INSIDE THIS REPORT

The Annual Arts in Schools Report is a tool for school leaders to understand their delivery of arts education to every child in their school. Each Annual Arts in Schools Report is based upon responses submitted by schools and provides valuable information about two areas:

Student Access to and Participation in Arts Education

Uses survey information from the NYCDOE Annual Arts Education Survey and databases to understand if students are meeting the New York State Instructional Requirements for the Arts as well as the experiences, resources and facilities used to support arts learning in each school. In addition, this section reports on questions asked in the NYCDOE School Survey and the NYS Basic Educational Data System (BEDS) Survey about arts education.

Resources to Support Arts Education

Uses survey information to understand the resources that schools are allocating for arts education. This section includes information on certified arts teachers, arts and cultural organization services, space for arts learning, arts fundraising and professional development opportunities for teachers.

Dear School Community,

This report provides a view of the arts education opportunities you are providing for your students based on your responses to the Annual Arts Education Survey in May 2013 and includes information from the New York City Department of Education's databases.

The Annual Arts in Schools Report is an important part of the New York City Department of Education's effort to ensure that schools are providing students with the high-quality arts education they need and deserve. The report has been created to help school leaders, parents, and teachers understand how they can improve student learning in the arts, building on the Blueprint for Teaching and Learning in the Arts which provides detailed PreK-12 curricula aligned with State standards:

New York State Requirements for Arts Education

At the elementary level, in grades 1-6, the New York State Education Department (NYSED) requires that students receive instruction in dance, music, theater and visual arts in every grade. In addition, NYSED recommends that students spend a specific allocation of hours learning in the arts.ⁱ

At the middle school level, in grades 7 and 8, the NYSED expects that students achieve, by the end of grade 8, one half-unit of study in visual arts and one half-unit of study in music. NYSED has allowed schools to offer any two of the art forms to meet the requirements.

At the high school level, the New York State Education Department requires that all students graduate having taken one unit or two credits in the arts (dance, music, theater and/or visual arts). High schools have the option of offering a three or five year sequence in any one of the four art forms. Students who complete five units in a single art form and successfully complete the Commencement Assessment in that art form are eligible to receive a Regents Endorsed Diploma with advanced designation in the arts.

Description of School's Arts Programs

This school has submitted the following description of its arts program:

During the 2012-2013 school year, we had a Performing Arts Cluster and a Visual Arts Cluster Teacher. We were able to service all of our students in the Arts. The students produced weekly art projects. In addition, the Visual Arts Cluster worked in collaboration with the classroom teachers on theme related projects and end of year projects. The Performing Arts Cluster Teacher directed the students in song, dance and drama. The students are assessed weekly and with culminating projects. The Performing Arts Teacher works collaboratively with the classroom teacher and assists when needed with monthly performances during our monthly Awards Assemblies. In addition, her students provide two presentations in January and June. We, at P.S.62, understand the value of the arts and art experiences for the students. In an effort to increase the students art experiences we encourage our teachers to take monthly trips. yn Bridge where they are exposed to structure and architecture. Each experience builds upon the students schema in an effort to use the arts to support the Common Core Standards.
