## ANNUAL ARTS IN SCHOOLS REPORT 2009-2010

### This Annual Arts in Schools Report provides data for:

School: 09X170

2009-2010 Principal: Nancy Ramos

Arts Education Liaison: Keshma Benjamin

### INSIDE THIS REPORT

The Annual Arts in Schools Report is a tool for school leaders to understand their delivery of arts education to every child in their school. Each Annual Arts in Schools Report is based upon responses submitted by schools and provides valuable information about two areas:

#### Student Access to and Participation in Arts Education

Uses survey information to understand if students are meeting the New York State Instructional Requirements for the Arts as well as the experiences, resources and facilities used to support arts learning in each school. In addition, this section reports on questions asked in the Learning Environment Surveys about arts education.

#### Resources to Support Arts Education

Uses survey information to understand the resources that schools are allocating for arts education. This section includes information on certified arts teachers, arts and cultural organization services, space for arts learning, arts fundraising and professional development opportunities for teachers.

Dear School Community,

This report provides a view of the arts education opportunities you are providing for your students based on your responses to the Annual Arts Education Survey in May 2010 and includes information from the New York City Department of Education's databases.

The Annual Arts in Schools Report is an important part of the New York City Department of Education's effort to ensure that schools are providing students with the high-quality arts education they need and deserve. The report has been created to help school leaders, parents, and teachers understand how they can improve student learning in the arts, building on the Blueprint for Teaching and Learning in the Arts which provides detailed PreK-12 curricula aligned with State standards:

### New York State Requirements for Arts Education

At the elementary level, in grades 1-6, the New York State Education Department (NYSED) requires that students receive instruction in dance, music, theater and visual arts in every grade. In addition, NYSED recommends that students spend a specific allocation of hours learning in the arts.<sup>1</sup>

At the middle school level, in grades 7 and 8, the NYSED expects that students achieve, by the end of grade 8, one half-unit of study in visual arts and one half-unit of study in music. NYSED has allowed schools to offer any two of the art forms to meet the requirements.

At the high school level, the New York State Education Department requires that all students graduate having taken one unit or two credits in the arts (dance, music, theater and/or visual arts). High schools have the option of offering a three or five year sequence in any one of the four art forms. Students who complete five units in a single art form and successfully complete the exit exam in that art form are eligible to receive a Regents Endorsed Diploma with advanced designation in the arts.

### Description of School's Arts Programs

#### This school has submitted the following description of its arts program:

All dance curricular at PS 170 is informed by the NYC Blueprint for teaching and learning in the arts and includes rigorous instruction in basic technical skill as well as in vocabulary and conceptual understanding. Students participate in dance classes 2-3 times per week and are assessed both formally and informally on their progress as performers, choreographers, and dance appreciators. The curriculum is sequential and explores the concepts outlined below.

Kindergarten students gain an introduction to the art form of dance through various units which allow them to explore some basic precepts of dance. they begin working on improvisation skills and then progress through the year. First grade dance curriculum delves more deeply into the elements of dance as the students explore and create movement based on locomotor and axial movement. In second grade this basic knowledge is further enhanced by the study of various genres. The visual arts program at Ps170 is designed to introduce students to the elements of art. Students explore, medium technique, techniques various artists and create art. Students recognize the societal, cultural, and historical significance of art and connect the visual arts to other disciplines.
