trips, our extensive after-school program, and club choices. Parents appreciate our online grading system that is accessible anywhere at any time, via internet or text message, to monitor their child's academic progress. We have a small and caring learning environment that caters to the individual needs of each student.
