School Overview

Students enjoy taking regular field trips to the city's museums, parks, and labs to explore and learn about the wonders of science, technology, engineering, and mathematics. They use technology in class to learn through projects and to create presentations with digital images, audio, video, and more. All classes incorporate project-based learning to provide real-world experiences for our students. Additionally, the STEM focus of school is balanced by our arts program, where students choose to study either visual art or instrumental music during their three years at Mott Hall Community School. Parents enjoy the consistent communication about their child's progress in the form of periodic progress reports. They enjoy that students are exposed to various educational institutions in the city, which helps to make students excited about school. ...
