Dear School Community,

This report provides a view of the arts education opportunities you are providing for your students based on your responses to the *Annual Arts Education Survey* in May 2015 and includes information from the New York City Department of Education's databases.

The *Annual Arts in Schools Report* is an important part of the New York Department of Education's efforts to ensure that schools are providing students with high-quality arts education they need and deserve. The report has been created to help school leaders, parents, and teachers understand how they can improve student learning in the arts, building on the Blueprint for Teaching and Learning in the Arts which provides detailed PreK-12 curricula aligned with State standards:

New York State Guidelines and Requirements for Arts Education

The New York State Education Department (NYSED) has specific guidelines and requirements for arts instruction.

At the elementary level, in grades PreK-6, students should receive instruction in dance, music, theater, and visual arts. In addition, NYSED recommends that students spend a specific allocation of hours learning in the arts.

At the middle school level, in grades 7 and 8, the NYSED expects that students achieve, by the end of grade 8 one half-unit in dance, music, theater, or visual arts, and second half-unit in a second arts discipline.

At the high school level, the NYSED requires that all students graduate having taken at least two credits in the arts (dance, music, theater, and/or visual arts).

School's Arts Program Description

This school has submitted the following description of its arts program:

The Neighborhood School is a small progressive school that puts art and inquiry at the center of its curriculum. Every study provides material for representation in art and for deeper inquiry through art. We explore art for art's sake, and we study art to help us empathize with our subject matter whether it be through getting to know the visual details of something by representing it visually, by taking on characteristics of our themes by acting them out, or by creating dance pieces to evoke themes and ideas from our studies. Additionally, children at The Neighborhood School learn about their community and city through art collaborations, partnerships, and trips to art institutions and organizations throughout the city. It is our hope that children at the Neighborhood School will see the arts as seamlessly integrated parts of being and learning, and that they will connect to the vast array of artwork in the world.
