Education**

Dennis M. Walcott, Chancellor

2011-2012 COMPREHENSIVE EDUCATIONAL PLAN (CEP)

SCHOOL NAME : THE EARTH SCHOOL PS 364

DBN (DISTRICT/ BOROUGH/ NUMBER I.E. 01M000): 01M364

PRINCIPAL: ALISON HAZUT EMAIL: AHAZUT@SCHOOLS.NYC.GOV

SUPERINTENDENT: DANIELLA PHILLIPS

SCHOOL LEADERSHIP TEAM (SLT) SIGNATURE PAGE

Use this page to identify SLT members and confirm their participation in the development of this Comprehensive Educational Plan (CEP), which includes goals and action plans, a summary of Academic Intervention Services, and the Parent Involvement Policy. The signatures of SLT members indicate their participation in the development of the CEP and serve as confirmation that consultation has occurred to align funding in support of educational programs. The SLT must include an equal number of parents and staff and have a minimum of 10 and a maximum of 17 members, in accordance with the Chancellor’s Regulation A-655, available on the [NYC DOE Web site](#).

Directions:

1. List each SLT member in the left-hand column on the chart below. Specify any position held by the team member, e.g., Chairperson, SLT Secretary and the constituent group represented, e.g., parent, staff, student, or CBO. Core mandatory SLT members are indicated by an asterisk*.
2. Ensure that SLT members review this document and sign in the right-hand column in blue ink. If an SLT member does not wish to sign this plan, he/she may attach a written explanation in lieu of his/her signature.
3. Add rows as needed to ensure that all SLT members are listed.
4. The original copy, along with any written communications pertaining to this page, is to remain on file in the principal’s office and be made available upon written request.

Name	Position and Constituent Group Represented	Signature
Alison Hazut	*Principal or Designee	
Jia Lee	*UFT Chapter Leader or Designee	
Katey Leff	*PA/PTA President or Designated Co-President	
	DC 37 Representative, if applicable	
	Student Representative (<i>optional for elementary and middle schools; a minimum of two members required for high schools</i>)	
	CBO Representative, if applicable	
Dyanthe Spielberg	Member/	
Jane Fine	Member/

DIRECTIONS AND GUIDANCE FOR COMPLETING THE ANNUAL GOALS AND ACTION PLAN SECTION

The CEP goal-setting process serves both to support the identification and implementation of school-wide goals as well as to document how your school is meeting Federal, State, and City regulations.

As a result of principal feedback on this process, the CEP has been significantly streamlined to reduce the amount of time spent fulfilling requirements and to allow schools to focus on goal-setting and instructional priorities. The goal and action plan section, contained on pages 4 through 8 of this template, now serves as the central work of the CEP process and reflects a consolidation of numerous CEP requirements from prior years.

Below you will find guidance on documenting annual goals and action plans.

WHICH SCHOOLS NEED TO COMPLETE THIS?

- All schools should identify and submit annual goals and action plans in consultation with their School Leadership Team.

HOW DO CEP GOALS RELATE TO GOALS SET FOR THE PRINCIPAL PERFORMANCE REVIEW (PPR)?

- CEP goals are generally intended to guide school-wide planning and development. CEP goals may be adapted from goals set by the principal for the Principal Performance Review (PPR) if they are appropriate for use as school-wide goals.

HOW SHOULD A SCHOOL DEVELOP ITS GOALS AND ACTION PLANS?

- Your school should identify a minimum of three and a maximum of five annual goals.
- Goals should be “SMART” - specific, measurable, achievable, realistic, and time-bound.
- Goal development should be based on an assessment of your school’s needs.
- Your school should demonstrate the use of both qualitative and quantitative data in providing the rationale for each goal. Cite sources that contributed to the rationale, such as the Progress Report, Quality Review, School Survey, State Differentiated Accountability report (SQR, ESCA, or JIT), state and school assessment results, attendance records, inquiry team work, etc.
- Each goal and action plan requires your school to cite the strategies and activities in your Parent Involvement Policy (PIP) that will be implemented to achieve the goal identified. The PIP template is provided on pages 11 through 15. Your school is encouraged to use the template as it is provided, or align it in accordance with your school’s goals, or replace it entirely with a Parent Involvement Policy created by your school that meets federal requirements. You may use or amend relevant sections of your PIP directly to respond to the parental involvement section of each goal and action plan.
- Schools designated as Improvement, Corrective Action, Restructuring, and/or PLA/SURR by the New York State Education Department must identify a goal and complete an action plan related to improving student outcomes for the specific subject area and subgroups identified for improvement. For each subject area identified, a goal and action plan is required.

ANNUAL GOAL #1 AND ACTION PLAN

Use this template to identify an annual goal. Respond to each section to indicate strategies and activities in support of accomplishing this goal.

Annual Goal #1

Students will engage in a rigorous curriculum that is balanced with inquiry and skill development. 100% of students will engage in one literacy task and one mathematics task aligned to the Common Core.

Comprehensive needs assessment

- ***This need comes from the emphasis on implementation of the Common Core Standards as well as our own desire to improve the balance between inquiry work and skill development in our school.***

Instructional strategies/activities

- ***Teachers meet monthly with staff developer to work on alignment of Common Core Standards to curriculum in reading and writing. Students in need of specific phonics support will have daily Wilson intervention to support decoding fluency. Students who are reading fluently will have targeted guided reading as well regular book club cycles to deepen their overall comprehension of texts throughout the year.***
- ***Teachers have monthly meetings with principal to work on alignment of Common Core Standards to curriculum in mathematics. We have hired a full time support teacher for mathematics. Students will be indentified for daily interventions using the Navigator Program as well as teacher made materials/games. Additionally, children who are ready to deepen their mathematical thinking and skills will have enrichment – focusing on efficiency and accuracy through flexible problem solving***
- ***Grade teams will agree on which tasks they will use for alignment to the Common Core Standards***
- ***Grade teams will use our descriptive processes to look at the student work/tasks, analyze for next instructional steps and discuss any programmatic changes that need to be made going forward***
- ***The first half of the year will focus on alignment to Common Core, as well as digging into the specific intervention work and enrichment work that children need. Beginning in January, grade teams will discuss the Common Core tasks and agree upon which ones to implement by March. Analysis of the Common Core tasks will happen in the spring as well as discussions about next instructional steps as a result of this work.***

Strategies to increase parental involvement

- **Our SLT will discuss this goal at each monthly meeting. Our monthly Family as Learning Partners Meetings will address this goal and give parents the opportunities to actually observe in classrooms and share their noticings and questions. The Earth School has a parent access policy whereby family members are given complete access to the school. Informal discussions with staff members happen on a daily basis.**

Strategies for attracting Highly Qualified Teachers (HQT)

- **100% of our teachers are Highly Qualified.**

Service and program coordination

- **In order to support this goal our grant money provided through violence prevention is used to pay for our part time Support Team teacher. She works primarily with children who are at-risk of not performing to their potential. Also, some of these funds go to teachers who teach environmental education classes after hours. These courses are rich in inquiry based learning.**

Budget and resources alignment

- **TL Temporary Shortfall, TL FSF**

ANNUAL GOAL #2 AND ACTION PLAN

Use this template to identify an annual goal. Respond to each section to indicate strategies and activities in support of accomplishing this goal.

Annual Goal #2

- *Students in our self contained classrooms will continue to be integrated into general education classrooms, have specialized academic programming and show overall growth. Since students in this subgroup have IEPs and significant learning disabilities, progress on NYS exams is quite challenging. The Listening Section of the exam is a place where growth can be made. 4 out of the 8 students in this group will get 4/5 multiple choice questions correct. For the short response section of the Listening Section, 4 out of the 8 students in this group will earn at least 4 of the possible 6 points that can be earned.*

Comprehensive needs assessment

- **This group of children has significant learning disabilities as well as emotional needs. Their academic progress is steadily growing; however their scores on state exams are low.**

Instructional strategies/activities

- *Celia Oyler, Dean of the Inclusive Program at Columbia's Teacher's College, is working as a consultant. She will be meeting with both the special education teachers and general education teachers involved in the integration pilots to support their flexible scheduling, curriculum planning and their overall work towards academic growth.*
- *Our upper grade 4/5th grade SC class is integrated with a general education class for math and writing 4 times per week. 4/5th grade classes are now streaming for math (grade level math groupings, instead of mixed age groupings). Students will be given more differentiated opportunities to develop their conceptual understandings as well as the specific skills they need in mathematics. Paraprofessionals will also support this work*
- *Assisted Technology supports like Dragon Speak will be used to support students' literacy development*

- *Our 3rd grade SC class is integrated with a 3rd grade general education class. While integrating with other 3rd grade students from the general education class, students from the SC class will work on core studies and open work periods. They will also pilot having math during the same period so that some children can move into the general education class, while students who need more specific supports from the general education class can have math in the SC class providing smaller class instruction for all.*
- The flexible scheduling will begin in the fall, assisted technology supports will be purchased in December. Ongoing assessments will help us to reflect about the approaches we are using and make necessary changes.

Strategies to increase parental involvement

- Our SLT will discuss this particular goal at each meeting, additionally our PA will continue to reach out to the parents of these children to increase their involvement in the school (Our PotLuck and Fall Fair are specific events that help us to engage a diverse parent body in our school) . Our monthly Family as Learning Partners Meetings will address this goal and give parents the opportunities to actually observe in classrooms and share their noticing and questions. The Earth School has a parent access policy whereby family members are given complete access to the school. Informal discussions with staff members happen on a daily basis.

Strategies for attracting Highly Qualified Teachers (HQT)

- 100% of our teachers are Highly Qualified.

Service and program coordination

- A good number of the children in this subgroup work with outside agencies like Empire After School, University Settlement and Boys Club. Our staff members work closely with these organizations to ensure that our children are receiving a good balance between academic support as well as emotional supports.

Budget and resources alignment

- FSF, TL IEP PARA, IDEA IEP PARA, TL NYSTL Software

ANNUAL GOAL #3 AND ACTION PLAN

Use this template to identify an annual goal. Respond to each section to indicate strategies and activities in support of accomplishing this goal.

Annual Goal #3

- *To increase overall consistency and alignment of curriculum. 100% of teachers will pilot at least two of the new continua that have been created. One of which must be the reading continua. In the spring of 2011, 61% of all students (67% of all students in general education/ICT settings met or exceeded benchmark) met or exceeded reading benchmarks. In the spring of 2012, we will see at least 5% growth in students meeting reading benchmarks.*

Comprehensive needs assessment

- **Our teachers develop much of the curriculum from student interests, their understandings of child development as well as state standards. We don't follow a standardized curriculum program. We need school wide continuum in the various content areas so that particular aspects of content and certain specific skills are planned for.**

Instructional strategies/activities

- *Teachers worked in small mixed groups to develop continua in reading, core studies and mathematics. Additionally, our cluster and related service providers worked on continua for the content area they are responsible for.*
- *The principal and staff developer created a model continuum for writing utilizing the Common Core Standards, Teacher's College Narrative continuum and First Steps Reading Development Continuum. The continuum will be shared with teacher teams for feedback.*
- *As a whole staff we created a Handwriting Continuum based on the Handwriting Without Tears Program and our own understandings about how handwriting develops for children.*
- *Teachers will utilize continua as they plan curriculum, analyze student work, write narrative reports and conference with parents to share student learning*

Strategies to increase parental involvement

- **Our SLT will discuss this particular goal at each meeting. During the spring Family as Learning Partners Meetings we will share the continuum with parents to get their input. The Earth School has a parent access policy whereby family members are given complete access to the school. Informal discussions with staff members happen on a daily basis.**

Strategies for attracting Highly Qualified Teachers (HQT)

- **100% of our teachers are Highly Qualified.**

Service and program coordination

- **At this time we are not working with any outside organization as it relates to this goal.**

Budget and resources alignment

- **Teachers voluntarily work after hours to accomplish this goal. Due to budget cuts, we can't afford to pay teachers per session for the many hours involved in this work.**

ANNUAL GOAL #4 AND ACTION PLAN

Use this template to identify an annual goal. Respond to each section to indicate strategies and activities in support of accomplishing this goal.

Annual Goal #4

- Describe a goal you have identified for the year. Refer to the directions and guidance for assistance in developing your goals.

Comprehensive needs assessment

- Describe the identified need that generated this goal. The needs assessment should encompass the entire school and be based on the performance of students in relation to State academic content and student achievement standards.

Instructional strategies/activities

- Describe the research-based instructional strategies and activities that will be used to achieve this goal. Include descriptions of the following in your response:
 - a) strategies/activities that encompass the needs of identified student subgroups,
 - b) staff and other resources used to implement these strategies/activities,
 - c) steps taken to include teachers in the decision-making regarding the use of academic assessments to evaluate the effectiveness of the strategies/activities,
 - d) timeline for implementation.

Strategies to increase parental involvement

- Cite the strategies and activities in your school's Title I Parent Involvement Policy (PIP) that will be implemented to achieve this goal. The PIP template is provided on pages 11 through 15 in this CEP.

Strategies for attracting Highly Qualified Teachers (HQT)

- Describe the strategies and activities that will be used to attract Highly Qualified Teachers, as defined by NCLB, or to ensure that current staff become highly qualified, in order to achieve this goal.

Service and program coordination

- Describe how Federal, State and local services, including programs supported under NCLB (i.e., violence prevention programs, nutrition programs, housing programs, Head Start) are being coordinated with the instructional strategies/activities to achieve this goal.

Budget and resources alignment

- Describe the fiscal and human resources that will be used to achieve this goal, referencing specific FY'12 PS and OTPS budget categories (i.e., Title I, FSF, Title IIA, Title III, etc.) that will support the actions/strategies/activities described in this action plan.

ANNUAL GOAL #5 AND ACTION PLAN

Use this template to identify an annual goal. Respond to each section to indicate strategies and activities in support of accomplishing this goal.

Annual Goal #5

- Describe a goal you have identified for the year. Refer to the directions and guidance for assistance in developing your goals.

Comprehensive needs assessment

- Describe the identified need that generated this goal. The needs assessment should encompass the entire school and be based on the performance of students in relation to State academic content and student achievement standards.

Instructional strategies/activities

- Describe the research-based instructional strategies and activities that will be used to achieve this goal. Include descriptions of the following in your response:
 - a) strategies/activities that encompass the needs of identified student subgroups,
 - b) staff and other resources used to implement these strategies/activities,
 - c) steps taken to include teachers in the decision-making regarding the use of academic assessments to evaluate the effectiveness of the strategies/activities,
 - d) timeline for implementation.

Strategies to increase parental involvement

- Cite the strategies and activities in your school's Title I Parent Involvement Policy (PIP) that will be implemented to achieve this goal. The PIP template is provided on pages 11 through 15 in this CEP.

Strategies for attracting Highly Qualified Teachers (HQT)

- Describe the strategies and activities that will be used to attract Highly Qualified Teachers, as defined by NCLB, or to ensure that current staff become highly qualified, in order to achieve this goal.

Service and program coordination

- Describe how Federal, State and local services, including programs supported under NCLB (i.e., violence prevention programs, nutrition programs, housing programs, Head Start) are being coordinated with the instructional strategies/activities to achieve this goal.

Budget and resources alignment

- Describe the fiscal and human resources that will be used to achieve this goal, referencing specific FY'12 PS and OTPS budget categories (i.e., Title I, FSF, Title IIA, Title III, etc.) that will support the actions/strategies/activities described in this action plan.

ACADEMIC INTERVENTION SERVICES (AIS)

On the chart below, indicate the total number of students receiving AIS in each area listed for each applicable grade in your school.

Identified groups of students who have been targeted for AIS, and the established criteria for identification include:

- Students in Grades K – 3 who are considered at-risk for not meeting State standards as determined by their performance on ECLAS 2 or other identified assessments, or who have been identified as potential holdovers.
- Students in Grades 4 – 8 who are performing at Level 1 or Level 2 on New York State English language arts (ELA), mathematics, science, and social studies assessments.
- Students in Grade 9 who performed at Level 1 or Level 2 on NYS Grade 8 ELA, mathematics, science, and social studies assessments.
- Students in Grades 10 – 12 who scored below the approved passing grade on any Regents examination required for graduation in English language arts, mathematics, science, and social studies.

	ELA	Mathematics	Science	Social Studies	At-risk Services: Guidance Counselor	At-risk Services: School Psychologist	At-risk Services: Social Worker	At-risk Health-related Services
	# of Students Receiving AIS	# of Students Receiving AIS	# of Students Receiving AIS	# of Students Receiving AIS				
K			N/A	N/A	2		1	
1	10	3	N/A	N/A	2			
2	4	4	N/A	N/A	1			
3	3	2	N/A	N/A	9			
4	5	8			1			
5	3	6			3			
6								
7								
8								

9								
10								
11								
12								

On the chart below, provide a brief description of each of the Academic Intervention Services provided, and include:

1. type of program or strategy (e.g., Wilson, Great Leaps, etc.),
2. method for delivery of service (e.g., small group, one-to-one, tutoring, etc.),
3. when the service is provided (i.e., during the school day, before or after school, Saturday, etc.).

Name of Academic Intervention Services (AIS)	Description
ELA	Wilson during the school day, listening center during the school day, stamina and productivity support one to one, reading skills support in a small group, descriptive writing/audience development/organization/conventions in a small group both during the day and during extended day.
Mathematics	Skills/strategies/concept development both one to one and in a small group during the day and in extended day. The Navigator Program as well as teacher made materials/games are used to support this work.
Science	
Social Studies	
At-risk Services provided by the Guidance Counselor	The Earth School Comprehensive Guidance Counseling Program provides at-risk services for all students who are identified by teachers and parents to need the support of school based counseling to achieve optimum school performance. The program is designed to foster the emotional/social well being of each student, as well as their intellectual development and academic achievement.

At-risk Services provided by the School Psychologist	
At-risk Services provided by the Social Worker	The Earth School Social Worker is part of the PPT Team, which provides interventions for at-risk students. The social worker performs classroom observations and provides teacher feedback/interventions to help at-risk students function better in the classroom. The Social Worker also facilitates on-going, open communication with families of at-risk students.
At-risk Health-related Services	

**DIRECTIONS AND GUIDANCE FOR DEVELOPING OR UPDATING
THE PARENT INVOLVEMENT POLICY (PIP)**

The template below meets the parental involvement requirements of Title I. Your school is encouraged to use the template as it is provided, or align it in accordance with your school's goals, or replace it entirely with a Parent Involvement Policy created by your school that meets federal requirements.

The PIP should describe how your school will plan and implement effective parent involvement activities to improve student academic achievement and school performance. The School-Parent Compact is a component of the PIP that outlines how parents, the entire school staff, and students will share this responsibility.

PARENT INVOLVEMENT POLICY (PIP) TEMPLATE

Educational research shows a positive correlation between effective parental involvement and student achievement. The overall aim of this policy is to develop a parent involvement program that will ensure effective involvement of parents and community in our school. Therefore, our school, in compliance with the Section 1118 of Title I, Part A of the No Child Left Behind (NCLB) Act, is responsible for creating and implementing a parent involvement policy to strengthen the connection and support of student achievement between our school and the families. Our school's policy is designed to keep parents informed by actively involving them in planning and decision-making in support of the education of their children. Parents are encouraged to actively participate on the School Leadership Team, Parent Association, and Title I Parent Committee as trained volunteers and welcomed members of our school community. Our school will support parents and families of Title I students by:

- providing materials and training to help parents work with their children to improve their achievement level, e.g., literacy, math and use of technology;
- providing parents with the information and training needed to effectively become involved in planning and decision making in support of the education of their children;
- fostering a caring and effective home-school partnership to ensure that parents can effectively support and monitor their child's progress;
- providing assistance to parents in understanding City, State and Federal standards and assessments;
- sharing information about school and parent related programs, meetings and other activities in a format, and in languages that parents can understand;

- providing professional development opportunities for school staff with the assistance of parents to improve outreach, communication skills and cultural competency in order to build stronger ties between parents and other members of our school community;

Our school's Parent Involvement Policy was designed based upon a careful assessment of the needs of all parents/guardians, including parents/guardians of English Language Learners and students with disabilities. Our school community will conduct an annual evaluation of the content and effectiveness of this parent involvement policy with Title I parents to improve the academic quality of our school. The findings of the evaluation through school surveys and feedback forms will be used to design strategies to more effectively meet the needs of parents, and enhance the school's Title I program. This information will be maintained by the school.

In developing the Title I Parent Involvement Policy, parents of Title I participating students, parent members of the school's Parent Association (or Parent-Teacher Association), as well as parent members of the School Leadership Team, were consulted on the proposed Title I Parent Involvement Policy and asked to survey their members for additional input. To increase and improve parent involvement and school quality, our school will:

- actively involve and engage parents in the planning, review and evaluation of the effectiveness of the school's Title I program as outlined in the Comprehensive Educational Plan, including the implementation of the school's Title I Parent Involvement Policy and School-Parent Compact;
- engage parents in discussion and decisions regarding the required Title I set-aside funds, which are allocated directly to schools to promote parent involvement, including family literacy and parenting skills;
- ensure that the Title I funds allocated for parent involvement are utilized to implement activities and strategies as described in our Parent Involvement Policy and the School-Parent Compact;
- support school-level committees that include parents who are members of the School Leadership Team, the Parent Association (or Parent-Teacher Association) and Title I Parent Committee. This includes providing technical support and ongoing professional development, especially in developing leadership skills;
- maintain a Parent Coordinator (or a dedicated staff person) to serve as a liaison between the school and families. The Parent Coordinator or a dedicated staff person will provide parent workshops based on the assessed needs of the parents of children who attend our school and will work to ensure that our school environment is welcoming and inviting to all parents.

The Parent Coordinator will also maintain a log of events and activities planned for parents each month and file a report with the central office.;

- conduct parent workshops with topics that may include: parenting skills, understanding educational accountability grade-level curriculum and assessment expectations; literacy, accessing community and support services; and technology training to build parents' capacity to help their children at home;
- provide opportunities for parents to help them understand the accountability system, e.g., NCLB/State accountability system, student proficiency levels, Annual School Report Card, Progress Report, Quality Review Report, Learning Environment Survey Report;
- host the required Annual Title I Parent Meeting on or before December 1st of each school year to advise parents of children participating in the Title I program about the school's Title I funded program(s), their right to be involved in the program and the parent involvement requirements under Title I, Part A, Section 1118 and other applicable sections under the No Child Left Behind Act;
- schedule additional parent meetings, e.g., quarterly meetings, with flexible times, such as meetings in the morning or evening, to share information about the school's educational program and other initiatives of the Chancellor and allow parents to provide suggestions;
- translate all critical school documents and provide interpretation during meetings and events as needed;
- conduct an Annual Title I Parent Fair/Event where all parents are invited to attend formal presentations and workshops that address their student academic skill needs and what parents can do to help;

Our school will further encourage school-level parental involvement by:

- holding an annual Title I Parent Curriculum Conference;
- hosting educational family events/activities during Parent-Teacher Conferences and throughout the school year;
- encouraging meaningful parent participation on School Leadership Teams, Parent Association (or Parent-Teacher Association) and Title I Parent Committee;
- supporting or hosting Family Day events;
- establishing a Parent Resource Center/Area or lending library; instructional materials for parents;

- hosting events to support, men asserting leadership in education for their children. parents/guardians, grandparents and foster parents;
- encouraging more parents to become trained school volunteers;
- providing written and verbal progress reports that are periodically given to keep parents informed of their children's progress;
- developing and distributing a school newsletter or web publication designed to keep parents informed about school activities and student progress;
- providing school planners/folders for regular written communication between /teacher and the home in a format, and to the extent practicable in the languages that parents can understand;

SCHOOL-PARENT COMPACT

Our school, in compliance with the Section 1118 of Title I, Part A of the No Child Left Behind (NCLB) Act, is implementing a School-Parent Compact to strengthen the connection and support of student achievement between the school and the families. Staff and parents of students participating in activities and programs funded by Title I, agree that this Compact outlines how parents, the entire school staff and students will share responsibility for improved academic achievement and the means by which a school-parent partnership will be developed to ensure that all children achieve State Standards and Assessments.

I. School Responsibilities

Provide high quality curriculum and instruction consistent with State Standards to enable participating children to meet the State's Standards and Assessments by:

- using academic learning time efficiently;
- respecting cultural, racial and ethnic differences;
- implementing a curriculum aligned to the Common Core State Learning Standards;
- offering high quality instruction in all content areas;
- providing instruction by highly qualified teachers and when this does not occur, notifying parents as required by the No Child Left Behind (NCLB) Act;

Support home-school relationships and improve communication by:

- conducting parent-teacher conferences each semester during which the individual child's achievement will be discussed as well as how this Compact is related;
- convening an Annual Title I Parent Meeting prior to December 1st of each school year for parents of students participating in the Title I program to inform them of the school's Title I status and funded programs and their right to be involved;

- arranging additional meetings at other flexible times, e.g., morning, evening and providing (if necessary and funds are available) transportation or child care for those parents who cannot attend a regular meeting;
- respecting the rights of limited English proficient families to receive translated documents and interpretation services in order to ensure participation in the child's education;
- providing information related to school and parent programs, meetings and other activities is sent to parents of participating children in a format and to the extent practicable in a language that parents can understand;
- involving parents in the planning process to review, evaluate and improve the existing Title I programs, Parent Involvement Policy and this Compact;
- providing parents with timely information regarding performance profiles and individual student assessment results for each child and other pertinent individual school information;
- ensuring that the Parent Involvement Policy and School-Parent Compact are distributed and discussed with parents each year;

Provide parents reasonable access to staff by:

- ensuring that staff will have access to interpretation services in order to effectively communicate with limited English speaking parents;
- notifying parents of the procedures to arrange an appointment with their child's teacher or other school staff member;
- arranging opportunities for parents to receive training to volunteer and participate in their child's class, and to observe classroom activities;
- planning activities for parents during the school year, e.g., Parent-Teacher Conferences;

Provide general support to parents by:

- creating a safe, supportive and effective learning community for students and a welcoming respectful environment for parents and guardians;
- assisting parents in understanding academic achievement standards and assessments and how to monitor their child's progress by providing professional development opportunities (times will be scheduled so that the majority of parents can attend);
- sharing and communicating best practices for effective communication, collaboration and partnering will all members of the school community;
- supporting parental involvement activities as requested by parents;
- ensuring that the Title I funds allocated for parent involvement are utilized to implement activities as described in this Compact and the Parent Involvement Policy;
- advising parents of their right to file a complaint under the Department's General Complaint Procedures and consistent with the No Child Left Behind

Title I requirement for Elementary Secondary Education Act (ESEA) and Title I programs;

II. Parent/Guardian Responsibilities:

- monitor my child's attendance and ensure that my child arrives to school on time as well as follow the appropriate procedures to inform the school when my child is absent;
- ensure that my child comes to school rested by setting a schedule for bedtime based on the needs of my child and his/her age;
- check and assist my child in completing homework tasks, when necessary;
- read to my child and/or discuss what my child is reading each day (for a minimum of 15 minutes);
- set limits to the amount of time my child watches television or plays video games;
- promote positive use of extracurricular time such as, extended day learning opportunities, clubs, team sports and/or quality family time;
- encourage my child to follow school rules and regulations and discuss this Compact with my child;
- volunteer in my child's school or assist from my home as time permits;
- participate, as appropriate, in the decisions relating to my child's education;
- communicate with my child's teacher about educational needs and stay informed about their education by prompting reading and responding to all notices received from the school or district;
- respond to surveys, feedback forms and notices when requested;
- become involved in the development, implementation, evaluation and revision to the Parent Involvement Policy and this Compact;
- participate in or request training offered by the school, district, central and/or State Education Department learn more about teaching and learning strategies whenever possible;
- take part in the school's Parent Association or Parent-Teacher Association or serve to the extent possible on advisory groups, e.g., Title I Parent Committees, School or District Leadership Teams;
- share responsibility for the improved academic achievement of my child;

III. Student Responsibilities:

- attend school regularly and arrive on time;
- complete my homework and submit all assignments on time;
- follow the school rules and be responsible for my actions;
- show respect for myself, other people and property;
- try to resolve disagreements or conflicts peacefully;

- always try my best to learn.

RESPONSE PLAN FOR SCHOOLS IN NEED OF IMPROVEMENT (SINI)

School DBN: 01M364 **School Name:** The Earth School

Note: For below, your state differentiated accountability phase, category, and intervention can be found in columns L, M and N on the SINI School spreadsheet linked in the Principals' Portal.

Phase: Improvement Year 1 Improvement Year 2 Corrective Action Year 1 Corrective Action Year 2
 Restructuring Year 1 Restructuring Year 2 Restructuring Advanced

Category: Basic Focused Comprehensive

Intervention: School Quality Review (SQR) External School Curriculum Audit (ESCA)
 Joint Intervention Team visit (JIT) Not Required for 2011-2012

Part A: For All SINI Schools (Title I and non-Title I)

1. For each area of school improvement identification, describe the school's findings of the specific academic issues that caused the school to be identified. For schools in Improvement that underwent an SQR, ESCA, or (JIT) during the 2010-11 school year, please include the findings from that process in your response for this section.

The subgroup of students who did not make AYP is our special education students in ELA. When we delved deeply into the NYS test scores we found that our students in 12:1:1 settings are the target group, as 10 out of 11 students in 12:1:1 classes earned 1s on the ELA exam. These children have a range of learning disabilities, including speech/language, issues in processing and working memory to name a few. Since these students have IEPs, they are working below grade level and being in 12:1:1 classes means that there are social/emotional learning issues involved as well.

2. Describe the intervention(s) the school will implement to support improved achievement in the grade and subject areas for which the school was identified.
 - We believe that the 12:1:1 setting is generally not appropriate for these students as they are working in classrooms with children who have similar needs and no strong models for work ethic, habits of behavior and strong academic knowledge. We changed placement for some of these students to be in ICT classrooms. The ones who remained in the 12:1:1 are part of an intensive "co – teaching pilot" in which they have their special education class as home base, but spend reading and writing integrated in a general education class. Celia Oyler, Dean of the Inclusive Program at Columbia's Teacher's College, is working as a consultant. She is meeting with both the special education teachers and general education teachers involved in the integration pilots to support their flexible scheduling, curriculum planning and overall work towards academic growth. These students are grouped with children who don't necessarily have learning disabilities, but who need additional support. During the integrated periods, through the use of paraprofessionals, student teachers and interns these students will be working in very small groups to focus on both large concepts and skill development. (Assisted Technology supports like Dragon Speak will be used to support students' literacy development.)

Part B: For Title I SINI Schools Only

1. As required by NCLB legislation, a school identified for school improvement must spend not less than 10 percent of its Title I funds for each fiscal year that the school is in school improvement status for professional development. The professional development must be high quality and address the academic area(s) identified. Describe how the 10 percent of the Title I funds for professional development will be used to remove the school from school improvement.
2. Describe the teacher-mentoring program that will be incorporated as part of the school's strategy for providing high-quality professional development.
3. Describe how the school will notify parents about the school's identification for school improvement in an understandable and uniform format and to the extent practicable, in a language that the parents can understand.

**OFFICE OF ENGLISH LANGUAGE LEARNERS
GRADES K-12 LANGUAGE ALLOCATION POLICY
SUBMISSION FORM
2011-12**

DIRECTIONS: This submission form assists schools with gathering and organizing the quantitative and qualitative information necessary for a well-conceived school-based language allocation policy (LAP) that describes quality ELL programs. This LAP form, an appendix of the CEP, also incorporates information required for CR Part 154 funding so that a separate submission is no longer required. Agendas and minutes of LAP meetings should be kept readily available on file in the school. Also, when preparing your school's submission, provide extended responses in the green spaces. Spell-check has been disabled in this file, so consider typing responses to these questions in a separate file before copying them into the submission form. For additional information, hold your cursor over the .

Part I: School ELL Profile

A. School Information

Cluster Leader/Network Leader Alison Sheehan	District 1	Borough Manhattan	School Number 364
School Name The Earth School			

B. Language Allocation Policy Team Composition

Principal Alison Hazut	Assistant Principal type here
Coach Dyanthe Spielberg	Coach type here
ESL Teacher Rachel Levinsky	Guidance Counselor type here
Teacher/Subject Area type here	Parent type here
Teacher/Subject Area type here	Parent Coordinator Jocelyn Walsh
Related Service Provider type here	Other type here
Network Leader type here	Other type here

C. Teacher Qualifications

Please provide a report of all staff members' certifications referred to in this section. Press TAB after each number entered to calculate sums and percentages.

Number of certified ESL teachers	1	Number of certified bilingual teachers	0	Number of certified NLA/foreign language teachers	0
Number of content area teachers with bilingual extensions	0	Number of special education teachers with bilingual extensions	0	Number of teachers of ELLs without ESL/bilingual certification	0
Number of teachers who hold both a bilingual extension and ESL certification	1	Number of teachers currently teaching a self-contained ESL class who hold both a common branch license and ESL certification	0		

D. School Demographics

Total number of students in school	343	Total Number of ELLs	12	ELLs as share of total student population (%)	3.50%
------------------------------------	------------	----------------------	-----------	---	--------------

Part II: ELL Identification Process

Describe how you identify English Language Learners (ELLs) in your school. Answer the following:

1. Describe the steps followed for the initial identification of those students who may possibly be ELLs. These steps must include administering the Home Language Identification Survey (HLIS) which includes the informal oral interview in English and in the native language, and the formal initial assessment. Identify the person(s) responsible, including their qualifications, for conducting the initial screening, administering the HLIS, the LAB-R (if necessary), and the formal initial assessment. Also describe the steps taken to annually evaluate ELLs using the New York State English as a Second Language Achievement Test (NYSESLAT).
2. What structures are in place at your school to ensure that parents understand all three program choices (Transitional Bilingual, Dual Language, Freestanding ESL)? Please describe the process, outreach plan, and timelines.
3. Describe how your school ensures that entitlement letters are distributed and Parent Survey and Program Selection forms are returned? (If a form is not returned, the default program for ELLs is Transitional Bilingual Education as per CR Part 154 [[see tool kit](#)].)
4. Describe the criteria used and the procedures followed to place identified ELL students in bilingual or ESL instructional programs; description must also include any consultation/communication activities with parents in their native language.
5. After reviewing the Parent Survey and Program Selection forms for the past few years, what is the trend in program choices that parents have requested? (Please provide numbers.)
6. Are the program models offered at your school aligned with parent requests? If no, why not? How will you build alignment between parent choice and program offerings? Describe specific steps underway. 

Paste response to questions 1-6 here

1a. Most of the new students at the Earth school are kindergartners, so parents come to registration prior to the beginning of the school year. At this time, parents are interviewed by the licensed ESL pedagogue. All students are identified and placed in the school's ESL program within the first 10 days of arrival at the school. There is one certified ESL teacher at The Earth School, Rachel Levinsky, who administers the Home Language Survey. The teacher's license and certification is on file at the school. Interviews are conducted in the native language for filling out the Home Language Survey. The school has copies of the Home Language Survey in all the high incidence languages made available by the NYC DOE. The Earth School's parent coordinator, Joceyln Walsh, speaks Spanish, as does the ESL teacher, Rachel Levinsky. We also have another parent coordinator in the building that speaks Cantonese who is always available to help with interviews. While giving the Home Language Survey, the ESL teacher is giving an informal survey with the family to determine how much English or a different language is spoken at home. These steps are also taken at any point in the school year when a new student comes to school. When Spanish-speaking students do not pass the LAB-R, they are also given the Spanish LAB-R to determine proficiency in the L1 to make the proper placement.

b. Based on the parents' response to questions on this survey, the licensed ESL teacher determines student eligibility for the LAB-R (Language Assessment Battery-Revised) exam to determine whether or not the student will receive ESL services. The ESL teacher administers the LAB-R to each student that has another language other than English on the Home Language Survey for at least one answer in section 1 and two answers in section 2. The LAB-R is administered to all eligible students on an individual basis in a quiet location so that the students can hear all directions and oral information, and concentrate on reading/writing sections. If the student is eligible for second language services, based on their score on the LAB-R exam, parents are informed in English and in their native language, to let them know that their child qualifies for ESL, bilingual or dual language classes.

c. Students who continue to receive ESL instruction due to a failure to pass the NYSESLAT receive specialized instruction in the four components of listening, speaking, reading, and writing in order to improve English performance for self sufficiency in all academic areas. At the beginning of the year, the ESL teacher prints the R-LAT to determine which students have not passed the NYSESLAT and will continue in the freestanding ESL program. Rachel Levinsky is the only licensed ESL teacher administering the NYSESLAT. Every year in the spring, the licensed ELL teacher administers the NYSESLAT (the New York State English as a Second Language Achievement Test). The ESL teacher first administers the Listening and Speaking sections of the test within the testing date window. The ESL teacher gives the test individually or in small groups depending on the test directions. The test is administered in a quiet location to help the students focus. The Reading and Writing portions are then administered during the testing window. Students in groups are always seated in a way to minimize distractions from others, but close enough to the teacher to hear all directions. The ESL teacher grades the speaking and writing test results according to the rubrics provided. The results from this test inform the school of the students' progress in listening, speaking, reading, and writing. These results inform our curricular and grouping decisions for the next year to best meet the students' needs.

2. Orientation letters are sent within ten days of the child entering school. Two orientation meetings are offered for the week after the letters were sent home— one in the morning and one at night to accommodate parents at home and work. With the Parent Coordinator, translators and licensed ESL teacher an orientation meeting to inform parents of program choices is given for new families. If parents are unable to attend either of the orientation meetings, Rachel Levinsky has individual meetings with them. If new families arrive during the school year, the Home Language Survey is given at registration, the student is tested with the LAB-R and then a parent meeting is held individually.

The varying benefits of the three program models, ESL, transitional bilingual and dual language, are explained to parents in the orientation meeting. During this meeting, all the parents view the Orientation Video provided by the New York City Department of Education. The Earth school objectively presents all program models, to allow parents to make the choice that they most prefer. Rachel Levinsky explains to parents that while self contained or dual language classrooms often yield better results for children's acquisition of English, we currently do not have enough students to offer either of those programs at our school. Parents are informed that while The Earth School only offers freestanding ESL, if they would prefer their child to attend an alternative program, they will be given the names of other schools in the district that offer such programs. Parents are offered to move to a school that provides the alternative option, or to remain in the current school and continue in the freestanding ESL program. Since parents have not requested additional programs such as Bilingual Education, the Earth school does not offer such programs at this time. However, the ESL certified teacher and the LAP team periodically review parent program choices to track any changes in the requests for programs. If parents requested self-contained ESL or a bilingual class, we will inform parents when that program becomes available.

This school serves the following grades (includes ELLs and EPs)
Check all that apply

The ESL teacher also explains to the parents the number of mandated hours that the student is entitled to based on performance on the LAB-R. The parents have time to ask questions at the orientation meeting and can call or email the licensed ESL teacher, the principal, or the parent coordinator at any time. Once the parents submit the program selection form at the orientation meeting, the students are placed in the appropriate program. Then the parents make an informed decision, based on the information provided in the home language, about what program they would like their child to participate in.

3. The LAB-R assessment is given within ten days of student registration. The certified ESL teacher administers the LAB-R assessment. Thereafter, letters are sent home informing parents of the purpose of the test and of their child's score on the test. The original HLIS and Parent Survey and Program Selection forms are placed in the students' cumulative file. Copies of all forms and letters are kept on file at the school in room 311, Rachel Levinsky's office. Parents are given the Entitlement letters within ten days, parent survey and program selection forms in the school by hand either by the classroom teacher or the ESL certified teacher in their home language. Most parents bring these letters to the orientation meeting. Parents are given a date by which to return these forms to Rachel Levinsky or the Parent Coordinator, Jocelyn Walsh. If forms are not received the parents are contacted by phone and asked to either return the required forms or meet with teachers or administration. For the 2011-2012 school year, all forms were signed and returned to the licensed ESL teacher. All forms are provided in the parents' home language when they are a high-incidence language on the NYC DOE website.

4. ELL students are identified within the first 10 days of school and begin services according to their proficiency level immediately thereafter. All new students are administered the Language Assessment Battery (LAB-R) if their home language survey indicates that a second language is spoken at home. The Earth School only has a freestanding ESL program, so we are unable to place the students in the other two programs at our school. If a family feels strongly that either self-contained ESL or a bilingual program is better for their child's needs, the ESL teacher helps the family find a school nearby that offers the program they are looking for. This has never happened, though. If parents expressed the desire for a self contained ESL or bilingual program, the school would create the program. The student's placement letter is kept in the cumulative file. Every year, continued services letters are sent home in the L1 and English. Copies of these letters are kept in that school year's compliance binder. All parent letters are translated to the L1 if it is a high incidence language. Translation funds are also used to translate school documents into languages not covered by the NYC DOE.

5. In reviewing the parent survey forms for the past few years, data indicates that parents tend to opt for the freestanding ESL program at the Earth school for their children. The ESL teacher is responsible for explaining the parent survey form. All parent survey forms are kept in the cumulative folders and a copy is with the licensed ESL teacher in the compliance binder. Since the students parents exclusively choose freestanding ESL (and have done so in the past as well), the data shows a 100% approval rating at the moment. If parents express a preference for other programs, the ESL teacher will compile the data to show the percentage of parents that choose each program to show to the Principal and the school SLT to plan for the other programs.

6. Data indicates that the parents at the Earth school, with children who qualify for ELL services, have consistently requested the freestanding ESL program. These parents have opted for their child to remain in a mainstream classroom with pull-out/push-in ESI services. The school program and the parent preferences are currently aligned. However, if we found that preferences were beginning to change, this would be an issue discussed at the SLT meetings in order to address the parents' preferences.

Part III: ELL Demographics

A. ELL Programs

This school serves the following grades (includes ELLs and EPs)

Part IV: ELL Programming

A. Programming and Scheduling Information

A. Programming and Scheduling Information

1. How is instruction delivered?
 - a. What are the organizational models (e.g., Departmentalized, Push-In [Co-Teaching], Pull-Out, Collaborative, Self-Contained)?
 - b. What are the program models (e.g., Block [Class travels together as a group]; Ungraded [all students regardless of grade are in one class]; Heterogeneous [mixed proficiency levels]; Homogeneous [proficiency level is the same in one class])?
2. How does the organization of your staff ensure that the mandated number of instructional minutes is provided according to proficiency levels in each program model (TBE, Dual Language, ESL)?
 - a. How are explicit ESL, ELA, and NLA instructional minutes delivered in each program model as per CR Part 154 (see table below)?
3. Describe how the content areas are delivered in each program model. Please specify language, and the instructional approaches and methods used to make content comprehensible to enrich language development.
4. How do you ensure that ELLs are appropriately evaluated in their native languages?
5. How do you differentiate instruction for ELL subgroups?
 - a. Describe your instructional plan for SIFE.
 - b. Describe your plan for ELLs in US schools less than three years (newcomers). Additionally, because NCLB now requires ELA testing for ELLs after one year, specify your instructional plan for these ELLs.
 - c. Describe your plan for ELLs receiving service 4 to 6 years.
 - d. Describe your plan for long-term ELLs (completed 6 years).
6. What instructional strategies and grade-level materials do teachers of ELL-SWDs use that both provide access to academic content areas and accelerate English language development?
7. How does your school use curricular, instructional, and scheduling flexibility to meet the diverse needs of ELL-SWDs within the least restrictive environment?

Paste response to questions 1-7 here

1 a. The ESL teacher conducts some groups in pull-out and some in push-in depending on the class organization. Since we have no more than three ELs per grade, the Earth School is currently trying to keep the ELs in one class at each grade level. This allows the ESL teacher to consistently push-in every day. The ESL teacher pushes into one K, 1st, and 5th grade class. In these classes, the ESL teacher co-teaches, parallel teaches, or station teaches depending on the planning for that week. There are a few grades (2nd, 3rd, and self contained 4/5) in which the students are in different classes, so these students are taught in a pull-out model. The ESL teacher co-plans all literacy units whether or not she pushes in or pulls out.

b. The ESL groupings are heterogeneous, as grade levels and proficiency may vary within a group, however students are always grouped with others that are on or close to their proficiency or grade level. All of the students in the 1st grade class are considered beginners according to the NYSESLAT scores. The students in the 5th grade class have different proficiency levels. The students in the 2nd grade pull out group need a lot of support in reading and writing according to the NYSESLAT scores. The students in the 3rd and 4/5 pull out group need support in writing. Many factors are looked at with extreme consideration when grouping the students, including language proficiency, age, academic needs, and class schedule. When planning groups, the ESL teacher looks at the RLAT to see the students scores on Listening, Speaking, Reading, and Writing. These scores help the ESL teacher group the students according to their academic needs.

2. Students receive 360 minutes of instruction per week by the certified ESL pedagogue if they are beginners or intermediate. Students receive 180 minutes of ESL instruction per week if they are advanced. All students receive 90 minutes of ELA instruction in the classroom. Students receive one (60 -75 minutes) period of push-in or pull-out ELL instruction daily as mandated by their LAB-R or NYSESLAT score. At the beginning of the year the ESL teacher collects ATS reports to determine student scores on standardized testing in order to properly group students according to their proficiency level. For the pull-out students, the ESL teacher works with the classroom teachers to ensure that the students are not missing core academic areas, or enrichment activities, and that whatever is missed is not the same thing each day.

a. Within the 360 minutes or the 180 minutes of ESL instruction, the ESL teacher rotates the focus of the lessons and activities to make sure that the areas of Speaking, Listening, Reading and Writing are addressed. The ESL teacher focusses attention on the specific area that the students in each group require more to make sure they are progressing. For example, the 2nd grade ESL group needs a lot of support in reading, so this area is addressed more often throughout the week.

A. Programming and Scheduling Information

3. The ELL teacher provides instruction in Balanced Literacy (writing and reading workshops, guided reading), phonics, math, social studies, science, and beginning English language development. The students are taught with proven ESL methodologies such as Total Physical Response (TPR) in addition to sound teaching practices such as scaffolding, modeling, and conferring. The types of scaffolding that are used in The Earth School pull-out ESL program include modeling, bridging (ex.: Think-Pair-Share), contextualization (ex.: self-assessment, reciprocal teaching). Additionally, the ELL students are scaffolded through schema building. This is done by focusing on school wide weekly strategies such as identifying cause and effect, author's purpose, sequencing, inferring, main idea and supporting details, and character analysis. This will provide the students opportunities to identify and practice using the strategies outside their mainstream classroom. Authentic literature, thematic units and author studies are a large focus in the ELL classroom. In addition, there are a wide range of books that target each grade and language level.

The ESL teacher supports the content areas of Math, Social Studies and Science by ensuring that visuals, language prompts and language functions are addressed in each lesson. The ESL teacher co-plans with the classroom teachers to point out the language that is needed to access the content. The teachers create prompts to help students demonstrate their understanding. Additionally, the teachers include a part of the minilesson to address how language is structured in these content areas so that students can get beyond the language and focus on what is being taught. For example, the ESL teacher instructs students about how to carry out language functions in specific content areas like how to sequence events from history. In this way, students learn and apply academic vocabulary within their interest areas. The ESL teacher uses scaffolding and modeling to support students in learning content area material. Additionally, all content areas have word walls to help students build academic vocabulary. The ESL teacher always pairs visuals and picture images to the vocabulary and then plays information gap activities with the new vocabulary. Picture support and manipulatives are used to help ELs with content area instruction. The ESL teacher also gives glossaries in the L1 to provide support in native language development. The ESL teacher also uses laptops so that the students can read and listen to stories and content area lessons in the native language. The students often use maps, atlases, charts and diagrams to understand the material.

All instruction at the Earth School is in English. Students' growing reading skills are always supported by both a language and content objective in each lesson, and students always have an opportunity to learn, practice, and synthesize the new skills learned. Scaffolded instruction includes background building, vocabulary support, language objectives, independent and group practice, and the opportunity to synthesize learning as well as assessment. The New York State English as a Second Language learning standards are applied to all lessons. In the ESL and general education classroom, leveled classroom libraries are used for independent and guided reading activities, using just-right books from the classroom library. Students are exposed to rich language, strong story patterns and vocabulary levels that extend student schema. The ELL teacher plans lessons for listening and speaking from the Side-by-Side series of textbooks, and provides a textbook to each child. In order to support reading and writing, instructional tools used include the Visions textbook series, National Geographic leveled non-fiction readers, Connect, Quickreads, as well as internet resources such as Timeforkids.com for appropriately leveled non-fiction reading. We also use big books, computers, picture support, and info-gap games.

4. Since our school only has a free-standing ESL program, we do not conduct assessments in the students' language, beyond the Spanish LAB-R for Spanish speaking students. In order to support students' native language development, we order books every year in a variety of native languages. We also use websites like childrenslibrary.org so that students can listen to and read stories in their native languages. We always try to pair newcomer ESL students with more advanced students that speak the same native language for support and guidance. We always encourage parents to continue working on native language development and literacy at home and share the data that supports the need for this. Many of our students attend weekend schools in the native language and we encourage students to bring in samples of the work they do in their native language.

5. a. There are currently no SIFE students at The Earth School, but if a SIFE student joined our school, we would make programmatic choices so that ESL instruction supported the students academic and social needs. The student might learn reading and writing with students at the same reading level for a couple of sessions a week, but the student would also participate in talking/listening activities with students that are the same age. The licensed ESL teacher and the classroom teacher would create a plan that supports the students in developing social skills in English in order to make friendships with peers. At the same time the two teachers would work together to create a curricular plan that ensures that the student can catch up in the necessary academics in order to reach grade level.

b. Newcomers engage in collaborative group work and cooperative learning experiences that promote problem-solving and accountable

A. Programming and Scheduling Information

talk. These ELLs are immersed in lessons that provide explicit instruction in the structure of English, background building, knowledge, vocabulary and oral language. Many factors are looked at with extreme consideration when grouping the students, including language proficiency, age, academic needs, and class curriculum. For ELLs with special needs, including Students with IEPs, SIFE students and ELLs who have been in US schools for less than three years, there is even greater consideration and supplemental techniques, strategies and scaffolding used during instruction. These students are often given more individualized support and instruction to help meet their educational needs. The ESL teacher works closely with the classroom teacher in order to support our newcomers in preparing for the NYS ELA and Math exams. The ESL teacher works with the newcomers during reading and writing in order to support these students in building vocabulary, determining new vocabulary in context, envisioning as we read, and writing for clarity. The ESL teacher instructs the students on how to form language functions to speaking and writing. For example, on a basic level, the ESL teacher instructs students on how to structure questions and answers. Our goal is to support the newcomer students so that they develop the ability to socialize with peers, build lasting friendships, participate in class, and develop independence in reading with comprehension and writing for an audience. As the newcomers build confidence in their new learning classroom, they also gain confidence in their academic work, which will help them succeed. The ESL teacher works with the newcomers during reading and writing in order to support these students in building vocabulary, determining new vocabulary in context, envisioning as we read, and writing for clarity. Physical Response) will be used in the classroom by giving students specific instructions for completing physical activities. Repetition of words and ideas, and visual cues to go along with spoken language will also help students who are developing their listening skills and as always instruction will be differentiated according to the needs of each student. The Side by Side series has CDs for the students to listen

B. Programming and Scheduling Information--Continued

- Describe your targeted intervention programs for ELLs in ELA, math, and other content areas (specify ELL subgroups targeted). Please list the range of intervention services offered in your school for the above areas as well as the language(s) in which they are offered.
- Describe your plan for continuing transitional support (2 years) for ELLs reaching proficiency on the NYSESLAT.
- What new programs or improvements will be considered for the upcoming school year?
- What programs/services for ELLs will be discontinued and why?
- How are ELLs afforded equal access to all school programs? Describe after school and supplemental services offered to ELLs in your building.
- What instructional materials, including technology, are used to support ELLs (include content area as well as language materials; list ELL subgroups if necessary)?
- How is native language support delivered in each program model? (TBE, Dual Language, and ESL)
- Do required services support, and resources correspond to ELLs' ages and grade levels?
- Include a description of activities in your school to assist newly enrolled ELL students before the beginning of the school year.
- What language electives are offered to ELLs?

8. ELLs receive push-in services in literacy, math, social studies and science. As language educators, we know that academic proficiency can take 7-10 years, long after the student is speaking fluently in English. Often an ELL's needs in the core academic areas can be overlooked, but the student is still struggling to express his/her understanding of complicated academic topics in English. The ESL teacher works with the classroom teacher to modify the academic content and assessments in order to allow the ELLs the maximum opportunity for success. ELLs also participate in the school's extended day program so that they can also receive additional support from the classroom teacher in a small group before the school day begins. Additionally, almost all classrooms have a student teacher, aide, or reading support volunteer so that our ELLs can have a lot of individualized attention in the classroom. These services are always provided in English at the Earth School, as we only have a freestanding ESL program available. For our EL newcomers the classroom teachers use their smartboards to provide as many visuals as possible during ELA, math, social studies, and science lessons. Our school support team works with longer-term EL students with programs like Wilson reading and RTI for any particular skill that needs intervention. For example, one of our longer-term EL students needs help with elaboration in writing, so the support team teacher is doing a limited time intervention with the student specifically on elaborating in writing. In math, one of our EL students needs support with language in number stories so the ESL teacher did a targeted intervention about the language of number stories. In Social Studies, several of our ELs were unfamiliar with continents and directions, so the ESL teacher did a targeted intervention around map skills. In Science, some of our ELs needed help with using evidence to support their hypotheses in experiments, so the ESL teacher did a targeted intervention with using the word because the connect the proof with the reason why they predicted something.

9. Former ELLs: Students who pass the NYSESLAT continue to receive special accommodations during testing for two years. In addition, the ESL teacher is in communication with the former ELLs and their classroom teacher in order to determine throughout the year whether the student continues to need support in certain aspects of language development. The ESL teacher provides resources for lesson planning, scaffolding, and vocabulary support to the classroom teacher so that former ELLs are still provided with the necessary tools to access information as their language continues to grow. The ELL teacher also visits the classroom periodically and supports the former ESL student with the classroom curriculum. The ESL teacher provides graphic organizers, vocabulary supports, texts at the appropriate reading level, scaffolded tests and classroom worksheets. The ESL teacher also makes sure that the student is able to work independently and in group activities in the classroom by providing the above mentioned supports.

10. One improvement that the ESL teacher has been trying to integrate is the use of field trips and community walks. The ESL teacher will lead LEP students on neighborhood walks, scavenger hunts, and field trips that will require the students to interact with community members in English. These activities will provide authentic environments in which students must use their English skills in order to accomplish certain tasks. For example, the ESL teacher will take students to the supermarket, or students will have to follow directions to arrive at a certain location in the neighborhood, or students will visit the neighborhood radio station to make an announcement on the radio. The ESL teacher is also expanding the number of classrooms that can have a push-in ESL curriculum each year. We have language with motion to teach the alphabet to kindergartners. The ESL teacher is also getting more involved with the Social Studies curriculum for the fourth and fifth graders to help them understand the content. The ESL teacher is working with the 4th and 5th graders to create a comic book that demonstrates their understanding of the social studies content. The ESL teacher has also created more picture/word games to develop student speaking skills in English as well as word family workbooks to support the ESL students with decoding skills for reading and spelling.

Courses Taught in Languages Other than English

D. Professional Development and Support for School Staff

1. Describe the professional development plan for all ELL personnel at the school. (Please include all teachers of ELLs.)
2. What support do you provide staff to assist ELLs as they transition from elementary to middle and/or middle to high school?
3. Describe the minimum 7.5 hours of ELL training for all staff (including non-ELL teachers) as per Jose P.

Paste response to questions 1-3 here

1. The ESL teacher, the only ESL instructor in the building, attends all network ELL liason meetings as well as any BETAC conferences (though it looks like the Manhattan BETAC closed).

Common Branch teachers, administration, paraprofessionals, guidance counselors, special education teachers, as well as all school-based support personnel, secretaries, parent coordinators, and prep teachers are given a professional development workshop each year on a new theme about working with ELs. For example, last year the school looked closely at the EI identification process. This year the school is closely comparing the NYSESLAT and the ELA. These workshops provide much more PD than the 7.5 hours that Jose P Mandates. These individuals are also provided support throughout the year on an individual basis. The ESL teacher works with classroom teachers to determine teaching strategies, discuss language development, set goals for individual students, and incorporate new teaching ideas into the classroom that will help to differentiate learning for ESL students. Since the ESL teacher pushes-in with three different grade level classes, those teachers co-plan with the ESL teachers and use strategies that support ELs throughout the day. The ESL teacher often helps the teachers modify curriculum content and lesson plans so that the students are able to be successful even when the ESL teacher is not in the room. Teachers have access to ELL specific materials from the ESL classroom library and the ESL teacher's library of materials. Furthermore, the ESL teacher works closely with an ELL specialist for the school support organization and attends monthly ESL network meetings. Topics include the language of mathematics for ELLs, differentiation, and lesson planning. The ESL teacher works closely with the school secretaries, school based support personnel, administration, and the parent coordinator to ensure that parents and students have important information communicated in the L1 with sensitivity and respect and get all necessary paperwork in the L1. These kinds of conversations are part of the support and professional development that the ESL teacher provides all year formally and informally.

2. As our 5th grade ELLs prepare for middle school, the ESL and classroom teachers work with the students on essential school survival skills like note taking, keeping track of a planner, planning one's day, and being responsible for one's own assignments. The students start using a planner to track what assignments are due in the short and long term. The students will receive less reminders from teachers and parents are expected to continue working on projects and assignments independently in order to have a completed product on the due date. Students also visit their new middle school in order to get a sense of the building's layout and what the new school's expectations are. The ESL teacher works with the parent coordinator and school guidance counselor to support the parents of ELs in finding middle schools that are a good match. The guidance counselor works with the ESL teacher to develop lessons about transition and making friends and the social expectations in America. For example, the ESL teacher taught a PD to the entire school staff about the different cultural expectations and ways of socializing and being in school in different countries. The guidance counselor then created a comic book with an EL detailing how life in America is different and different socializing habits that students should be aware of (like no hitting on the playground, and it is important to look people in the eye).

3. All teachers and staff, like paraprofessionals, administrators, counselors, special education teachers, secretaries and the parent coordinator will be provided with professional development to support the understanding of the citywide Language Allocation Policy (LAP). The ESL teacher works with the classroom teachers to ensure that the foundations of the LAP policy are incorporated into daily classroom instruction. The ESL teacher also works with the paraprofessionals, guidance counselor, parent coordinator, and secretaries to ensure that all parties carry out the proper procedures for incoming families in regard to informing the ESL teacher of their presence so that the ESL teacher can give the Home Language Survey. The paraprofessionals and parent coordinator and secretaries also support the ESL

The ESL teacher also works with the paraprofessionals, guidance counselor, parent coordinator, and secretaries to ensure that all parties carry out the proper procedures for incoming families in regard to informing the ESL teacher of their presence so that the ESL teacher can give the Home Language Survey. The paraprofessionals and parent coordinator and secretaries also support the ESL initiatives by helping to provide translations for the families that need information in their native languages. The ESL teacher has copies of all the power point presentations she uses to teach the entire school staff about all issues related to ELs. For example, the ESL teacher created and presented a Power Point about the NYSESLAT and the necessary criteria to pass ESL. Additionally the ESL teacher taught teachers about the difference between social and academic competency and what teachers can do to support students as academic content becomes more sophisticated.

The Earth school staff meets every Thursday afternoon from 3:15 - 5:00. During these meetings, the ESL teacher contributes important information about appropriate expectations for beginning, intermediate, and advanced ESL students at different age levels. The ESL teacher provides professional development about scaffolds and accommodations that can be made per grade level to help ESL students be independently successful in the classroom curriculum. The ESL teacher works closely with classroom teachers in small groups on topics such as goal setting for students, content area support, differentiation, and curriculum development. Classroom teachers are also provided information on Professional Development opportunities for all teachers of ELLs, including general education classroom teachers. For example, the science teacher may be informed of a ELL Science symposium and given the option to attend an event along with the ELL

NYS CR Part 154 Mandated Number of Units of Support for ELLs, Grades K-8

E. Parental Involvement

1. Describe parent involvement in your school, including parents of ELLs.
2. Does the school partner with other agencies or Community Based Organizations to provide workshops or services to ELL parents?
3. How do you evaluate the needs of the parents?
4. How do your parental involvement activities address the needs of the parents?

Paste response to questions 1-4 here

1. Parents are an integral part of the Earth school community. In order to include all parents in school activities, meetings, and projects, information is sent home in the native language so that parents of ELLs can participate. Parents have weekly Parent Association meetings with the Principal. Parents also participate in weekly community open work sessions in the classroom, in which parents work with their children on projects of their choosing. This particular weekly activity is excellent for the parents of the ELL students because then they can see what the classroom expectations and projects are so that the ELL parents can support them at home. Many parents conduct projects with their children's classes, like art projects or environmental studies projects. Parents help plan and facilitate a wide variety of community activities, such as the fall fair, community potluck, clubs within the school, open "mic" nights, cookshops, class publishing parties, and town hall meetings. Parents are involved in the school's environmental endeavors and serve on the boards of the nutrition committee, the rooftop garden committee, and a variety of other school based groups. The Earth school makes consistent efforts to reach out to parents on a regular basis that goes far beyond the required parent conferences throughout the year. All letters are sent home in the high incidence languages that the DOE will translate. Additionally, the school uses translation money to translate documents that are used each year into the languages that parents at our school speak (like Japanese and Polish) that aren't translated by the DOE.

2. The ELL teacher provides information for parents about neighborhood organizations that offer free English classes and other supports in the neighborhood. Additionally, the ESL teacher sends home informational materials in the native language as much as possible as well as provides translators for school meetings. The INDOCHINA SINO-AMERICAN COMMUNITYCENTER (ISACC) is a neighborhood center that supports Asian American families with learning English. They also provide other forms of support to help families make a successful transition to life in America. There are also free classes for adult ESL learners at Hartley House (M-F 8:30-12:00 & 12:30-4:12 pm) at 413 W 46th street near 9th ave. The YMCA on Houston street also offers English classes. These institutions provide translations on line to advertise their services and these translations are posted on the school's community bulletin board.

In addition, we have many partnerships that send volunteers to the school that directly support our ELL's growth with listening, speaking, reading, and writing in English. Read for America volunteers work in every classroom in our school. These volunteers spend a lot of time supporting our ELLs with literacy development. Almost every classroom also has student teachers from either Bank Street School, New York University, or Columbia University. In addition, we are partnered with the neighborhood garden across the street, so our science curriculum often uses the garden as the foundation for classroom inquiry projects and lessons. We are also partnered with the Third Street Music Project. Volunteers from the Music Project provide music lessons to Pre-K through second grade classes for 26 weeks and then the students are eligible for free lessons at the Music Project. Grades 3-5 work with the Red Rogers Dance Company for 20 weeks of the school year. The music and dance partnerships are integral to supporting our ELL students find ways of expressing themselves with or without their new skills in the English language.

3. The parent program selection surveys, responses to the continuation of services letter, comments in the PTA, and discussions with the Parent Coordinator are taken very seriously at the Earth School. The Parent Coordinator speaks with the parents often and shares this information with the ESL teacher to make sure that the parents of ELLs are comfortable with the services provided. In addition, the ESL teacher sends home monthly letters to the parents of ESL students to ensure that the parents are informed of the ESL curriculum and ways they can help at home. The ESL teacher always provides her email address so the parents can discuss concerns or questions at any time. Additionally, the principal and parent coordinator keep track of parent concerns and trends at the Parent Association weekly meetings. These concerns are discussed at staff meetings when programmatic decisions are made for the following year. We try as hard as possible to learn about the parents' needs directly from the parents. Letters are translated into the NYC DOE high incidence languages. Additionally, parents can ask the Spanish, Chinese, Russian, French, and Hebrew speaking staff members at school to translate any other information.

4. Many of the parents's needs center around wanting to be connected to the classroom curriculum and be involved in their children's learning. In response to this need, the teachers' rooms are always open to parent participation at any time, as long as the parents sign up in advance. We also have an active PTA where parents can express their needs and work with the school faculty to create programs that will meet these issues. All flyers and letters are sent home in the high incidence languages and English.

The INDOCHINA SINO-AMERICAN COMMUNITYCENTER (ISACC) is a neighborhood center that supports Asian American families with learning English. They also provide other forms of support to help families make a successful transition to life in America. There are also free classes for adult ESL learners at Hartley House (M-F 8:30-12:00 & 12:30-4:12 pm) at 413 W 46th street near 9th ave. The YMCA on Houston street also offers English classes. These institutions provide translations on line to advertise their services and these translations are posted on the school's community bulletin board.

In addition, we have many partnerships that send volunteers to the school that directly support our ELL's growth with listening, speaking, reading, and writing in English. Read for America volunteers work in every classroom in our school. These volunteers spend a lot of time supporting our ELLs with literacy development. Almost every classroom also has student teachers from either Bank Street School, New York University, or Columbia University. In addition, we are partnered with the neighborhood garden across the street, so our science curriculum often uses the garden as the foundation for classroom inquiry projects and lessons. We are also partnered with the Third Street Music Project. Volunteers from the Music Project provide music lessons to Pre-K through second grade classes for 26 weeks and then the students are eligible for free lessons at the Music Project. Grades 3-5 work with the Red Rogers Dance Company for 20 weeks of the school year. The music and dance partnerships are integral to supporting our ELL students find ways of expressing themselves with or without their new skills in the English language.

3. The parent program selection surveys, responses to the continuation of services letter, comments in the PTA, and discussions with the Parent Coordinator are taken very seriously at the Earth School. The Parent Coordinator speaks with the parents often and shares this information with the ESL teacher to make sure that the parents of ELLs are comfortable with the services provided. In addition, the ESL teacher sends home monthly letters to the parents of ESL students to ensure that the parents are informed of the ESL curriculum and ways they can help at home. The ESL teacher always provides her email address so the parents can discuss concerns or questions at any time. Additionally, the principal and parent coordinator keep track of parent concerns and trends at the Parent Association weekly meetings. These concerns are discussed at staff meetings when programmatic decisions are made for the following year. We try as hard as possible to learn about the parents' needs directly from the parents. Letters are translated into the NYC DOE high incidence languages. Additionally, parents can ask the Spanish, Chinese, Russian, French, and Hebrew speaking staff members at school to translate any other information.

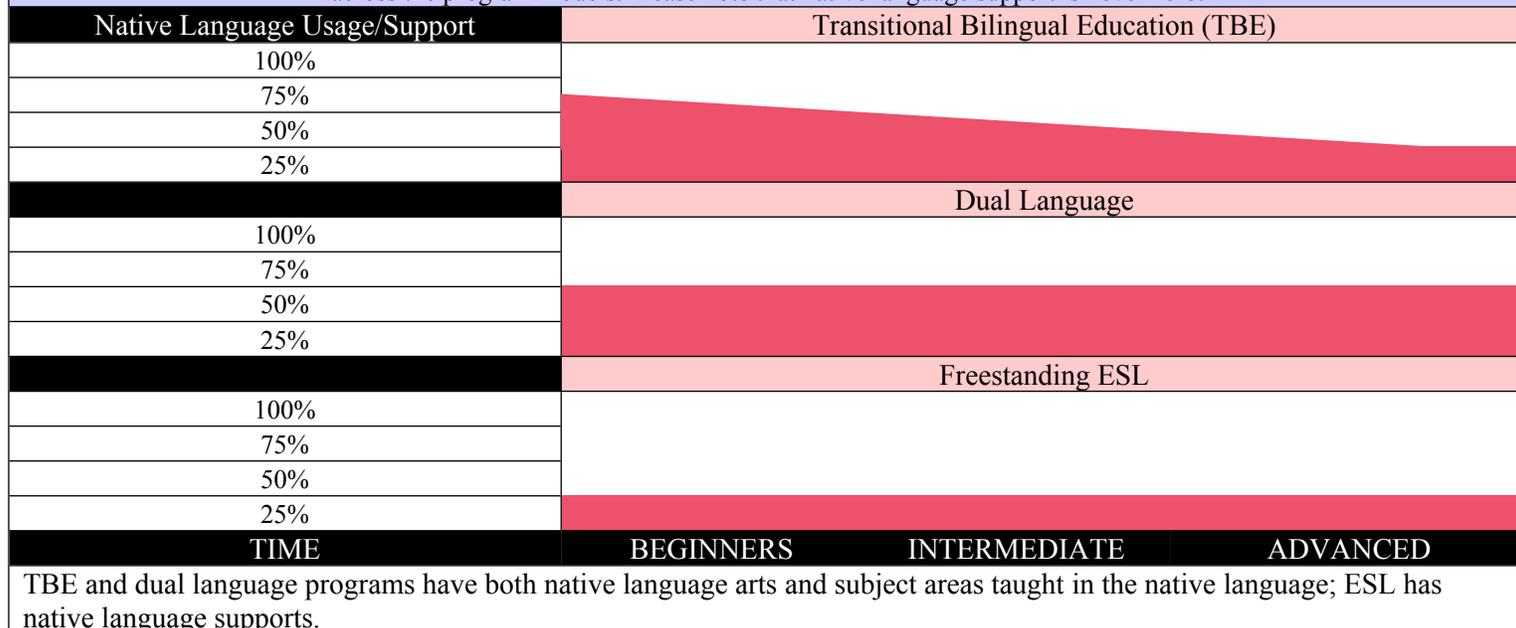

4. Many of the parents' needs center around wanting to be connected to the classroom curriculum and be involved in their children's learning. In response to this need, the teachers' rooms are always open to parent participation at any time, as long as the parents sign up in advance. We also have an active PTA where parents can express their needs and work with the school faculty to create programs that will meet these issues. All flyers and letters are sent home in the high incidence languages and English.

NYS CR Part 154 Mandated Number of Units of Support for ELLs, Grades 9-12

	Beginning	Intermediate	Advanced
ESL instruction for <i>all</i> ELLs as required under CR Part 154	540 minutes per week	360 minutes per week	180 minutes per week
ELA instruction for <i>all</i> ELLs as required under CR Part 154			180 minutes per week
FOR TBE /DL PROGRAMS: Native Language Arts	45 minutes per day	45 minutes per day	45 minutes per day

Native Language Usage and Supports

The chart below is a visual representation designed to show the variation of native language usage and supports across the program models. Please note that native language support is never zero.

B. Programming and Scheduling Information--Continued

8. Describe your targeted intervention programs for ELLs in ELA, math, and other content areas (specify ELL subgroups targeted). Please list the range of intervention services offered in your school for the above areas as well as the language(s) in which they are offered.
9. Describe your plan for continuing transitional support (2 years) for ELLs reaching proficiency on the NYSESLAT.
10. What new programs or improvements will be considered for the upcoming school year?
11. What programs/services for ELLs will be discontinued and why?
12. How are ELLs afforded equal access to all school programs? Describe after school and supplemental services offered to ELLs in your building.
13. What instructional materials, including technology, are used to support ELLs (include content area as well as language materials; list ELL subgroups if necessary)?
14. How is native language support delivered in each program model? (TBE, Dual Language, and ESL)
15. Do required services support, and resources correspond to ELLs' ages and grade levels?
16. Include a description of activities in your school to assist newly enrolled ELL students before the beginning of the school year.
17. What language electives are offered to ELLs?

Paste response to questions 8-17 here

8. ELLs receive push-in services in literacy, math, social studies and science. As language educators, we know that academic proficiency can take 7-10 years, long after the student is speaking fluently in English. Often an ELL's needs in the core academic areas can be overlooked, but the student is still struggling to express his/her understanding of complicated academic topics in English. The ESL teacher works with the classroom teacher to modify the academic content and assessments in order to allow the ELLs the maximum opportunity for success. ELLs also participate in the school's extended day program so that they can also receive additional support from the classroom teacher in a small group before the school day begins. Additionally, almost all classrooms have a student teacher, aide, or reading support

8. ELLs receive push-in services in literacy, math, social studies and science. As language educators, we know that academic proficiency can take 7-10 years, long after the student is speaking fluently in English. Often an ELL's needs in the core academic areas can be overlooked, but the student is still struggling to express his/her understanding of complicated academic topics in English. The ESL teacher works with the classroom teacher to modify the academic content and assessments in order to allow the ELLs the maximum opportunity for success. ELLs also participate in the school's extended day program so that they can also receive additional support from the classroom teacher in a small group before the school day begins. Additionally, almost all classrooms have a student teacher, aide, or reading support volunteer so that our ELLs can have a lot of individualized attention in the classroom. These services are always provided in English at the Earth School, as we only have a freestanding ESL program available. For our EL newcomers the classroom teachers use their smartboards to provide as many visuals as possible during ELA, math, social studies, and science lessons. Our school support team works with longer-term EL students with programs like Wilson reading and RTI for any particular skill that needs intervention. For example, one of our longer-term EL students needs help with elaboration in writing, so the support team teacher is doing a limited time intervention with the student specifically on elaborating in writing. In math, one of our EL students needs support with language in number stories so the ESL teacher did a targeted intervention about the language of number stories. In Social Studies, several of our ELs were unfamiliar with continents and directions, so the ESL teacher did a targeted intervention around map skills. In Science, some of our ELs needed help with using evidence to support their hypotheses in experiments, so the ESL teacher did a targeted intervention with using the word because the connect the proof with the reason why they predicted something.

9. Former ELLs: Students who pass the NYSESLAT continue to receive special accommodations during testing for two years. In addition, the ESL teacher is in communication with the former ELLs and their classroom teacher in order to determine throughout the year whether the student continues to need support in certain aspects of language development. The ESL teacher provides resources for lesson planning, scaffolding, and vocabulary support to the classroom teacher so that former ELLs are still provided with the necessary tools to access information as their language continues to grow. The ELL teacher also visits the classroom periodically and supports the former ESL student with the classroom curriculum. The ESL teacher provides graphic organizers, vocabulary supports, texts at the appropriate reading level, scaffolded tests and classroom worksheets. The ESL teacher also makes sure that the student is able to work independently and in group activities in the classroom by providing the above mentioned supports.

10. One improvement that the ESL teacher has been trying to integrate is the use of field trips and community walks. The ESL teacher will lead LEP students on neighborhood walks, scavenger hunts, and field trips that will require the students to interact with community members in English. These activities will provide authentic environments in which students must use their English skills in order to accomplish certain tasks. For example, the ESL teacher will take students to the supermarket, or students will have to follow directions to arrive at a certain location in the neighborhood, or students will visit the neighborhood radio station to make an announcement on the radio. The ESL teacher is also expanding the number of classrooms that can have a push-in ESL curriculum each year. We have language with motion to teach the alphabet to kindergartners. The ESL teacher is also getting more involved with the Social Studies curriculum for the fourth and fifth graders to help them understand the content. The ESL teacher is working with the 4th and 5th graders to create a comic book that demonstrates their understanding of the social studies content. The ESL teacher has also created more picture/word games to develop student speaking skills in English as well as word family workbooks to support the ESL students with decoding skills for reading and spelling.

11. In response to the general education teachers' concerns, the ESL teacher is working to minimize the time that ELLs are pulled out of the

Additional Information

Please include any additional information that would be relevant to your LAP and would further explain your program for ELLs. You may attach/submit charts. This form does not allow graphics and charts to be pasted.

Paste additional information here

C. Schools with Dual Language Programs

1. How much time (%) is the target language used for EPs and ELLs in each grade?
2. How much of the instructional day are EPs and ELLs integrated? What content areas are taught separately?
3. How is language separated for instruction (time, subject, teacher, theme)?
4. What Dual Language model is used (side-by-side, self-contained, other)?
5. Is emergent literacy taught in child's native language first (sequential), or are both languages taught at the same time (simultaneous)?

Paste response to questions 1-5 here

D. Professional Development and Support for School Staff

1. Describe the professional development plan for all ELL personnel at the school. (Please include all teachers of ELLs.)
2. What support do you provide staff to assist ELLs as they transition from elementary to middle and/or middle to high school?
3. Describe the minimum 7.5 hours of ELL training for all staff (including non-ELL teachers) as per Jose P.

Paste response to questions 1-3 here

1. The ESL teacher, the only ESL instructor in the building, attends all network ELL liason meetings as well as any BETAC conferences (though it looks like the Manhattan BETAC closed).

Common Branch teachers, administration, paraprofessionals, guidance counselors, special education teachers, as well as all school-based support personnel, secretaries, parent coordinators, and prep teachers are given a professional development workshop each year on a new theme about working with ELs. For example, last year the school looked closely at the EI identification process. This year the school is closely comparing the NYSELSLAT and the ELA. These workshops provide much more PD than the 7.5 hours that Jose P Mandates. These individuals are also provided support throughout the year on an individual basis. The ESL teacher works with classroom teachers to determine teaching strategies, discuss language development, set goals for individual students, and incorporate new teaching ideas into the classroom that will help to differentiate learning for ESL students. Since the ESL teacher pushes-in with three different grade level classes, those teachers co-plan with the ESL teachers and use strategies that support ELs throughout the day. The ESL teacher often helps the teachers modify curriculum content and lesson plans so that the students are able to be successful even when the ESL teacher is not in the room. Teachers have access to ELL specific materials from the ESL classroom library and the ESL teacher's library of materials. Furthermore, the ESL teacher works closely with an ELL specialist for the school support organization and attends monthly ESL network meetings. Topics include the language of mathematics for ELLS, differentiation, and lesson planning. The ESL teacher works closely with the school secretaries, school based support personnel, administration, and the parent coordinator to ensure that parents and students have important information communicated in the L1 with sensitivity and respect and get all necessary paperwork in the L1. These kinds of conversations are part of the support and professional development that the ESL teacher provides all year formally and informally.

2. As our 5th grade ELLs prepare for middle school, the ESL and classroom teachers work with the students on essential school survival skills like note taking, keeping track of a planner, planning one's day, and being responsible for one's own assignments. The students start using a planner to track what assignments are due in the short and long term. The students will receive less reminders from teachers and parents are expected to continue working on projects and assignments independently in order to have a completed product on the due date. Students also visit their new middle school in order to get a sense of the building's layout and what the new school's expectations are. The ESL teacher works with the parent coordinator and school guidance counselor to support the parents of ELs in finding middle schools that are a good match. The guidance counselor works with the ESL teacher to develop lessons about transition and making friends and the social expectations in America. For example, the ESL teacher taught a PD to the entire school staff about the different cultural expectations

D. Professional Development and Support for School Staff

1. Describe the professional development plan for all ELL personnel at the school. (Please include all teachers of ELLs.)
2. What support do you provide staff to assist ELLs as they transition from elementary to middle and/or middle to high school?
3. Describe the minimum 7.5 hours of ELL training for all staff (including non-ELL teachers) as per Jose P.

Paste response to questions 1-3 here

The ESL teacher works with the parent coordinator and school guidance counselor to support the parents of ELs in finding middle schools that are a good match. The guidance counselor works with the ESL teacher to develop lessons about transition and making friends and the social expectations in America. For example, the ESL teacher taught a PD to the entire school staff about the different cultural expectations and ways of socializing and being in school in different countries. The guidance counselor then created a comic book with an EL detailing how life in America is different and different socializing habits that students should be aware of (like no hitting on the playground, and it is important to look people in the eye).

3. All teachers and staff, like paraprofessionals, administrators, counselors, special education teachers, secretaries and the parent coordinator will be provided with professional development to support the understanding of the citywide Language Allocation Policy (LAP). The ESL teacher works with the classroom teachers to ensure that the foundations of the LAP policy are incorporated into daily classroom instruction. The ESL teacher also works with the paraprofessionals, guidance counselor, parent coordinator, and secretaries to ensure that all parties carry out the proper procedures for incoming families in regard to informing the ESL teacher of their presence so that the ESL teacher can give the Home Language Survey. The paraprofessionals and parent coordinator and secretaries also support the ESL initiatives by helping to provide translations for the families that need information in their native languages. The ESL teacher has copies of all the power point presentations she uses to teach the entire school staff about all issues related to ELs. For example, the ESL teacher created and presented a Power Point about the NYSESLAT and the necessary criteria to pass ESL. Additionally the ESL teacher taught teachers about the difference between social and academic competency and what teachers can do to support students as academic content becomes more sophisticated.

The Earth school staff meets every Thursday afternoon from 3:15 - 5:00. During these meetings, the ESL teacher contributes important information about appropriate expectations for beginning, intermediate, and advanced ESL students at different age levels. The ESL teacher provides professional development about scaffolds and accommodations that can be made per grade level to help ESL students be independently successful in the classroom curriculum. The ESL teacher works closely with classroom teachers in small groups on topics such as goal setting for students, content area support, differentiation, and curriculum development. Classroom teachers are also provided information on Professional Development opportunities for all teachers of ELLs, including general education classroom teachers. For example, the science teacher may be informed of a ELL Science symposium and given the option to attend an event along with the ELL

For example, the science teacher may be informed of a ELL Science symposium and given the option to attend an event along with the ELL teacher. As the ESL teacher attends professional development events, the information gathered at those events is turn-keyed at the school

E. Parental Involvement

1. Describe parent involvement in your school, including parents of ELLs.
2. Does the school partner with other agencies or Community Based Organizations to provide workshops or services to ELL parents?
3. How do you evaluate the needs of the parents?
4. How do your parental involvement activities address the needs of the parents?

Paste response to questions 1-4 here

1. Parents are an integral part of the Earth school community. In order to include all parents in school activities, meetings, and projects, information is sent home in the native language so that parents of ELLs can participate. Parents have weekly Parent Association meetings with the Principal. Parents also participate in weekly community open work sessions in the classroom, in which parents work with their children on projects of their choosing. This particular weekly activity is excellent for the parents of the ELL students because then they can see what the classroom expectations and projects are so that the ELL parents can support them at home. Many parents conduct projects with their children's classes, like art projects or environmental studies projects. Parents help plan and facilitate a wide variety of community activities, such as the fall fair, community potluck, clubs within the school, open "mic" nights, cookshops, class publishing parties, and town hall meetings. Parents are involved in the school's environmental endeavors and serve on the boards of the nutrition committee, the rooftop garden committee, and a variety of other school based groups. The Earth school makes consistent efforts to reach out to parents on a regular basis that goes far beyond the required parent conferences throughout the year. All letters are sent home in the high incidence languages that the DOE will translate. Additionally, the school uses translation money to translate documents that are used each year into the languages that parents at our school speak (like Japanese and Polish) that aren't translated by the DOE.

2. The ELL teacher provides information for parents about neighborhood organizations that offer free English classes and other supports in the neighborhood. Additionally, the ESL teacher sends home informational materials in the native language as much as possible as well as provides translators for school meetings. The INDOCHINA SINO-AMERICAN COMMUNITYCENTER (ISACC) is a neighborhood center that supports Asian American families with learning English. They also provide other forms of support to help families make a successful transition to life in America. There are also free classes for adult ESL learners at Hartley House (M-F 8:30-12:00 & 12:30-4:12 pm) at 413 W 46th street near 9th ave. The YMCA on Houston street also offers English classes. These institutions provide translations on line to advertise their services and these translations are posted on the school's community bulletin board.

In addition, we have many partnerships that send volunteers to the school that directly support our ELL's growth with listening, speaking, reading, and writing in English. Read for America volunteers work in every classroom in our school. These volunteers spend a lot of time supporting our ELLs with literacy development. Almost every classroom also has student teachers from either Bank Street School, New York University, or Columbia University. In addition, we are partnered with the neighborhood garden across the street, so our science curriculum often uses the garden as the foundation for classroom inquiry projects and lessons. We are also partnered with the Third Street Music Project. Volunteers from the Music Project provide music lessons to Pre-K through second grade classes for 26 weeks and then the students are eligible for free lessons at the Music Project. Grades 3-5 work with the Red Rogers Dance Company for 20 weeks of the school year. The music and dance partnerships are integral to supporting our ELL students find ways of expressing themselves with or without their new skills in the English language.

3. The parent program selection surveys, responses to the continuation of services letter, comments in the PTA, and discussions with the Parent Coordinator are taken very seriously at the Earth School. The Parent Coordinator speaks with the parents often and shares this information with the ESL teacher to make sure that the parents of ELLs are comfortable with the services provided. In addition, the ESL teacher sends home monthly letters to the parents of ESL students to ensure that the parents are informed of the ESL curriculum and ways they can help at home. The ESL teacher always provides her email address so the parents can discuss concerns or questions at any time. Additionally, the principal and parent coordinator keep track of parent concerns and trends at the Parent Association weekly meetings. These concerns are discussed at staff meetings when programmatic decisions are made for the following year. We try as hard as possible to learn about the parents' needs directly from the parents. Letters are translated into the NYC DOE high incidence languages. Additionally, parents can ask the Spanish, Chinese, Russian, French, and Hebrew speaking staff members at school to translate any other information.

4. Many of the parents's needs center around wanting to be connected to the classroom curriculum and be involved in their children's learning. In response to this need, the teachers' rooms are always open to parent participation at any time, as long as the parents sign up in advance. We also have an active PTA where parents can express their needs and work with the school faculty to create programs that will meet these issues. All flyers and letters are sent home in the high incidence languages and English.

E. Parental Involvement

1. Describe parent involvement in your school, including parents of ELLs.
2. Does the school partner with other agencies or Community Based Organizations to provide workshops or services to ELL parents?
3. How do you evaluate the needs of the parents?
4. How do your parental involvement activities address the needs of the parents?

Paste response to questions 1-4 here

1. Parents are an integral part of the Earth school community. In order to include all parents in school activities, meetings, and projects, information is sent home in the native language so that parents of ELLs can participate. Parents have weekly Parent Association meetings with the Principal. Parents also participate in weekly community open work sessions in the classroom, in which parents work with their children on projects of their choosing. This particular weekly activity is excellent for the parents of the ELL students because then they can see what the classroom expectations and projects are so that the ELL parents can support them at home. Many parents conduct projects with their children's classes, like art projects or environmental studies projects. Parents help plan and facilitate a wide variety of community activities, such as the fall fair, community potluck, clubs within the school, open "mic" nights, cookshops, class publishing parties, and town hall meetings. Parents are involved in the school's environmental endeavors and serve on the boards of the nutrition committee, the rooftop garden committee, and a variety of other school based groups. The Earth school makes consistent efforts to reach out to parents on a regular basis that goes far beyond the required parent conferences throughout the year. All letters are sent home in the high incidence languages that the DOE will translate. Additionally, the school uses translation money to translate documents that are used each year into the languages that parents at our school speak (like Japanese and Polish) that aren't translated by the DOE.

2. The ELL teacher provides information for parents about neighborhood organizations that offer free English classes and other supports in the neighborhood. Additionally, the ESL teacher sends home informational materials in the native language as much as possible as well as provides translators for school meetings. The INDOCHINA SINO-AMERICAN COMMUNITYCENTER (ISACC) is a neighborhood center that supports Asian American families with learning English. They also provide other forms of support to help families make a successful transition to life in America. There are also free classes for adult ESL learners at Hartley House (M-F 8:30-12:00 & 12:30-4:12 pm) at 413 W 46th street near 9th ave. The YMCA on Houston street also offers English classes. These institutions provide translations on line to advertise their services and these translations are posted on the school's community bulletin board.

In addition, we have many partnerships that send volunteers to the school that directly support our ELL's growth with listening, speaking, reading, and writing in English. Read for America volunteers work in every classroom in our school. These volunteers spend a lot of time supporting our ELLs with literacy development. Almost every classroom also has student teachers from either Bank Street School, New York University, or Columbia University. In addition, we are partnered with the neighborhood garden across the street, so our science curriculum often uses the garden as the foundation for classroom inquiry projects and lessons. We are also partnered with the Third Street Music Project. Volunteers from the Music Project provide music lessons to Pre-K through second grade classes for 26 weeks and then the students are eligible for free lessons at the Music Project. Grades 3-5 work with the Red Rogers Dance Company for 20 weeks of the school year. The music and dance partnerships are integral to supporting our ELL students find ways of expressing themselves with or without their new skills in the English language.

3. The parent program selection surveys, responses to the continuation of services letter, comments in the PTA, and discussions with the Parent Coordinator are taken very seriously at the Earth School. The Parent Coordinator speaks with the parents often and shares this information with the ESL teacher to make sure that the parents of ELLs are comfortable with the services provided. In addition, the ESL teacher sends home monthly letters to the parents of ESL students to ensure that the parents are informed of the ESL curriculum and ways they can help at home. The ESL teacher always provides her email address so the parents can discuss concerns or questions at any time. Additionally, the principal and parent coordinator keep track of parent concerns and trends at the Parent Association weekly meetings. These concerns are discussed at staff meetings when programmatic decisions are made for the following year. We try as hard as possible to learn about the parents' needs directly from the parents. Letters are translated into the NYC DOE high incidence languages. Additionally, parents can ask the Spanish, Chinese, Russian, French, and Hebrew speaking staff members at school to translate any other information.

4. Many of the parents' needs center around wanting to be connected to the classroom curriculum and be involved in their children's learning. In response to this need, the teachers' rooms are always open to parent participation at any time, as long as the parents sign up in advance. We also have an active PTA where parents can express their needs and work with the school faculty to create programs that will meet these issues. All flyers and letters are sent home in the high incidence languages and English.

Part V: Assessment Analysis

A. Assessment Breakdown

Enter the number of ELLs for each test, category, and modality.

OVERALL NYSESLAT* PROFICIENCY RESULTS (*LAB-R FOR NEW ADMITS)

Native Language Tests

	# of ELLs scoring at each quartile (based on percentiles)				# of EPs (dual lang only) scoring at each quartile (based on percentiles)			
	Q1 1-25 percentile	Q2 26-50 percentile	Q3 51-75 percentile	Q4 76-99 percentile	Q1 1-25 percentile	Q2 26-50 percentile	Q3 51-75 percentile	Q4 76-99 percentile
ELE (Spanish Reading Test)								
Chinese Reading Test								

B. After reviewing and analyzing the assessment data, answer the following

- Describe what assessment tool your school uses to assess the early literacy skills of your ELLs (e.g., ECLAS-2, EL SOL, Fountas and Pinnell, DRA, TCRWP). What insights do the data provide about your ELLs? How can this information help inform your school's instructional plan? Please provide any quantitative data available to support your response.
- What is revealed by the data patterns across proficiency levels (on the LAB-R and NYSESLAT) and grades?
- How will patterns across NYSESLAT modalities—reading/writing and listening/speaking—affect instructional decisions?
- For each program, answer the following:
 - Examine student results. What are the patterns across proficiencies and grades? How are ELLs faring in tests taken in English as compared to the native language?
 - Describe how the school leadership and teachers are using the results of the ELL Periodic Assessments.
 - What is the school learning about ELLs from the Periodic Assessments? How is the Native Language used?
- For dual language programs, answer the following:
 - How are the English Proficient students (EPs) assessed in the second (target) language?
 - What is the level of language proficiency in the second (target) language for EPs?
 - How are EPs performing on State and City Assessments?
- Describe how you evaluate the success of your programs for ELLs.

1. The certified ESL teacher collects ATS reports to determine student scores on standardized testing in order to properly group students according to their proficiency level. The RLAT, the RLER, the RYOS, ROPB, and student assessment history reports are all used to determine not only the overall score achieved on the NYSESLAT exam, but also the modalities in which students scored the highest and lowest. Students are given running records, comprehension checks, and informal and formal assessments that help to determine their early literacy skills at young ages.

The classroom assessments that inform ESL instruction are the TCRWP running records and comprehension checks for determining reading levels. The TCRWP reading assessments have demonstrated that all of the ESL students are below grade level for reading. The ESL teacher is supporting the students in reading by focusing on word families to help students decode as they read. The ESL teacher is also using books at the students' levels to support reading comprehension. The teacher helps students show comprehension by using graphic organizers for sequence of events, character traits and the problem and solution. Additionally the school uses Words Their Way assessments to determine where the students are on a continuum for stages of spelling and decoding. The data from these assessments informs the classroom and ESL focus for the year.

The ESL teacher has been focussing on the consonants in English to help Kindergarten and first grade students spell and decode simple words with consonant, vowel, consonant speling in order to support a more solid foundation in English consonants. The WTW assessments for the upper grades reveals that all of the ESL students in grades 4 and 5 are still working on their long and short vowels. The ESL teacher has been focusing on word families with long and short vowels to support the students in developing their understanding of vowels. The certified ESL teacher conducts informal and formal assessments regularly starting at the beginning of the year for letter recongnition, sight words, or comprehension depending on the level of the student. Each student has an ESL portfolio, which is carefully examined by the teacher three times a year to determine progress in areas such as written work, spelling, grammar, decoding, reading comprehension, and vocabulary.

ELLS progress in meeting TC benchmarks for March 2011

K 50% of ELLs met benchmark (2/4), other 50% of ELLs learned at least 70% more letters (2/4)

1 100% (3/3) of ELL students moved up at least one reading level

2

3/4/5 100% (3/3) of self-contained ELLs have moved up at least one reading level

4 1 met benchmark, 1 moved up at least one level

5 Both students moved up 4 levels

Additional Information

Please include any additional information that would be relevant to your LAP and would further explain your program for ELLs. You may attach/submit charts. This form does not allow graphics and charts to be pasted.

LANGUAGE TRANSLATION AND INTERPRETATION 2011-2012

CEP Appendix 7

Requirement under Chancellor's Regulations – for all schools

DBN: 364 School Name: The Earth School

Cluster: _____ Network:

Goal: To communicate whenever feasible with non-English speaking parents in their home language in order to support shared parent-school accountability, parent access to information about their children's educational options, and parents' capacity to improve their children's achievement.

Part A: Needs Assessment Findings

1. Describe the data and methodologies used to assess your school's written translation and oral interpretation needs to ensure that all parents are provided with appropriate and timely information in a language they can understand.

At the beginning of the school year, we look through the students' HLIS to find out the primary languages used at home. In addition, we use the ATS system to identify parents who may need translation and/or oral interpretation needs. While giving the HLIS, the ESL teacher has an informal interview with the parents. This interview reveals the parent's comfort level in English or preference for speaking the native language. Almost all parents at our school prefer to speak to teachers and receive school information in English, and write this on the HLIS. If the parent writes that he/she prefers to speak and receive information in the Native Language, the ESL teacher adds the family name to a chart so the the ESL teacher, the parent coordinator, and the school secretaries ensure that the families receive translations of all documents going home and all signs posted around the school.

2. Summarize the major findings of your school's written translation and oral interpretation needs. Describe how the findings were reported to the school community.

This year we have 11 ELs speaking Cantonese, Japanese, French, Russian, Croatian, Spanish, Polish, and Hebrew. We also have many students that speak another language at home that are not considered LEPs. Through the HLIS we are able to tell which parents need translation and interpretation services. We share the information about how many languages our school speaks as a celebration of our diversity through school posters graphing the number of languages we speak as a school. The school's SLT also discusses this information to prepare translations and interpreters as necessary. We currently have 1 family that requires Cantonese translation. This family has a close relationship with the Parent Coordinator in our building that speaks Cantonese. The parent coordinator translates in person all documents that go home for the parents when they pick the child up from school. The ESL teacher, when given enough notice, has all documents translated to Cantonese as well. We have about 10 families that require Spanish translation, only two of which have students that are considered LEPs. These families have close relationships with the school Parent Coordinator who translates in person all documents that go home. Additionally, when the ESL teacher is given notice, she has all documents translated. Finally, there is one family that requires Russian translation. We have

a teacher's assistant at the school that translates all documents and meetings. Again, the ESL teacher has all documents translated to Russian when given notice. Our families that speak Polish, Japanese, Croatian, French, and Hebrew are fluent in English and prefer to speak in English.

Part B: Strategies and Activities

1. Describe the written translation services the school will provide, and how they will meet identified needs indicated in Part A. Include procedures to ensure timely provision of translated documents to parents determined to be in need of language assistance services. Indicate whether written translation services will be provided by an outside vendor, or in-house by school staff or parent volunteers.

Using the DOE Translation Unit, we are translating all major written materials, including flyers for school events, letters home, conference notifications, and other community materials. The ESL teacher or Parent Coordinator requests any important documents at least a month in advance in order to allow time for translations. There are also staff members in the building that provide assistance with translating documents in Spanish and Chinese or translate the documents for families in person. The ESL teacher has copies of all DOE translated letters on file in all the high incidence languages, like the Family Bill of Rights, Program Selection Forms for ELs, internet use rules, etc.

2. Describe the oral interpretation services the school will provide, and how they will meet identified needs indicated in Part A. Indicate whether oral interpretation services will be provided by an outside contractor, or in-house by school staff or parent volunteers.

We are using our translation budget allocation to hire on-site interpreters from Legal Interpreting Services, a contracted DOE Vendor, to provide oral interpretation services at major school events, including PTA meetings, family conferences, orientation, and Curriculum Night, as well as at individual conferences when needed. The Parent Coordinators in the building also act as interpreters in Spanish and Chinese when spontaneous meetings are necessary. We also have a Russian speaking teacher's assistant that can provide the same service.

3. Describe how the school will fulfill Section VII of Chancellor's Regulations A-663 regarding parental notification requirements for translation and interpretation services. Note: The full text of Chancellor's Regulations A-663 (Translations) is available via the following link: <http://docs.nycenet.edu/docushare/dsweb/Get/Document-151/A-663%20Translation%203-27-06%20.pdf>.

Before any school meetings, we inform parents in their native language of the meeting and let them know that translators will be available.
