Dear School Community,

This report provides a view of the arts education opportunities you are providing for your students based on your responses to the *Annual Arts Education Survey* in May 2015 and includes information from the New York City Department of Education's databases.

The *Annual Arts in Schools Report* is an important part of the New York Department of Education's efforts to ensure that schools are providing students with high-quality arts education they need and deserve. The report has been created to help school leaders, parents, and teachers understand how they can improve student learning in the arts, building on the Blueprint for Teaching and Learning in the Arts which provides detailed PreK-12 curricula aligned with State standards:

### New York State Guidelines and Requirements for Arts Education

The New York State Education Department (NYSED) has specific guidelines and requirements for arts instruction.

At the elementary level, in grades PreK-6, students should receive instruction in dance, music, theater, and visual arts. In addition, NYSED recommends that students spend a specific allocation of hours learning in the arts.

At the middle school level, in grades 7 and 8, the NYSED expects that students achieve, by the end of grade 8 one half-unit in dance, music, theater, or visual arts, and second half-unit in a second arts discipline.

At the high school level, the NYSED requires that all students graduate having taken at least two credits in the arts (dance, music, theater, and/or visual arts).

## School's Arts Program Description

### This school has submitted the following description of its arts program:

At I.S. 151, we ensure that our students develop an appreciation of, and confidence in, creative self-expression; have an awareness of global cultures and an exposure to diverse art forms; develop an understanding of the effects and use of technology in the field of visual arts, music and film; be given the opportunity to participate/engage in meaningful art experiences; be able to analyze and interpret artistic images using the appropriate language/vocabulary; create works of art on an appropriate level of artistic proficiency; become cognizant of career opportunities that are art-related. All these are in keeping with the school's implementation of Literacy in the Arts, addressing the appropriate Common Core Learning Standards. Our students are exposed to flexible and real-world learning environments in order to appreciate and analyze different forms & elements of visual arts. All activities are well planned so as to build a foundation for college and career readiness, using arts as the booster for our students to gain access to meaningful learning conditions.
