

### **Nicholas' Success...**

Hey! Nicholas is doing so well with his iPad, I'm sososo excited for him. He's already writing 3-4 word sentences, and independently approaches different teachers to share messages with them (e.g. when I took him to speech today- he told three different people "I go speech room."). In math class he was using it to solve math problems ( $8 \times 1 = 8$ ,  $6 \times 1 = 6$ , etc.) and again went around the room to show each teacher. During lunch he told us what he liked and what he didn't like to eat (he pointed to a blank space on the board and said egg. When I added egg to the board, he wrote "I not eat egg"). I can't wait to see how far we can go with it. Thanks again for everything. I'll keep you updated. See you Friday!
