Dear School Community,

This report provides a view of the arts education opportunities you are providing for your students based on your responses to the *Annual Arts Education Survey* in May 2016 and includes information from the New York City Department of Education's databases.

The *Annual Arts in Schools Report* is an important part of the New York Department of Education's efforts to ensure that schools are providing students with high-quality arts education they need and deserve. The report has been created to help school leaders, parents, and teachers understand how they can improve student learning in the arts, building on the Blueprint for Teaching and Learning in the Arts which provides detailed PreK-12 curricula aligned with State standards:

New York State Guidelines and Requirements for Arts Education

The New York State Education Department (NYSED) has specific guidelines and requirements for arts instruction.

At the **elementary level**, in grades PreK-6, students should receive instruction in dance, music, theater, and visual arts. In addition, NYSED recommends that students spend a specific allocation of hours learning in the arts.

At the **middle school level**, in grades 7 and 8, the NYSED expects that students achieve, by the end of grade 8 one half-unit in dance, music, theater, or visual arts, and second half-unit in a second arts discipline.

At the **high school level**, the NYSED requires that all students graduate having taken at least two credits in the arts (dance, music, theater, and/or visual arts).

School's Arts Program Description

This school has submitted the following description of its arts program:

Our Specialty classes are taught by full-time YCS Specialty teachers, certified in their practice. Our specials include visual arts, dance music, band and chorus programs. Students receive one–two periods a week of each Specialty class. Our monthly “Specials” news, included in our newsletter, provides you with information regarding what children are learning in each class and how families can support at home.

In addition to our Specialty classes, we offer enrichment opportunities which are provided by Community Based Organizations, (CBO's). These programs provide our students with the unique opportunities to further promote excellence, self-confidence, creativity, and the development of strong-will. They further support our attempts to expand on our students' learning in ways that bring new concepts to light or by using old concepts in new ways. These programs are fun for our students, but they also impart knowledge as well as encourage our students to use new skills stressed in school to real-life experiences. Providing all of our students with opportunities to learn more about themselves, their skills, strengths, and giving them a chance to develop interests, increases student engagement and decreases occurrences that negatively affect the learning community.
