

When the weather is nice outside

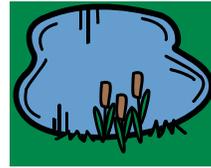

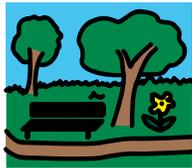

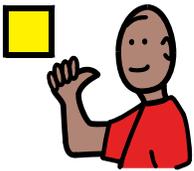

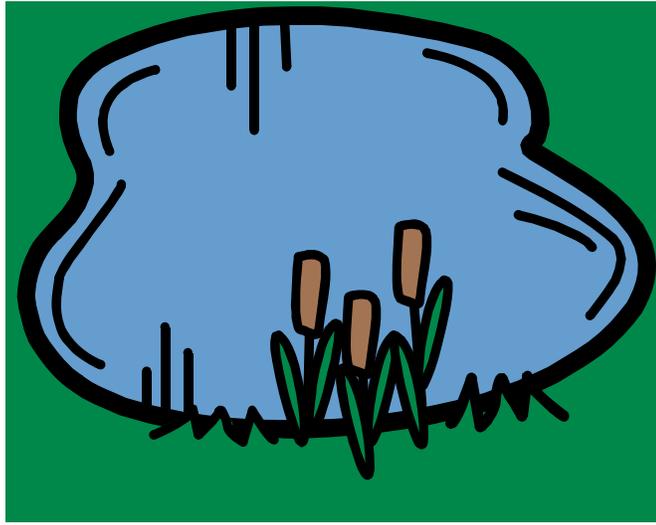

I like to go to the park.

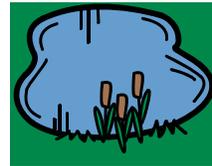

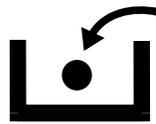

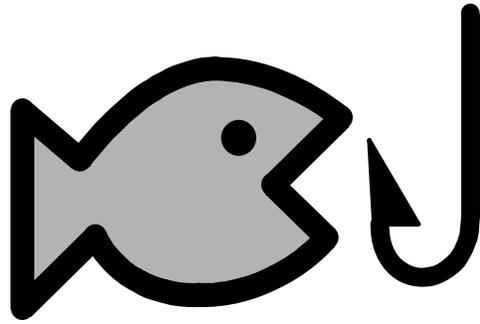

There are lots of different places to

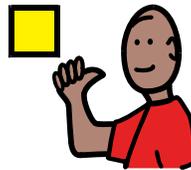

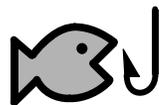

hang out in the park.

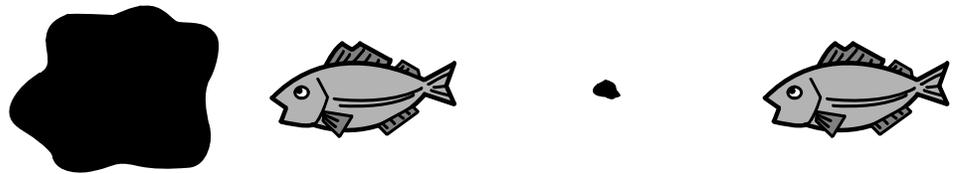

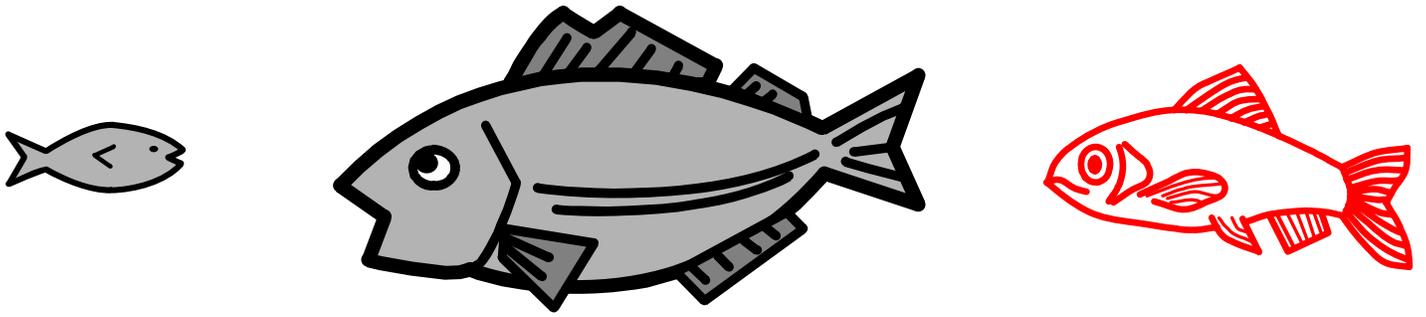

At my park there is a pond.

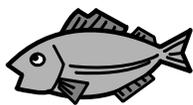

There are fish in the pond and I

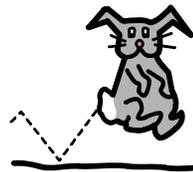

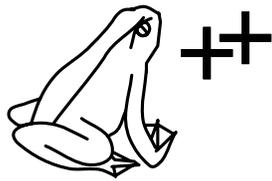

can go fishing with my friends.

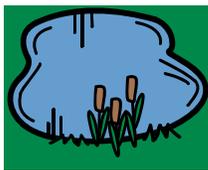

There are big fish, little fish,

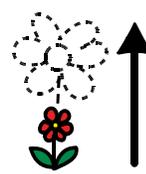

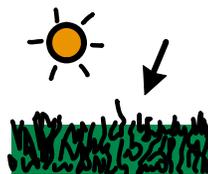

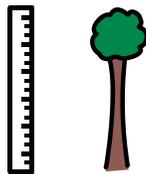

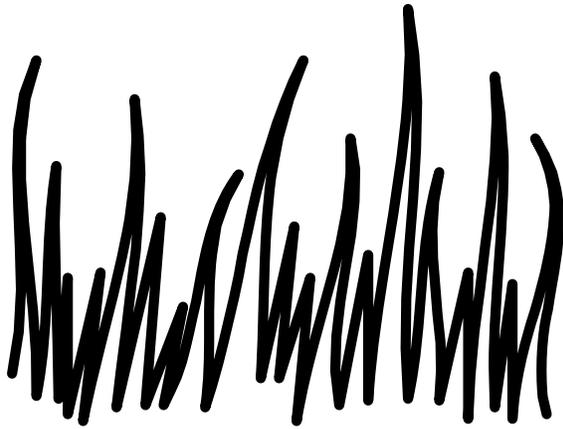

and fish of all different colors.

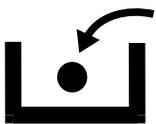

There are frogs that hop around

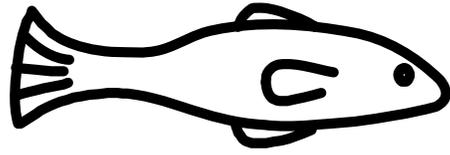

the pond.

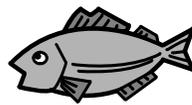

There are tall grasses that grow

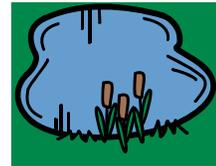

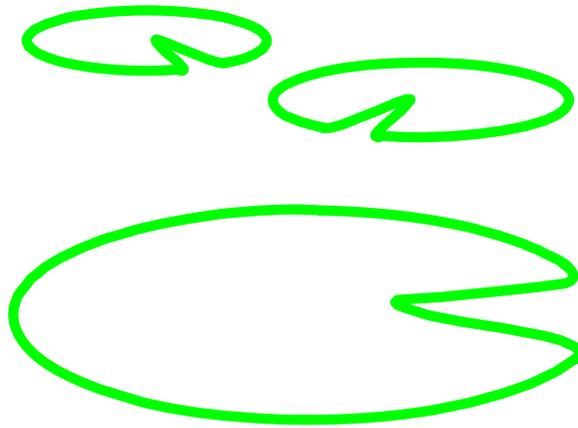

in and around the pond.

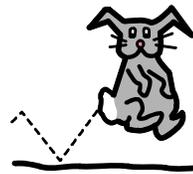

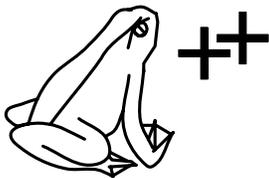

There are minnows that you can catch

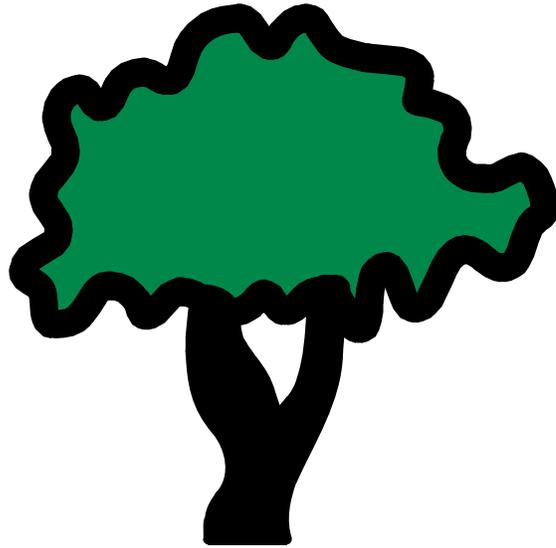

to catch other fish with.

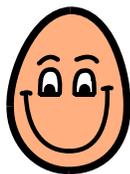

There are lily pads on top of the pond

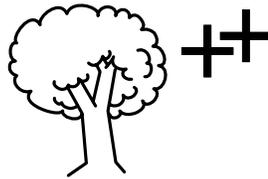

that frogs sometimes hop on.

I

like

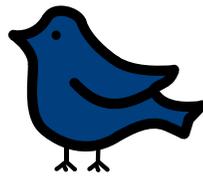

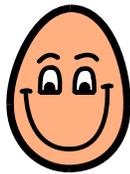

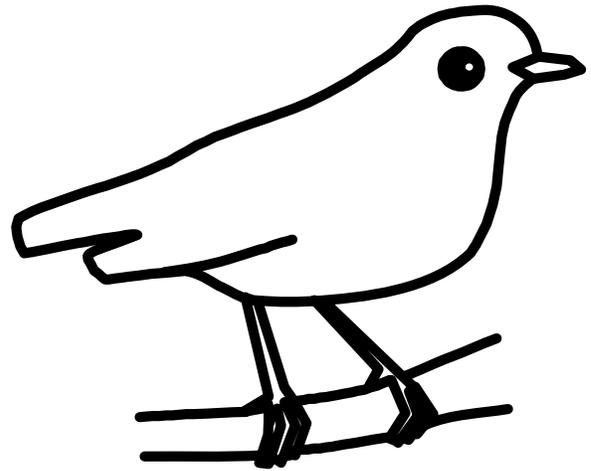

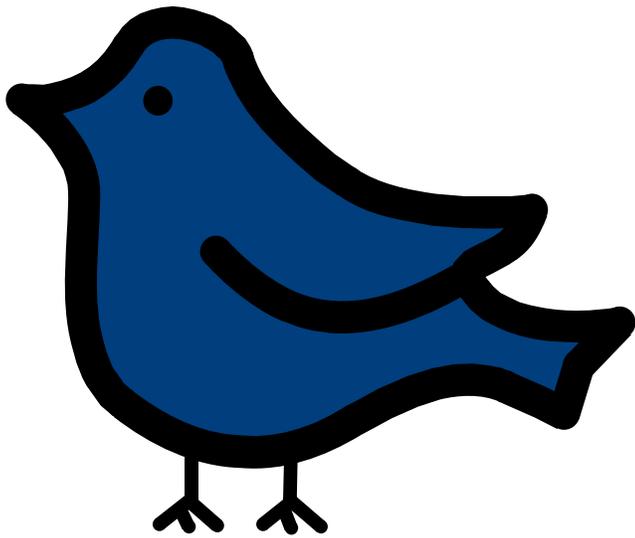

the

trees

in the

park.

I

like

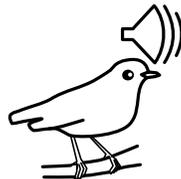

the

birds

that

live

in

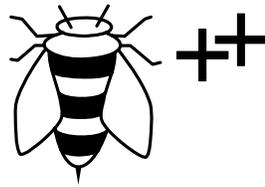

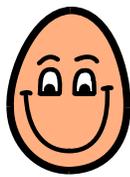

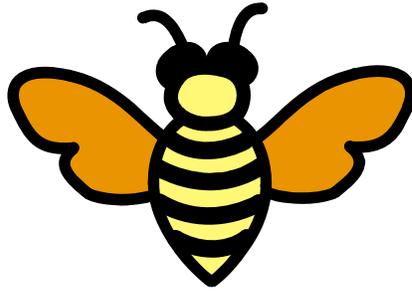

the

trees

and

chirp.

I

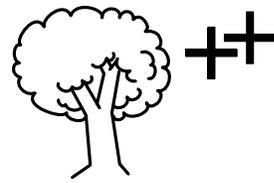

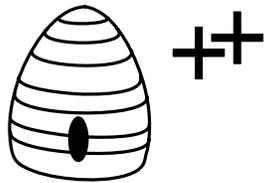

like

the

bees

that

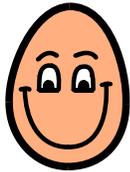

buzz

and make beehives in the trees.

I

like

the

owls

that live in

the

trees

and

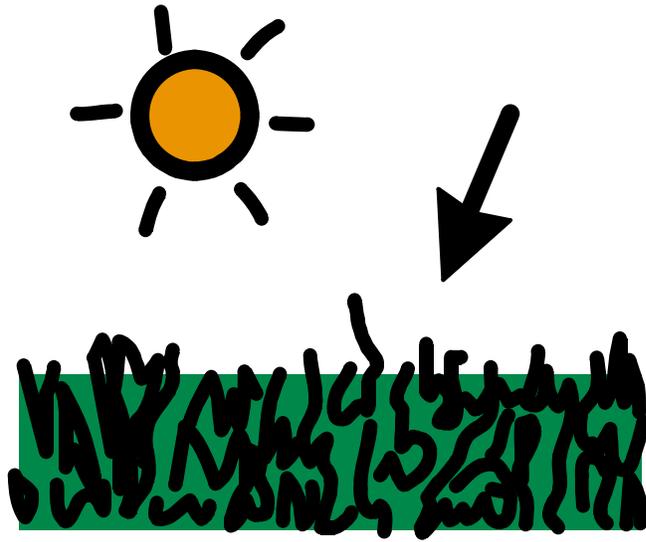

hoot

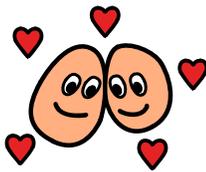

at

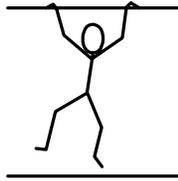

night.

I

love

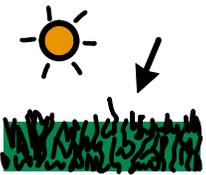

hanging

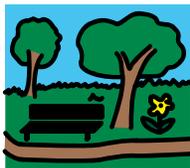

out

on the

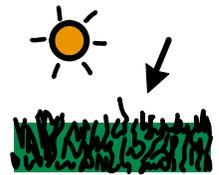

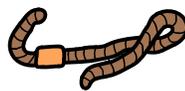

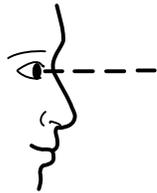

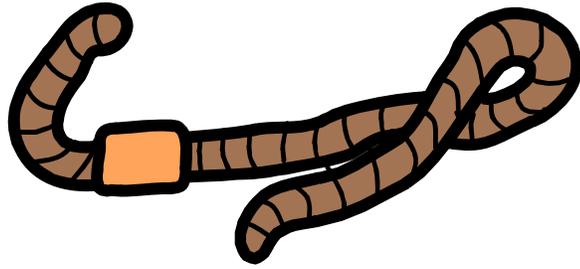

grass

in the

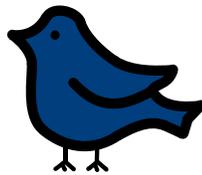

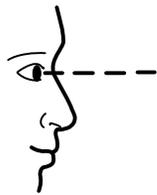

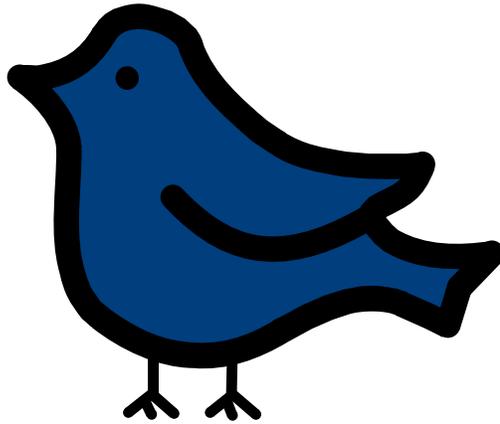

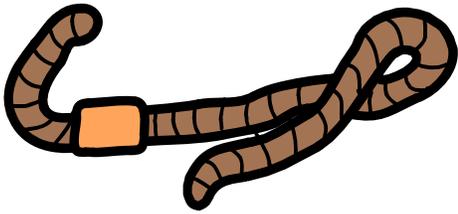

park.

Sometimes I see a worm in the grass

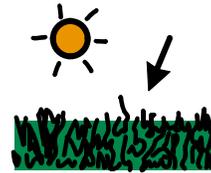

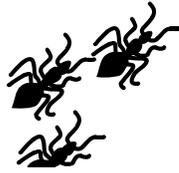

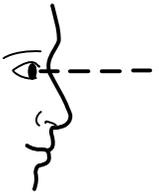

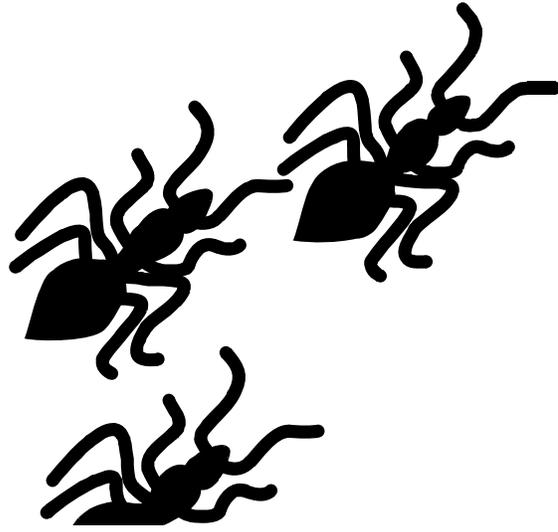

and my brother tries to eat it!

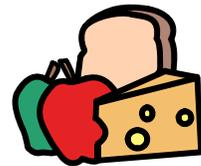

Sometimes I see a bird eat a

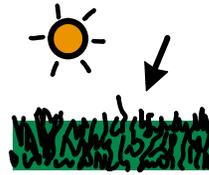

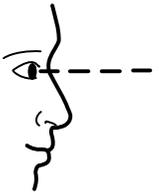

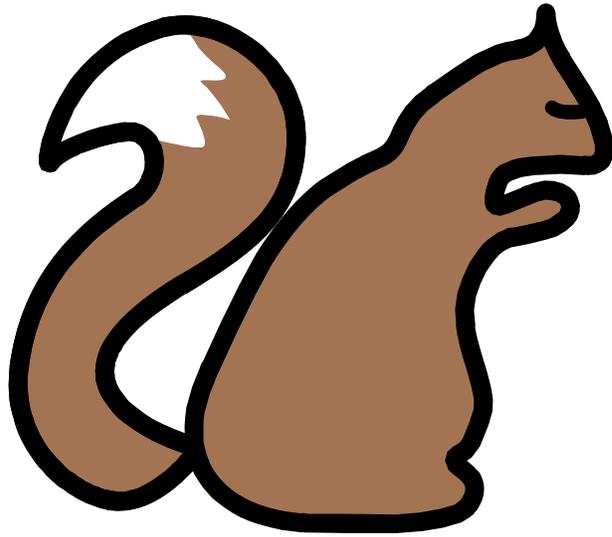

worm in the park.

I see lots of ants in the grass and

they always try to eat my food!

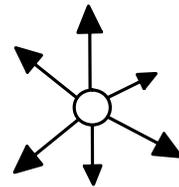

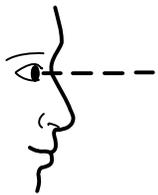

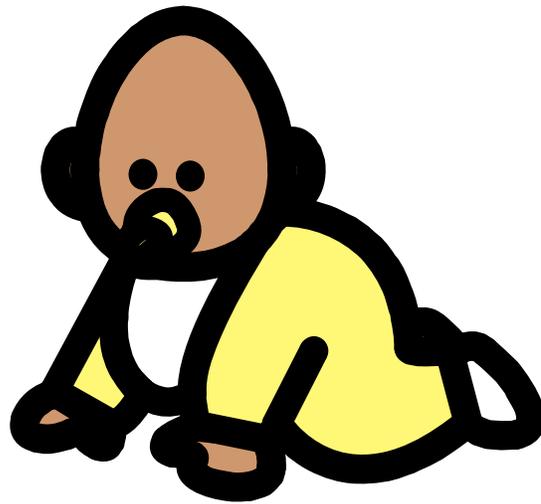

I see squirrels on the grass and in the

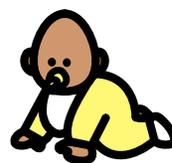

trees

eating

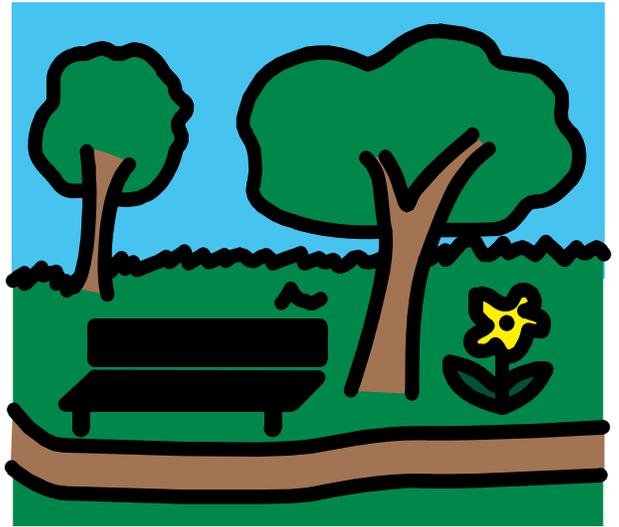

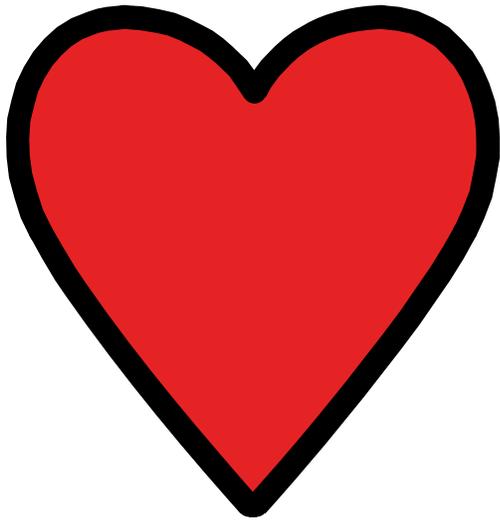

nuts.

I see babies crawling everywhere!

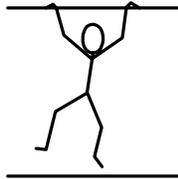

And mommies chasing after them!

I

love

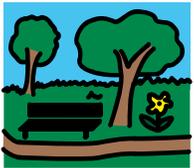

hanging

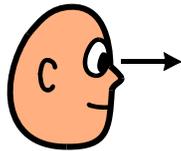

out

all over the

park

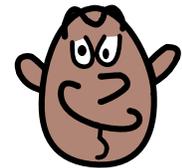

and

seeing

all

kinds

of

crazy

things!
