School Overview

Students like our school because we have an energetic, hands-on, task-based learning environment that encourages collaboration and student discussion. Students enjoy learning in our classrooms that have a studio feel with areas for station work, independent study and conferencing. Students also benefit from an Advisory program that gives all students access to an advisor who helps monitor their individual academic progress. In our school, students have a voice and are full participants in their own learning under the guide of teachers and staff that meet their needs for belonging and respect. Our parents appreciate the level of support that their children receive through our programs, which are designed to meet the unique needs of each and every student. Parents recognize our commitment to preparing each student for high school, college, and beyond by giving them access to explore a range of businesses, organizations, colleges and universities. ...
