Dear School Community,

This report provides a view of the arts education opportunities you are providing for your students based on your responses to the *Annual Arts Education Survey* in May 2015 and includes information from the New York City Department of Education's databases.

The *Annual Arts in Schools Report* is an important part of the New York Department of Education's efforts to ensure that schools are providing students with high-quality arts education they need and deserve. The report has been created to help school leaders, parents, and teachers understand how they can improve student learning in the arts, building on the Blueprint for Teaching and Learning in the Arts which provides detailed PreK-12 curricula aligned with State standards:

New York State Guidelines and Requirements for Arts Education

The New York State Education Department (NYSED) has specific guidelines and requirements for arts instruction.

At the elementary level, in grades PreK-6, students should receive instruction in dance, music, theater, and visual arts. In addition, NYSED recommends that students spend a specific allocation of hours learning in the arts.

At the middle school level, in grades 7 and 8, the NYSED expects that students achieve, by the end of grade 8 one half-unit in dance, music, theater, or visual arts, and second half-unit in a second arts discipline.

At the high school level, the NYSED requires that all students graduate having taken at least two credits in the arts (dance, music, theater, and/or visual arts).

School's Arts Program Description

This school has submitted the following description of its arts program:
 P.S. 105 has a strong commitment to arts education and recognizes its potential to enrich every aspect of teaching and learning. Our goals, strategies, and major initiatives center on supplying all of the student population with instruction in visual arts, music, dance and theater using the New York City Blueprint for Teaching and Learning in the Arts, which is aligned to the Common Core State Standards. All students actively engage in the processes that constitute creation, performance, and participation in the arts. They respond to and analyze the arts with an understanding of the cultural dimensions and contributions of all arts disciplines. The arts instruction is implemented using a comprehensive and sequential standards-based approach, targeting the benchmarks in the blueprints. This allows students to be art makers, have literacy in the arts, make connections, be aware of community and cultural resources and develop into lifelong learners of the arts.
