

General Instructional Strategy

to review and reinforce EDM secure skills and routines,
and NYS grade level performance indicators:

Provide a daily warm-up reviewing an EDM routine:

Monday:

Name Collection Box (depending on the grade level: # of the day, date, fraction, decimal)

Tuesday:

Number Grid Puzzle (depending on grade level: 2-digit or 3-digit numbers)

Wednesday:

Frames & Arrows (depending on grade level and skill: use a variety of patterns and sequences, whole numbers, money, fractions)

Thursday:

Function Machine (depending on grade level and skill: use addition, subtraction, multiplication, division,)

Friday:

Word problem involving an appropriate grade level algorithm

Include a Secure Skill each day or substitute a secure skill for one of the routines

Note: The level of difficulty can be adjusted by your choice of numbers and the complexity of the task given to the whole class, or individual students.
