Dear School Community,

This report provides a view of the arts education opportunities you are providing for your students based on your responses to the *Annual Arts Education Survey* in May 2015 and includes information from the New York City Department of Education's databases.

The *Annual Arts in Schools Report* is an important part of the New York Department of Education's efforts to ensure that schools are providing students with high-quality arts education they need and deserve. The report has been created to help school leaders, parents, and teachers understand how they can improve student learning in the arts, building on the Blueprint for Teaching and Learning in the Arts which provides detailed PreK-12 curricula aligned with State standards:

New York State Guidelines and Requirements for Arts Education

The New York State Education Department (NYSED) has specific guidelines and requirements for arts instruction.

At the elementary level, in grades PreK-6, students should receive instruction in dance, music, theater, and visual arts. In addition, NYSED recommends that students spend a specific allocation of hours learning in the arts.

At the middle school level, in grades 7 and 8, the NYSED expects that students achieve, by the end of grade 8 one half-unit in dance, music, theater, or visual arts, and second half-unit in a second arts discipline.

At the high school level, the NYSED requires that all students graduate having taken at least two credits in the arts (dance, music, theater, and/or visual arts).

School's Arts Program Description

This school has submitted the following description of its arts program:
 At PS 503, it is our belief that the arts are a basic and integral part of a high quality education. It is also our belief that every student, regardless of background or economic status, is entitled to this level of education. Every student in our school is provided with arts education as a standard part of our school schedule. We strive to offer students additional opportunities to explore specific areas of the arts. The arts are not taught in isolation; they are used as pathways to exploration of content areas and humanities as well as forums of study of artistic techniques. We expose our students to various art forms, offering opportunities for them to experiment and explore techniques, and encourage them to express themselves. Collaboration between teachers and across domains creates a multi-layered, cross-disciplinary program that enables the students to appreciate the interconnectedness of subjects.
