Dear School Community,

This report provides a view of the arts education opportunities you are providing for your students based on your responses to the *Annual Arts Education Survey* in May 2016 and includes information from the New York City Department of Education's databases.

The *Annual Arts in Schools Report* is an important part of the New York Department of Education's efforts to ensure that schools are providing students with high-quality arts education they need and deserve. The report has been created to help school leaders, parents, and teachers understand how they can improve student learning in the arts, building on the Blueprint for Teaching and Learning in the Arts which provides detailed PreK-12 curricula aligned with State standards:

### New York State Guidelines and Requirements for Arts Education

The New York State Education Department (NYSED) has specific guidelines and requirements for arts instruction.

At the **elementary level**, in grades PreK-6, students should receive instruction in dance, music, theater, and visual arts. In addition, NYSED recommends that students spend a specific allocation of hours learning in the arts.

At the **middle school level**, in grades 7 and 8, the NYSED expects that students achieve, by the end of grade 8 one half-unit in dance, music, theater, or visual arts, and second half-unit in a second arts discipline.

At the **high school level**, the NYSED requires that all students graduate having taken at least two credits in the arts (dance, music, theater, and/or visual arts).

## School's Arts Program Description

### This school has submitted the following description of its arts program:

Our goal for the 2015-2016 school year is to help our students become critical thinkers by using the arts in their academic and daily lives, making them college and career ready for the 21st century. The arts integrate and support all the core subject areas such as math, reading, social studies and science. We also used the arts to improve student motivation, self - esteem, cognitive skills and verbal skills through the different programs that we have in our school such as the Education Through Music, Studio in A school/ Anne Frank Center and through our teachers who follow the Blueprint for the Arts. We have added to our repertoire of art programs, The Visual Thinking Strategies. This program is designed to expose students to different art work. The students connect to the art work and express their opinions and build social awareness. Our quest for the upcoming school year is to enhance and support our students' and teachers' knowledge of the arts
