

**NYC School Survey  
2014-2015 Report**

Principal: ANNE OGRADY  
 School Type: Elementary School  
 School DBN: 08X182

Dear Members of the School Community,

The NYC School Survey Report shares parent, student, and teacher responses to the NYC School Survey. In this year's report, survey questions are organized and reported as they relate to the six elements of the [Framework for Great Schools](#): Rigorous Instruction, Supportive Environment, Collaborative Teachers, Effective School Leadership, Strong Family-Community Ties, and Trust. The information captured in this report is designed to support a dialogue among all members of the school community about how to make the school a better place to learn.

Taking the time to reflect on our school's strengths and areas for growth is an important step in improving the teaching and learning environment in our schools. Please share, discuss, and reflect upon your school's report and use the information as you plan together for the continued success of your school.

Carmen Fariña  
 Chancellor

**What do the colors mean?**

These colors indicate how the percentage of positive survey responses at this school compares to the that of Elementary Schools this year.

This year, constituents generally reported high levels of satisfaction across the city. Therefore, it is possible to have a high percentage of positive survey responses and be below average compared to other schools. Readers should consider the survey responses in this report both on their own and in the context of responses from other schools.

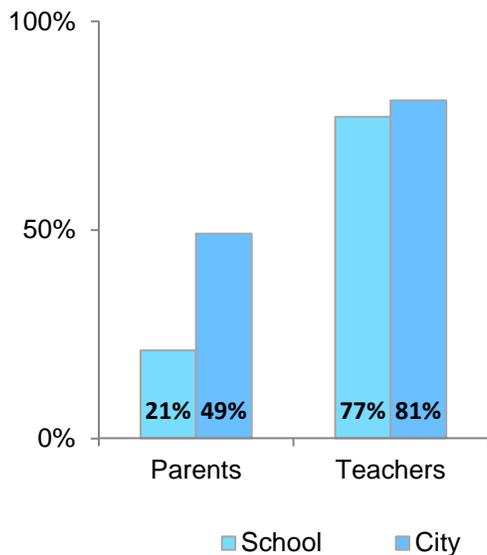

**How do your school's responses in the following categories compare to Elementary Schools?**

	% Positive Responses	Citywide % Positive Response for Elementary Schools
Rigorous Instruction	85%	91%
Supportive Environment	82%	92%
Collaborative Teachers	75%	89%
Effective School Leadership	59%	81%
Strong Family-Community Ties	80%	85%
Trust	82%	91%

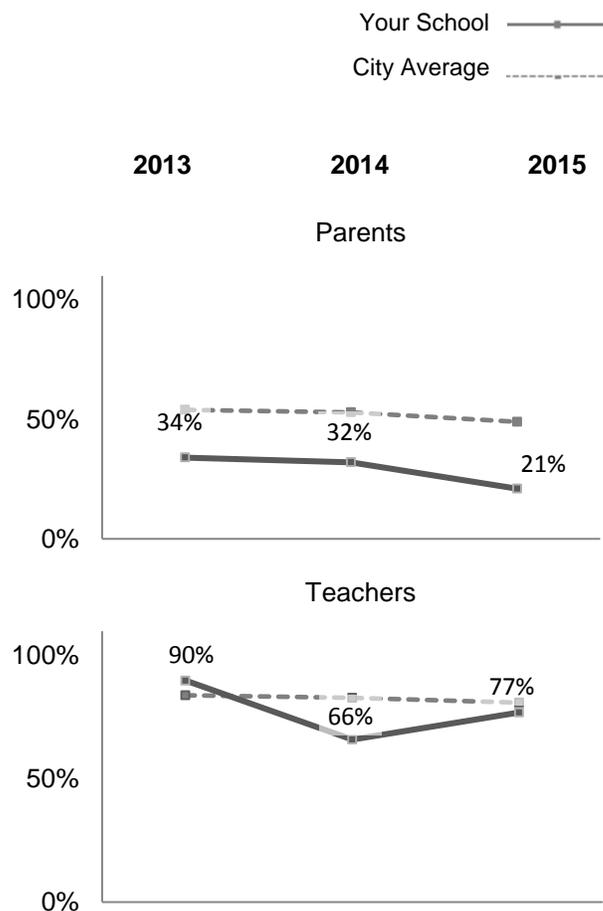

**What is the percentage of positive responses by participant at your school?**

	% Positive Responses
Parents	88%
Teachers	72%

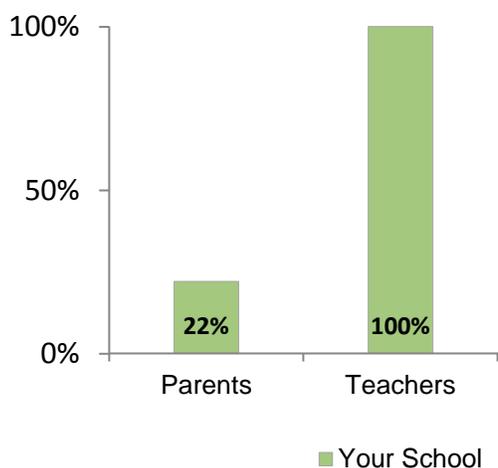

How do survey response rates at your school compare to the city average?

How have response rates at your school changed over time?

Who took the survey online?

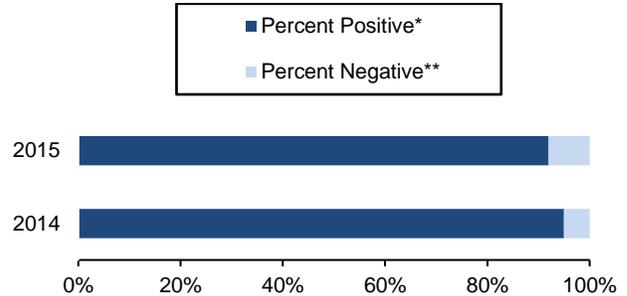

How has your school community answered certain important survey questions over time?

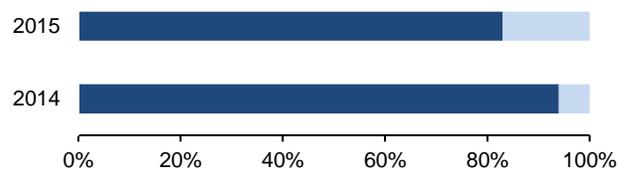

**P**

**How responses of parents at your school have changed:**

How satisfied are you with the education your child has received this year?

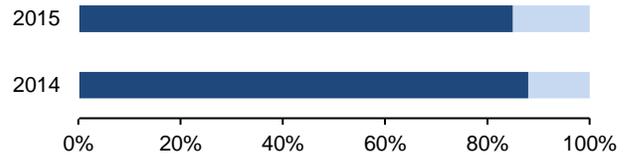

How satisfied are you with the response you get when you contact your child's school?

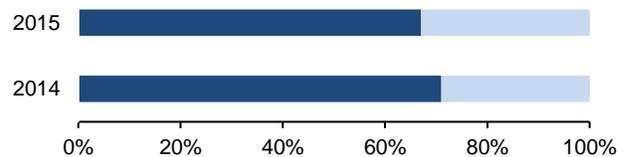

**T**

**How responses of teachers at your school have changed:**

Students are safe in the hallways, bathrooms, locker rooms, and cafeteria of this school

I would recommend my school to parents seeking a place for their child.

\* "Percent Positive" includes the following response options: Very Satisfied, Mostly Satisfied, and Somewhat Satisfied or Strongly Agree, Agree, and Somewhat Agree.

\*\* "Percent Negative" includes the following response options: Very Dissatisfied, Mostly Dissatisfied, and Somewhat Dissatisfied or Strongly Disagree, Disagree, and Somewhat Disagree.

This report summarizes the survey responses that parents and teachers at P.S. 182 provided on the 2014-15 NYC School Survey.

Questions are categorized by the six elements of the Framework for Great Schools. Based on robust research, the six elements of the Framework for Great Schools identify the areas that must improve to increase student achievement.

- Rigorous Instruction
• Collaborative Teachers
• Supportive Environment
• Effective School Leadership
• Strong Family-Community Ties
• Trust

By focusing attention and resources on what it takes for schools to function well, the Framework identifies the underlying strengths and weaknesses of a school and shows community members concrete ways to improve student achievement.

The results from these questions will be incorporated into your school's 2014-15 School Quality Reports. The Reports will be aligned to the Framework for Great Schools to provide a clear picture of each school's strengths and areas of growth in each element.

Questions that are reported for informational purposes only are also included at the end of the report.

Responses to each question are reported as percentages. The most common response to each question is displayed in bold print. The positive responses are reported as a percentage to the right of each question.

Table with 3 columns: Survey Response Rates, 08X182, City. Rows for Parents (21% (175), 50%) and Teachers (77% (50), 81%).

Please visit www.nycschoolssurvey.org to learn more about the School Survey.

1 Note that parents, students, and teachers were only asked questions that are relevant to their experience as members of their school community. Therefore, not every element section will include responses from all three respondent groups.

# Rigorous Instruction

## Rigorous Instruction – Teacher Responses

Do teachers believe that the school implements a high quality curriculum—aligned to the Common Core—that challenges students, scaffolds their experience, and engages students?
