## **ANNUAL ARTS IN SCHOOLS REPORT 2007-2008**

**This Annual Arts in Schools Report provides data for:**

School: 75 X352

2007-2008 Principal: Lourdes Mendez

Arts Education Liaison: Jacqueline Rozsa

### **INSIDE THIS REPORT**

The Annual Arts in Schools Report is a tool for school leaders to understand their delivery of arts education to every child in their school. Each Annual Arts in Schools Report measures two areas:

#### **Student Access to and Participation in Arts Education**

Uses surveys and information from DOE databases to understand if students are meeting the New York State Instructional Requirements for the Arts as well as the activities, resources and facilities used to support arts learning in each school. In addition, this section reports on questions asked in the Learning Environment Surveys about arts education.

#### **Resources to Support Arts Education**

Uses information from DOE databases and surveys to understand the resources that schools are allocating for arts education. This section includes information on certified arts teachers, arts and cultural organization services, space for arts learning, arts fundraising and professional development opportunities for teachers.

Dear School Community,

This report provides a view of the arts education opportunities you are providing for your students based on your responses to the Annual Arts Education Survey in June 2008 and includes information from the New York City Department of Education's databases.

The Annual Arts in Schools Report is an important part of the New York City Department of Education's effort to ensure that schools are providing students with the high-quality arts education they need and deserve. The report has been created to help school leaders, parents, and teachers understand how they can improve student learning in the arts, building on the Blueprint for Teaching and Learning in the Arts which provides detailed PreK-12 curricula aligned with State standards: <http://schools.nyc.gov/offices/teachlearn/arts/blueprint.html>

Joel I. Klein

Chancellor, New York City Department of Education

### **New York State Requirements for Arts Education**

**At the elementary level, in grades 1-6, the New York State Education Department (NYSED) requires that students receive instruction in dance, music, theater and visual arts in every grade. In addition, NYSED recommends that students spend a specific allocation of hours learning in the arts.<sup>i</sup>**

**At the middle school level, in grades 7 and 8, the NYSED expects that students achieve, by the end of grade 8, one half-unit of study in visual arts and one half-unit of study in music. NYSED has allowed New York City schools to offer any two of the art forms to meet the requirements.**

**At the high school level, the New York State Education Department requires that all students graduate having taken one unit or two credits in the arts (dance, music, theater and/or visual arts). High schools have the option of offering a three or five year sequence in any one of the four art forms. Students who complete five units in a single art form and successfully complete the exit exam in that art form are eligible to receive a Regents diploma with advanced designation in the arts.**

Please note some tables may not apply for this school.

This school has submitted the following information about its arts program:

One of the goals of our arts program, first and foremost, is to be able to reach out to every child in our school and immerse them in the various disciplines in art - dance, theater and music. Seeing how children develop in the arts, as reflected in the Blueprint benchmarks, but keeping in mind their disabilities and IEP goals, will be the main focus for our art program. Following this, the school's curriculum will be aligned with the New York City Department of Education's Blueprint curriculum as well as the children's IEP goals. To meet the needs of the population we serve, the arts program is a well-rounded one, which will include integration of the arts into the other disciplines – math, literacy, social studies. Engaging our multiple-disabled students beyond the classroom and sharing in the diversity of their communities in the arts will enable this population to meet their future IEP goals. Social skills will be enhanced as the students benefit from the integration with non-disabled peers and they extend their art learning experiences beyond the classroom. Sensory or language stimulation for non-verbal children in Pre-K through 1st grades will be enhanced as they learn to speak through the language of the arts: by hearing the rhythm and beat of the music, or by moving their bodies in space, or by looking at colors, lines, and textures, and also pointing out the various objects in works of art.

## Notes

- Throughout this report, N/A signifies that data were not applicable.
- Learning Environment Survey data are based on responses from schools where students provided responses to the 2007/8 Learning Environment Survey and are based on the perception of students about the arts in this school. For more information on how well this school supports student learning in the arts, please visit the 2007 - 2008 Learning Environment Survey which is located on the Statistics section of this school's website.
- Schools may have more than six arts and cultural service providers, but due to space constraints we were unable to list all of the arts or cultural organizations with which they work.
- All data are based on arts instruction offered during the school day. This Annual Arts in Schools Report does not report on after school, weekend, and summer arts education.
- Percentages of the Learning Environment Survey data may not add up to 100 percent due to rounding. The percentages are not based on a student response rate of 100%.

## Definitions

- A dedicated arts classroom is a classroom that is only used for dance, music, theater, and visual arts.
- For a detailed description of what an appropriately equipped arts classroom is, please refer to the Blueprint for Teaching and Learning in the Arts, <http://schools.nyc.gov/offices/teachlearn/arts/blueprint.html>.
- A blackbox theater is a simple, unadorned performance space, usually a large square room with black walls and a flat floor.
- General or core music is a broad-based study of music including music making, literacy, connections to world cultures, community resources and careers and life-long learning.
