INSIDE THIS REPORT

The Annual Arts in Schools Report is a new tool for school leaders to understand their delivery of arts education to every child in their school. Each Annual Arts in Schools Report measures two areas:

Student Access to and Participation in Arts Education

Uses surveys and information from DOE databases to understand if students are meeting the New York State Instructional Requirements for the Arts. In addition, this section reports on questions asked in the Learning Environment Surveys about arts education.

Resources to Support Arts Education

Uses information from DOE databases and surveys to understand the resources that schools are allocating for arts education. This section includes information on certified arts teachers, arts and cultural organization services, space for arts learning, arts fundraising, and professional development opportunities for teachers.

Dear School Community,

This report provides a view of the arts education opportunities you are providing for your students based on your responses to the Annual Arts Education Survey in June 2007 and including information from the New York City Department of Education's databases.

The Annual Arts in Schools Report is an important part of the New York City Department of Education's effort to ensure that schools are providing students with the high-quality arts education they need and deserve. The report has been created to help school leaders, parents, and teachers understand how they can improve student learning in the arts, building on the Blueprint for Teaching and Learning in the Arts which provides detailed PreK-12 curricula aligned with State standards.

Joel I. Klein
Chancellor, New York City Department of Education

STUDENT ACCESS TO AND PARTICIPATION IN ARTS EDUCATION

At the elementary level, in grades 1-6, the New York State Education Department (NYSED) requires that students receive instruction in dance, music, theater and visual arts in every grade.

At the middle school level, in grades 7 and 8, the NYSED expects that students achieve, by the end of grade 8, one half-unit of study in visual arts and one half-unit of study in music. New York City has filed a formal request to the NYSED to allow schools to offer any two of the four arts forms to fulfill the 7th and 8th grade requirement.

Elementary School Progress in Meeting New York State Education Requirements

In 2006-2007, this school offered the following arts disciplines in each grade through both school-based staff and direct student services from arts and cultural organizations:

Notes

- Throughout this report, N/A signifies that data were not available at the time of publishing this report.
- Throughout this report, an X represents a “yes,” and a blank represents a “no.”
- Learning Environment Survey data are based on responses from schools where students provided responses to the 2006/7 Learning Environment Survey and are based on the perception of students about the arts in this school. For more information on how well this school supports student learning in the arts, please visit the 2006 - 2007 Learning Environment Survey which is located on the Statistics section of this school’s website.
- Schools may have more than six arts and cultural service providers, but due to space constraints we were unable to list all of the arts or cultural organizations with which they work.
- All data are based on arts instruction offered during the school day. This Annual Arts in Schools Report does not report on after school, weekend, and summer arts education.
- Percentages of the Learning Environment Survey data may not add up to 100 percent due to rounding.

Definitions

- A dedicated arts classroom is a classroom that is only used for dance, music, theater, and visual arts.
- For a detailed description of what an appropriately equipped arts classroom is, please refer to the Blueprint for Teaching and Learning in the Arts.
- A blackbox theater is a simple, unadorned performance space, usually a large square room with black walls and a flat floor.
- General music is a broad-based study of music including music making, literacy, connections to world cultures, community resources and careers and life-long learning.
- The New York State Education Department defines an arts sequence as a minimum of three full years of developmental, sequential courses in an arts discipline. The courses must carry arts credits for a minimum of three units (equivalent to six credits in NYC).
