

Accelerated Learning

AAC Goals for Children:

Addressing State Academic Standards

INTERMEDIATE

Course Description:

In this session, we will examine typical state academic standards for the general curriculum. We will address how an AAC device can help students with complex communication needs access this curriculum and meet performance standards. Specifically, we will focus on literacy standards and how they provide the necessary foundation for participation in all areas of the general curriculum. Examples will include academic standards for grades K-6. We will allow time to outline and develop a lesson plan that addresses specific IEP goals.

Agenda:

- Specific state standards and examples: K-3
- Specific state standards and examples: 4-6
- Fundamentals for successful use of AAC in the classroom
- Personalizing: Standards and strategies for specific individuals
- Questions and Discussion

This workshop will be presented by a speech-language pathologist employed by DynaVox. Our Implementation Specialists have practical experience working with a variety of augmentative and alternative communication users. They also have a passion for teaching others how to support AAC users. The Implementation Specialists have presented on the topic of AAC at local, national, and international conferences as well as full-day implementation workshops.

Target Audience:

Speech-language pathologists, teachers, occupational therapists, para-educators, parents/family members, and others involved in the lives of AAC users
