School Overview

It is our goal to provide a challenging academic program in an environment that fosters self-awareness and strong work habits, producing graduates who are fully prepared for higher education and careers. We provide a rich canvas of opportunities for students to share ideas with each other, the staff, and the outside community. Our students participate in project-based learning in their classes and demonstrate mastery of the materials through academic portfolio assessment. The Advisory program is the heart and soul of our school, offering students an opportunity for personal development and academic growth while building close relationships within the school community. Our staff makes every effort to know each student and family well through small class sizes and a personalized approach to education which provides a structure for success.
