Framework for Great Schools

Research shows that schools strong in the six areas are far more likely to improve student learning.

KEY:

School Overview

Our curriculum and instruction is designed to develop our scholars as independent learners who are prepared for high school, college, and their future careers. We believe that children learn best when they are engaged, supported, and challenged. Our focus on literacy and critical thinking develops our students' capacity as readers, writers, thinkers, and speakers. Each year, we develop a Theory of Action which allows all members of our community to speak a common language and to work together to achieve our goals. Parents and students like our dedication to developing a strong home-school partnership to ensure every student's success. Additionally, we offer a wide variety of electives, afterschool activities, and community service opportunities to develop our students as well-rounded members of our community.
