Dear School Community,

This report provides a view of the arts education opportunities you are providing for your students based on your responses to the *Annual Arts Education Survey* in May 2016 and includes information from the New York City Department of Education's databases.

The *Annual Arts in Schools Report* is an important part of the New York Department of Education's efforts to ensure that schools are providing students with high-quality arts education they need and deserve. The report has been created to help school leaders, parents, and teachers understand how they can improve student learning in the arts, building on the Blueprint for Teaching and Learning in the Arts which provides detailed PreK-12 curricula aligned with State standards:

### New York State Guidelines and Requirements for Arts Education

The New York State Education Department (NYSED) has specific guidelines and requirements for arts instruction.

At the **elementary level**, in grades PreK-6, students should receive instruction in dance, music, theater, and visual arts. In addition, NYSED recommends that students spend a specific allocation of hours learning in the arts.

At the **middle school level**, in grades 7 and 8, the NYSED expects that students achieve, by the end of grade 8 one half-unit in dance, music, theater, or visual arts, and second half-unit in a second arts discipline.

At the **high school level**, the NYSED requires that all students graduate having taken at least two credits in the arts (dance, music, theater, and/or visual arts).

### School's Arts Program Description

#### This school has submitted the following description of its arts program:

Our visual art, music and dance teachers offer sequential art instruction to all students in Grades K-5. Students are also given in-school art residencies in visual arts, dance and African drums. We offer interdisciplinary connections to help build on the students learning inside the classroom. Our visual arts teachers develop integrated art units that are designed to enhance the Common Core Learning Standards. Through creating, performing, responding and connecting, students are able to develop their art skills and imaginations. Students learn to understand how others express themselves through music, dance and visual arts. Our students learn to share ideas and emotions and how to turn those into images, sounds, and actions. As our students create artistically through the arts they become more imaginative and strengthen their problem-solving skills.
