Dear School Community,

This report provides a view of the arts education opportunities you are providing for your students based on your responses to the *Annual Arts Education Survey* in May 2016 and includes information from the New York City Department of Education's databases.

The *Annual Arts in Schools Report* is an important part of the New York Department of Education's efforts to ensure that schools are providing students with high-quality arts education they need and deserve. The report has been created to help school leaders, parents, and teachers understand how they can improve student learning in the arts, building on the Blueprint for Teaching and Learning in the Arts which provides detailed PreK-12 curricula aligned with State standards:

New York State Guidelines and Requirements for Arts Education

The New York State Education Department (NYSED) has specific guidelines and requirements for arts instruction.

At the **elementary level**, in grades PreK-6, students should receive instruction in dance, music, theater, and visual arts. In addition, NYSED recommends that students spend a specific allocation of hours learning in the arts.

At the **middle school level**, in grades 7 and 8, the NYSED expects that students achieve, by the end of grade 8 one half-unit in dance, music, theater, or visual arts, and second half-unit in a second arts discipline.

At the **high school level**, the NYSED requires that all students graduate having taken at least two credits in the arts (dance, music, theater, and/or visual arts).

School's Arts Program Description

This school has submitted the following description of its arts program:

The arts program at Dual Language Middle School focuses upon developing students' literacy in the visual and performing arts. Within the three-year sequence of studio arts classes students participate in the process of art-making through the exploration of artistic history and the various media, subject matter, and symbolism therein. Students respond critically to a variety of works in the arts and make connections between the art and other subjects as a result of their studies. Students develop understanding of and appreciation for the reasons people and cultures construct works of art, both visual and performance, and how the arts shape the diverse cultures of past and present society. During the three-year dance sequence, students explore not only the steps, but also the history and symbolism within dances from a variety of cultures and time periods including Bharatanatyam, traditional African dance, Salsa, Hip-Hop, Jazz, and ballroom dance styles to name a few.
