ANNUAL ARTS IN SCHOOLS REPORT 2007-2008

This Annual Arts in Schools Report provides data for:

School: 25 Q120

2007-2008 Principal: Joan Monroe

Arts Education Liaison: Denise Gunter

INSIDE THIS REPORT

The Annual Arts in Schools Report is a tool for school leaders to understand their delivery of arts education to every child in their school. Each Annual Arts in Schools Report measures two areas:

Student Access to and Participation in Arts Education

Uses surveys and information from DOE databases to understand if students are meeting the New York State Instructional Requirements for the Arts as well as the activities, resources and facilities used to support arts learning in each school. In addition, this section reports on questions asked in the Learning Environment Surveys about arts education.

Resources to Support Arts Education

Uses information from DOE databases and surveys to understand the resources that schools are allocating for arts education. This section includes information on certified arts teachers, arts and cultural organization services, space for arts learning, arts fundraising and professional development opportunities for teachers.

Dear School Community,

This report provides a view of the arts education opportunities you are providing for your students based on your responses to the Annual Arts Education Survey in June 2008 and includes information from the New York City Department of Education's databases.

The Annual Arts in Schools Report is an important part of the New York City Department of Education's effort to ensure that schools are providing students with the high-quality arts education they need and deserve. The report has been created to help school leaders, parents, and teachers understand how they can improve student learning in the arts, building on the Blueprint for Teaching and Learning in the Arts which provides detailed PreK-12 curricula aligned with State standards: <http://schools.nyc.gov/offices/teachlearn/arts/blueprint.html>

New York State Requirements for Arts Education

At the elementary level, in grades 1-6, the New York State Education Department (NYSED) requires that students receive instruction in dance, music, theater and visual arts in every grade. In addition, NYSED recommends that students spend a specific allocation of hours learning in the arts.ⁱ

At the middle school level, in grades 7 and 8, the NYSED expects that students achieve, by the end of grade 8, one half-unit of study in visual arts and one half-unit of study in music. NYSED has allowed New York City schools to offer any two of the art forms to meet the requirements.

At the high school level, the New York State Education Department requires that all students graduate having taken one unit or two credits in the arts (dance, music, theater and/or visual arts). High schools have the option of offering a three or five year sequence in any one of the four art forms. Students who complete five units in a single art form and successfully complete the exit exam in that art form are eligible to receive a Regents diploma with advanced designation in the arts.

School Progress in Meeting New York State Education Requirements

This school has submitted the following information about its arts program:

PS 120 is very proud of the arts programs. We have 3 experienced teachers who are licensed in the arts, currently teaching a full arts program. The newest arts program is the piano lab sponsored by the Music and the Brain Project. In September 2007, we received a full class set of piano keyboards currently serving all of our kindergarten and first grade classes. Each child is assigned to an individual piano to actually learn the beginnings of reading music and playing the piano. Even Pre-K children (3 – 4 years old) are playing simple melodies. There are varying degrees of difficulty in the MUSIC AND THE BRAIN method to accommodate the various talents of the students. We also have 2 periods dedicated to a school chorus and instrumental band. Our third grade students all receive recorder lessons at least two times per week. The following is an excerpt taken from our PS 120Q Parent Handbook: Music teaches a child responsibility, imagination, pride, creativity, self-discipline, and cooperation. PS 120 has a comprehensive and exciting music program. • The K-2nd grade uses a program called “Music and the Brain,” in which even the youngest student learns about music and becomes familiar with the keyboard. •

The 2nd and 3rd grade classes learn about the history of different types of music from classical music (Mozart and Beethoven) to Rhythm ‘n’ Blues, Jazz and 50’s Rock ‘n’ Roll. The students also learn how to play recorders and perform at the end of the year. •

For our future “rock stars,” we have guitar class for our 4th and 5th graders, where they learn to play melodies and cords, with our 5th graders putting on a performance at the end of the year. • We also have a band class for our 4th and 5th graders, who learn to play a variety of instruments and put on a performance at the end of the year. • In our enrichment classes, we have music projects such as presenting the life of the young genius Mozart, which gives the students a rich rewarding experience of putting together their own presentation. Our young students are developing their fine motor skills with cut and paste projects. They also tell stories in their drawing by combining their observations with their inner worlds of fantasy. They include details that capture the important parts of their ideas. Many of our art projects are tied to children’s literature, music, science, social studies, and seasonal events. The use of the basic elements of lines, shapes, color, texture and composition are introduced. Puppetry has also been used to encourage verbal and improvising skills. Our Special Education students are working on a mural, which will be showcased at St. John’s University Very Special Arts Festival in May 2008.

Notes

- Throughout this report, N/A signifies that data were not applicable.
- Learning Environment Survey data are based on responses from schools where students provided responses to the 2007/8 Learning Environment Survey and are based on the perception of students about the arts in this school. For more information on how well this school supports student learning in the arts, please visit the 2007 - 2008 Learning Environment Survey which is located on the Statistics section of this school's website.
- Schools may have more than six arts and cultural service providers, but due to space constraints we were unable to list all of the arts or cultural organizations with which they work.
- All data are based on arts instruction offered during the school day. This Annual Arts in Schools Report does not report on after school, weekend, and summer arts education.
- Percentages of the Learning Environment Survey data may not add up to 100 percent due to rounding. The percentages are not based on a student response rate of 100%.

Definitions

- A dedicated arts classroom is a classroom that is only used for dance, music, theater, and visual arts.
- For a detailed description of what an appropriately equipped arts classroom is, please refer to the Blueprint for Teaching and Learning in the Arts, <http://schools.nyc.gov/offices/teachlearn/arts/blueprint.html>.
- A blackbox theater is a simple, unadorned performance space, usually a large square room with black walls and a flat floor.
- General or core music is a broad-based study of music including music making, literacy, connections to world cultures, community resources and careers and life-long learning.
