## **DIRECTIONS AND GUIDANCE FOR COMPLETING THE ANNUAL GOALS AND ACTION PLAN SECTION**

The CEP goal-setting process serves both to support the identification and implementation of school-wide goals as well as to document how your school is meeting Federal, State, and City regulations.

As a result of principal feedback on this process, the CEP has been significantly streamlined to reduce the amount of time spent fulfilling requirements and to allow schools to focus on goal-setting and instructional priorities. The goal and action plan section, contained on pages 4 through 8 of this template, now serves as the central work of the CEP process and reflects a consolidation of numerous CEP requirements from prior years.

Below you will find guidance on documenting annual goals and action plans.

### **WHICH SCHOOLS NEED TO COMPLETE THIS?**

- All schools should identify and submit annual goals and action plans in consultation with their School Leadership Team.

### **HOW DO CEP GOALS RELATE TO GOALS SET FOR THE PRINCIPAL PERFORMANCE REVIEW (PPR)?**

- CEP goals are generally intended to guide school-wide planning and development. CEP goals may be adapted from goals set by the principal for the Principal Performance Review (PPR) if they are appropriate for use as school-wide goals.

### **HOW SHOULD A SCHOOL DEVELOP ITS GOALS AND ACTION PLANS?**

- Your school should identify a minimum of three and a maximum of five annual goals.
- Goals should be “SMART” - specific, measurable, achievable, realistic, and time-bound.
- Goal development should be based on an assessment of your school’s needs.
- Your school should demonstrate the use of both qualitative and quantitative data in providing the rationale for each goal. Cite sources that contributed to the rationale, such as the Progress Report, Quality Review, School Survey, State Differentiated Accountability report (SQR, ESCA, or JIT), state and school assessment results, attendance records, inquiry team work, etc.
- Each goal and action plan requires your school to cite the strategies and activities in your Parent Involvement Policy (PIP) that will be implemented to achieve the goal identified. The PIP template is provided on pages 11 through 15. Your school is encouraged to use the template as it is provided, or align it in accordance with your school’s goals, or replace it entirely with a Parent Involvement Policy created by your school that meets federal requirements. You may use or amend relevant sections of your PIP directly to respond to the parental involvement section of each goal and action plan.
- Schools designated as Improvement, Corrective Action, Restructuring, and/or PLA/SURR by the New York State Education Department must identify a goal and complete an action plan related to improving student outcomes for the specific subject area and subgroups identified for improvement. For each subject area identified, a goal and action plan is required.

**DIRECTIONS AND GUIDANCE FOR DEVELOPING OR UPDATING  
THE PARENT INVOLVEMENT POLICY (PIP)**

The template below meets the parental involvement requirements of Title I. Your school is encouraged to use the template as it is provided, or align it in accordance with your school's goals, or replace it entirely with a Parent Involvement Policy created by your school that meets federal requirements.

The PIP should describe how your school will plan and implement effective parent involvement activities to improve student academic achievement and school performance. The School-Parent Compact is a component of the PIP that outlines how parents, the entire school staff, and students will share this responsibility.

---

**PARENT INVOLVEMENT POLICY (PIP) TEMPLATE**

Educational research shows a positive correlation between effective parental involvement and student achievement. The overall aim of this policy is to develop a parent involvement program that will ensure effective involvement of parents and community in our school. Therefore, our school, in compliance with the Section 1118 of Title I, Part A of the No Child Left Behind (NCLB) Act, is responsible for creating and implementing a parent involvement policy to strengthen the connection and support of student achievement between our school and the families. Our school's policy is designed to keep parents informed by actively involving them in planning and decision-making in support of the education of their children. Parents are encouraged to actively participate on the School Leadership Team, Parent Association, and Title I Parent Committee as trained volunteers and welcomed members of our school community. Our school will support parents and families of Title I students by:

Our school's Parent Involvement Policy was designed based upon a careful assessment of the needs of all parents/guardians, including parents/guardians of English Language Learners and students with disabilities. Our school community will conduct an annual evaluation of the content and effectiveness of this parent involvement policy with Title I parents to improve the academic quality of our school. The findings of the evaluation through school surveys and feedback forms will be used to design strategies to more effectively meet the needs of parents, and enhance the school's Title I program. This information will be maintained by the school.

In developing the Title I Parent Involvement Policy, parents of Title I participating students, parent members of the school's Parent Association (or Parent-Teacher Association), as well as parent members of the School Leadership Team, were consulted on the proposed Title I Parent Involvement Policy and asked to survey their members for additional input. To increase and improve parent involvement and school quality, our school will:

The Parent Coordinator will also maintain a log of events and activities planned for parents each month and file a report with the central office.;

This LAP form, an appendix of the CEP, also incorporates information required for CR Part 154 funding so that a separate submission is no longer required. Agendas and minutes of LAP meetings should be kept readily available on file in the school. Also, when preparing your school's submission, provide extended responses in the green spaces. Spell-check has been disabled in this file, so consider typing responses to these questions in a separate file before copying them into the submission form. ## Part II: ELL Identification Process

Describe how you identify English Language Learners (ELLs) in your school. Answer the following:

1. Describe the steps followed for the initial identification of those students who may possibly be ELLs. These steps must include administering the Home Language Identification Survey (HLIS) which includes the informal oral interview in English and in the native language, and the formal initial assessment. Identify the person(s) responsible, including their qualifications, for conducting the initial screening, administering the HLIS, the LAB-R (if necessary), and the formal initial assessment. Also describe the steps taken to annually evaluate ELLs using the New York State English as a Second Language Achievement Test (NYSESLAT).
2. What structures are in place at your school to ensure that parents understand all three program choices (Transitional Bilingual, Dual Language, Freestanding ESL)? Please describe the process, outreach plan, and timelines.
3. Describe how your school ensures that entitlement letters are distributed and Parent Survey and Program Selection forms are returned? (If a form is not returned, the default program for ELLs is Transitional Bilingual Education as per CR Part 154 [see tool kit].)
4. Describe the criteria used and the procedures followed to place identified ELL students in bilingual or ESL instructional programs; description must also include any consultation/communication activities with parents in their native language.
5. After reviewing the Parent Survey and Program Selection forms for the past few years, what is the trend in program choices that parents have requested? (Please provide numbers.)
6. Are the program models offered at your school aligned with parent requests? If no, why not? How will you build alignment between parent choice and program offerings? Describe specific steps underway. 

English Language Learners are initially identified through the Home Language Identification Survey (HLIS ) at registration. The English as a Second Language teacher reviews the HLIS to identify which students are eligible for the Language Assessment Battery-Revised (LABR) testing. Once students are identified they are assessed to determine their fluency in English and placed in the ESL Program if they have not received a proficient score on the LAB-R. Once the students are placed in the ESL Program they receive ESL services throughout the school year. Annually English Language Learners are evaluated using the New York State English as a Second Language Assessment Test (NYSESLAT) to determine their fluency in reading, speaking, listening and writing.

At the beginning of the school year once the new ELLs have been admitted letters are sent out regarding placement and the program choices for their child. The Parent Coordinator conducts a Parent Orientation Workshop which usually occurs during the month of October. Entitlement letters, Parent Surveys and Program Selection forms are generally distributed during this workshop and outreach through phone calls are made to remind parents to return the forms to a contact person at the school usually the ESL teacher. Parents are informed through the placement letters in their native language that their child is placed in an ESL instructional Program. Upon review of the Parent Survey and the Program Selection forms for the past few years the trend in program choices is that parents have requested to have their children placed in the school's Free-Standing ESL Program. The numbers for the Free-Standing ESL Program have been 100% for each child who needs placement. Due to the fact that parents have requested the Free-Standing ESL Program for their children the program model offered at Public School 5 does align with the parent's request.

**Part A: Needs Assessment Findings**

---

1. Describe the data and methodologies used to assess your school's written translation and oral interpretation needs to ensure that all parents are provided with appropriate and timely information in a language they can understand.

P.S. 5 is a pre-k to 5 elementary school located in the area of Bedford Stuyvesant in Brooklyn. The demographics of the school is as follows: 95% black, 4% Hispanic and 1% Chinese. Of the 400 students at P.S. 5 14 of them are English Language Learners (ELLs) and receive English as a Second Language (ESL) services. Of the 9 ELLs 3 are kindergarten, 4 in first grade, 2 in second grade, 3 in fourth grade, and 2 in fifth grade. Of those 14 ELLs, 7 are beginners, 5 are intermediate and 2 are advanced. As students enter the New York City Public School system they are administered the LAB-R exam to evaluate their level of proficiency in the English language. There are three options for ELL students who score low on LAB-R. The three options are Transitional Bilingual, Dual Language and ESL. P.S. 5 offers only ESL services although the opportunity is made available for parents to transfer their child to another school if they prefer a different program within the community. Parents of P.S. 5 whose child does not obtain a passing score on LAB-R tend to prefer the freestanding ESL program. At the end of each school year the ELLs take the NYSESLAT as an evaluation to determine their proficiency in order to exit the ESL program. P.S. 5 provides services to the ELLs through a fully qualified ESL teacher. ESL services are provided in classes through the models of push-in/pull-out. The push-in model is used to support student during the readers and writers workshop periods. During this time ELLs are provided with support within their classroom environment. Through the pull-out model the ESL teacher plans in accordance with the units of study, using conferring notes and assessment to provide individualized and whole group instruction. Newcomers at P.S. 5 are serviced with the intent of providing them with the language skills they need to function successfully in their new country, community and school. Newcomers are place with English speaking peers in an age appropriate environment to offer them language acquisition opportunities and support. The plan for academic language development is to provide students with extra opportunities for support. Such opportunities as Academic Intervention in which teacher push-in to the classroom and provide support for the learning process. The school's plan for long term ELLs is to evaluate their NYSESLAT score to determine the areas most in need of improvement.

At the beginning of the school year once the new ELLs have been admitted letters are sent out regarding placement and the program choices for their child. The Parent Coordinator conducts a Parent Orientation Workshop which usually occurs during the month of October. Entitlement

letters, Parent Surveys and Program Selection forms are generally distributed during this workshop and outreach through phone calls are made to remind parents to return the forms to a contact person at the school usually the ESL teacher. Parents are informed through the placement letters in their native language that their child is placed in an ESL Instructional Program. Upon review of the Parent Survey and the Program Selection forms for the past few years the trend in program choices is that parents have requested to have their children place in the school's Free-Standing ESL Program. The numbers for the Free-Standing ESL program have been 100% for each child who needs placement. Due to the fact that parents have requested the Free-Standing ESL Program for their children the program model offered at Public School 5 does align with the parent's request.

2. Summarize the major findings of your school's written translation and oral interpretation needs. Describe how the findings were reported to the school community.

Two subgroups to pay careful attention to are newcomers and ELLs identified as having special needs. Small group instruction and differentiated instruction are used to ensure learning for all ELL students. Audio, visual and tactile instructional strategies are the plans used to enhance learning at various levels using different methodologies.

Native language support is apart of the ESL Program Model through Dual Language books and text written in the student's native language. Required services supports to ELLs ages and grade level with rich learning materials and activities such as instructional games and audio cassette stories. Presently there are no activities offered before the beginning of the school year to assist newly enrolled ELL students.

Professional development is given periodically at the school's regional level for ELL personnel. The ESL teacher is the primary person that attends these meeting and workshops. In school training and workshops is also offered to ELL personnel throughout the school year.

## **Part B: Strategies and Activities**

---

1. Describe the written translation services the school will provide, and how they will meet identified needs indicated in Part A. Include procedures to ensure timely provision of translated documents to parents determined to be in need of language assistance services. Indicate whether written translation services will be provided by an outside vendor, or in-house by school staff or parent volunteers.

The organizational model by which instruction is delivered is through the ESL Pull-Out Model. The students are commonly non-verbal upon entrance into the ESL Program. As they move into a verbal stage and into an intermediate level then the Pull-Out /Push-In models can be both implemented. Students are pulled out of their classroom by the ESL teacher for one period a day mostly by grade level; some by their proficiency level. Students received the mandated number of instructional minutes for Advanced and Intermediate of their 180 minutes; while Beginners receive 50% of the mandated 360 minutes. The content areas are taught in the Pull-Out Model in written text. In order to make content comprehensible students will use Accountable Talk that is meaningful about the content of the text and its connection to their lives in order to enrich language development.

If the need for a translator for written text exists , the parents will be notified by progress reports, written letter, and formal meeting at the school.

2. Describe the oral interpretation services the school will provide, and how they will meet identified needs indicated in Part A. Indicate whether oral interpretation services will be provided by an outside contractor, or in-house by school staff or parent volunteers.

The organizational model by which instruction is delivered is through the ESL Pull-Out Model. The students are commonly non-verbal upon entrance into the ESL Program. As they move into a verbal stage and into an intermediate level then the Pull-Out /Push-In models can be both implemented. Students are pulled out of their classroom by the ESL teacher for one period a day mostly by grade level; some by their proficiency level. Students received the mandated number of instructional minutes for Advanced and Intermediate of their 180 minutes; while Beginners receive 50% of the mandated 360 minutes. The content areas are taught in the Pull-Out Model in written text. In order to make content comprehensible students will use Accountable Talk that is meaningful about the content of the text and its connection to their lives in order to enrich language development.

During the assessment phase of the year an outside contractor (The BIG Word) will provide oral translation and written transcription services in order to assist with the modifications assigned to that student.

3. Describe how the school will fulfill Section VII of Chancellor's Regulations A-663 regarding parental notification requirements for translation and interpretation services. Note: The full text of Chancellor's Regulations A-663 (Translations) is available via the following link:  
<http://docs.nycenet.edu/docushare/dsweb/Get/Document-151/A-663%20Translation%203-27-06%20.pdf>.

Parent involvement is active in the school community and accessible to ELL parents. Parents of ELLs are encouraged to attend Parent workshops which offer resources and information about the school and services outside of the school building. The Parent Survey distributed annually gives the school the ability to evaluate the needs of the parents. Parental involvement activities addresses the needs of the parents in that it gives parents resources within the community they can use to help themselves and their children. There are no specific Community Based Organizations within the local school area that provides services for ELL parents due to the fact that the ELL population is minute.

After reviewing and analyzing the assessment data patterns across proficiency levels on the LAB-R and NYSESLAT what is revealed is that ELLs struggle with reading and writing skills.
