## ANNUAL ARTS IN SCHOOLS REPORT 2010-2011

**This Annual Arts in Schools Report provides data for:**

School: 22K315

2010-2011 Principal: Judith Ranft-Quartana

### INSIDE THIS REPORT

The Annual Arts in Schools Report is a tool for school leaders to understand their delivery of arts education to every child in their school. Each Annual Arts in Schools Report is based upon responses submitted by schools and provides valuable information about two areas:

#### **Student Access to and Participation in Arts Education**

Uses survey information to understand if students are meeting the New York State Instructional Requirements for the Arts as well as the experiences, resources and facilities used to support arts learning in each school. In addition, this section reports on questions asked in the School Survey about arts education.

#### **Resources to Support Arts Education**

Uses survey information to understand the resources that schools are allocating for arts education. This section includes information on certified arts teachers, arts and cultural organization services, space for arts learning, arts fundraising and professional development opportunities for teachers.

Dear School Community,

This report provides a view of the arts education opportunities you are providing for your students based on your responses to the Annual Arts Education Survey in May 2011 and includes information from the New York City Department of Education's databases.

The Annual Arts in Schools Report is an important part of the New York City Department of Education's effort to ensure that schools are providing students with the high-quality arts education they need and deserve. The report has been created to help school leaders, parents, and teachers understand how they can improve student learning in the arts, building on the Blueprint for Teaching and Learning in the Arts which provides detailed PreK-12 curricula aligned with State standards:

### New York State Requirements for Arts Education

At the elementary level, in grades 1-6, the New York State Education Department (NYSED) requires that students receive instruction in dance, music, theater and visual arts in every grade. In addition, NYSED recommends that students spend a specific allocation of hours learning in the arts.<sup>i</sup>

At the middle school level, in grades 7 and 8, the NYSED expects that students achieve, by the end of grade 8, one half-unit of study in visual arts and one half-unit of study in music. NYSED has allowed schools to offer any two of the art forms to meet the requirements.

At the high school level, the New York State Education Department requires that all students graduate having taken one unit or two credits in the arts (dance, music, theater and/or visual arts). High schools have the option of offering a three or five year sequence in any one of the four art forms. Students who complete five units in a single art form and successfully complete the exit exam in that art form are eligible to receive a Regents Endorsed Diploma with advanced designation in the arts.

### Description of School's Arts Programs

#### **This school has submitted the following description of its arts program:**

Public School 315 is widely recognized as a successful school where the successful integration of Arts Education and academics and quality teaching are lifting student achievement. P.S. 315 has built an exemplary curriculum that emphasized both arts integration and sequential skills-based instruction in dance, music, visual arts and theater. Literacy, social studies, computer graphics and science all have art components taught by classroom teachers and academic clusters. The arts specialists all integrate literacy, social studies and science disciplines into their curriculum. The efforts of the teachers are reinforced by partnerships with a team of preeminent cultural institutions. It is the school's philosophy that through the emergence of the arts, students will be afforded to make valuable contributions to the community. We are passionate about the Performing Arts and firmly believe that when quality arts education is carefully integrated with quality academic instruction, student self-esteem will be greatly enhanced. The performing arts are an integral part of our academic program which includes vocal and instrumental music, dance and visual arts. We also have a chorus, string orchestra, band, and dance.
