Dear School Community,

This report provides a view of the arts education opportunities you are providing for your students based on your responses to the *Annual Arts Education Survey* in May 2016 and includes information from the New York City Department of Education's databases.

The *Annual Arts in Schools Report* is an important part of the New York Department of Education's efforts to ensure that schools are providing students with high-quality arts education they need and deserve. The report has been created to help school leaders, parents, and teachers understand how they can improve student learning in the arts, building on the Blueprint for Teaching and Learning in the Arts which provides detailed PreK-12 curricula aligned with State standards:

New York State Guidelines and Requirements for Arts Education

The New York State Education Department (NYSED) has specific guidelines and requirements for arts instruction.

At the **elementary level**, in grades PreK-6, students should receive instruction in dance, music, theater, and visual arts. In addition, NYSED recommends that students spend a specific allocation of hours learning in the arts.

At the **middle school level**, in grades 7 and 8, the NYSED expects that students achieve, by the end of grade 8 one half-unit in dance, music, theater, or visual arts, and second half-unit in a second arts discipline.

At the **high school level**, the NYSED requires that all students graduate having taken at least two credits in the arts (dance, music, theater, and/or visual arts).

School's Arts Program Description

This school has submitted the following description of its arts program:

P35M is an elementary through high school with students from Kindergarten through grade 12. P35M is dedicated to academic excellence. P35M offers students multifaceted arts experiences in an environment organized to provide opportunities and supports appropriate to student abilities. Teachers implement the Blueprint for Teaching and Learning in the Arts Curriculum and The New York State Arts Standards by aligning arts instruction with the Common Core Learning Standards. Assessment is made on individual achievement related to each student's stage of growth and development. An arts integration model engages students in various arts activities linked to literacy in the arts, making arts connections to other academic areas, utilizing community cultural resources, acquiring knowledge of arts careers and encouraging students to regard arts as a means of expression and a source of lifelong enjoyment. The art program enables each student to develop positive attitudes toward self, others and the environment through creative experiences. Problem solving and creative learning encourage the student to relate visual knowledge to other core subjects and to respond with originality, appreciation, flexibility and imagination.
