

**Department of
Education**

Dennis M. Walcott, Chancellor

2013-2014

**SCHOOL COMPREHENSIVE EDUCATIONAL PLAN
(SCEP)**

School Name: PS 306
DBN (i.e. 01M001): 10X306
Principal: DARRYL HARRINGTON
Principal Email: DHARRINGTON3@SCHOOLS.NYC.GOV
Superintendent: MELODIE MASHEL
Network Leader: MARIA QUAIL

School Leadership Team (SLT) Signature Page

Use this page to identify SLT members and confirm their participation in the development of this School Comprehensive Educational Plan (SCEP), which includes goals and action plans, a summary of Academic Intervention Services (AIS), and the Parent Involvement Policy (PIP). The signatures of SLT members indicate their participation in the development of the SCEP and serve as confirmation that consultation has occurred to align funding in support of educational programs. The SLT must include an equal number of parents and staff and have a minimum of 10 and a maximum of 17 members, in accordance with the Chancellor’s Regulation A-655, available on the NYC DOE Web site.

Directions:

1. List each SLT member in the left-hand column on the chart below. Specify any position held by the team member, e.g., Chairperson, SLT Secretary and the constituent group represented, e.g., parent, staff, student, or CBO. Core mandatory SLT members are indicated by an asterisk*.
2. Ensure that SLT members review this document and sign in the right-hand column in blue ink. If an SLT member does not wish to sign this plan, he/she may attach a written explanation in lieu of his/her signature**.
3. Add rows as needed to ensure that all SLT members are listed.
4. The original copy, along with any written communications pertaining to this page, is to remain on file in the principal’s office and be made available upon written request.
5. Names of SLT members must be added to this form for posting. The signed original documents must be maintained on file at the school.

Name	Position and Constituent Group Represented	Signature
Darryl Harrington	*Principal or Designee	
Gwen Denniston	*UFT Chapter Leader or Designee	
Margaret Johnson	*PA/PTA President or Designated Co-President	
Alisa Sanchez	DC 37 Representative, if applicable	
	Student Representative (<i>optional for elementary and middle schools; a minimum of two members required for high schools</i>)	
Morris Height Health Center, Bronx Arts Ensemble, City Harvest	CBO Representative, if applicable	
Delfina Arias	Member/ Parent Members	
Tecolia Robinson	Member/ Parent Members	
Raysa Matos	Member/ Parent Members	
Ivette Arias	Member/ Parent Members	
John Hickman	Member/ CSA Member	
Kareene Drummond	Member/ UFT Member	
	Member/	

Signature of constituent only indicates participation in the development of the SCEP, not approval. **Note: If for any reason a SLT member does not wish to sign this plan, he/she may attach an explanation in lieu of his/her signature which must be maintained on file at the school with the original SLT signature page.

School Comprehensive Education Plan (SCEP) Requirements

Which Schools Need to Complete the SCEP?

Consistent with the USDOE approved ESEA Flexibility Waiver, Priority Schools and Focus Schools are required to develop a School Comprehensive Education Plan (SCEP). Schools should identify and submit annual goals and action plans in consultation with their School Leadership Team (SLT).

Priority and Focus schools implementing a whole school reform model in 2013-14 are required to:

- Include an analysis of the achievement of the goals contained in the 2012-13 school year SCEP.
- Include the strategies and activities that are aligned to the six tenets, from the list of allowable expenditures and activities approved by NYSED.
- Include the strategies and activities that will satisfy the Priority and Focus school allocation and parent engagement set-aside requirements.
- Explicitly delineate the school's plan for annually increasing student performance through comprehensive instructional programs and services as well as the plan for enhancement of teacher and leader effectiveness. The strategies and activities should include a focus on the accountability subgroup(s) and measures for which the school has been identified.
- Address how the school will use its full range of resources (which may include but is not limited to Title I, Title II, and/or Title III, 1003(a) and/or 1003(g) School Improvement, Race to the Top, School Innovation or local funds) to support improvement efforts for the identified sub-group(s) on the identified accountability measures.
- Develop the SCEP in consultation with parents, school staff, the School Leadership Team (SLT), and others in accordance with the requirements of Chancellor's Regulations A-655 to provide a meaningful opportunity for stakeholders to participate in the development of the plan and comment on the SCEP before it is approved.
- Set aside 1% of their school's Title I, Part A allocation to support parent involvement activities and programs. Focus and Priority schools must also set aside 1% of their Title I Focus and Priority School allocation for Parent Engagement programs. Refer to FY 14 SAM # 86 [HERE](#).
- Align the identified goals to the strategies and activities in your Parent Involvement Policy (PIP). The PIP template is provided on pages 14 and 15. Your school is encouraged to use the template as it is provided, or align it in accordance with your school's goals, or replace it entirely with a Parent Involvement Policy created by your school that meets federal requirements. You may use or amend relevant sections of your PIP so they directly align to the parent involvement activities that support each goal and action plan. All schools should cite strategies to increase parent involvement that align to the goal when applicable. Title I schools should reference these strategies and activities in the school's Title I Parent Involvement Policy (PIP).

Guidance for Developing Completing the Annual Goals and Action Plan Section

For SY 2013-14 the SCEP must be based on the findings and recommendations contained in the most recent Integrated Intervention Team (IIT) Review, NYCDOE Quality Review, or NYCDOE Alternative Quality Review (Alt QR).

- Your school should identify a goal based on Tenets 2-6 of the DTSDE. The response to Tenet 1 will be promulgated by Central. Please refer to the complete description of the Statements of Practice (SOP), for Tenets 2-6, located: [HERE](#).
 1. District Leader and Capacity- (The response to this tenet will be promulgated centrally)
 2. School Leader Practices and Decisions
 3. Curriculum Development and Support
 4. Teacher Practices and Decision
 5. Student Social and Emotional Developmental Health
 6. Family and Community Engagement
- Goals should be aligned with the current citywide instructional expectations.
- Goals should be "SMART" - specific, measurable, achievable, realistic, and time-bound.
- Goal development should be based on an assessment of your school's needs, derived from the recommendation from your most recent intervention. Cite the page number from your most recent intervention. Copy and paste the recommendation into your action plan. If your school has **not** received an intervention during the 12-13 school year, you should demonstrate the use of both quantitative and/or qualitative data when providing the rationale for each goal. You should cite data from the other

sources such as the Progress Report, School Survey, etc.

- Select the HEDI rating for the associated Statement of Practice (SOP) that was earned by the school during its most recent intervention. Schools that did not receive an Integrated Intervention Team (ITT) visit in 2012-13 should use the rating from their most recent intervention using the QR/Alt QR cross walk provided [HERE](#).
- Indicate the SOP being addressed by marking the box to the left of the SOP description. Select the specific SOP(s) that correspond to the intervention recommendation and the school's priorities.
- Enumerate the strategies and activities that will be implemented to achieve each goal.
- Identify all fund sources that will be used for the completion of each activity.
- List the projected timeline for completion of each activity, including the start and end date of each activity.
- Ensure the matching fund source and P&F program dropdown menu in Galaxy align to the SOPs selected in the SCEP.
- Describe the programmatic details (e.g. number of sessions, number of hours, number of teachers, etc.) and resources that will be used for each instructional strategy and activity described for each goal. Do not include the cost for each line-item-expenditure for the strategies and activities listed within the action plans.

School Receiving Title I Funds

School Wide Program (SWP) and Targeted Assistance (TA) Schools receiving Title I funds are required to complete the Title I Information Page (TIP) located on page 13 of the SCEP.

SCEP Checklist

All Schools

Indicate that a section has been completed by marking an "X" in the box to the left of each section	
x	School Leadership Team Signature Page
x	The SCEP Overview
x	Action Plans 1 – 5: Each of the five Action Plans must contain the following elements-
	1. A major recommendation with HEDI rating
	2. Statement Of Practice (SOP) selected aligned to the goal
	3. A goal aligned to the major recommendation
	4. Instructional Strategies section, A-E for each strategy or activity that supports the goal
	5. Budget & Resource Alignment section (indicating all funding sources)
x	Academic Intervention Services (AIS)
x	Title I Information Page (TIP) (Only for Priority or Focus schools receiving Title I funding)
x	Parent Involvement Policy (PIP)

SCEP Overview

The SCEP Overview is designed to assist you to reflect and improve the development of the SCEP for the 13-14 school year. The SCEP is developed with the School Leadership Team (SLT) in accordance with Chancellor's Regulations A-655. The SCEP will be posted on the school's webpage to be made widely available to the public and the school community at large.

The SCEP Overview will serve as the at-a-glance summary for NYSED as to how the school will use various funding sources to improve student achievement based on the needs assessment established by the school's most recent intervention.

Reflecting upon the 2012-13 SCEP

Answer the following questions regarding the 12-13 SCEP			
Describe the strengths of your school's 12-13 SCEP.			
Reflecting upon the 2012-2013 plan			
As we reflected upon our 2012-2013 plan, our strengths were as follow:			
<ul style="list-style-type: none"> • Improved Writing Strategies across grades • Frequent and Effective Teacher Feedback • Designed Rigorous learning tasks supported with Rubrics • Improving our students' social and emotional development support systems • Family and community engagement. 			
The weaknesses in our plan were as follow:			
<ul style="list-style-type: none"> • The modification and implementation of goals as the year went on • Inconsistent application of high order thinking skills and/or rigor • Low quantity of dynamic lesson plans aligned to common core learning standards 			
The lack of funding aligned to specific goals affected our ability to accomplish all of the goals detailed in our SCEP plan; for example, our need for a Literacy Coach. Our SCEP plan supported the need for this essential support mechanism for school improvement however we did not have the funds nor the ability to hire an effective Literacy Coach. Also, the rigid schedules of teachers made it difficult for teachers to meet before and after school for collegial learning groups. Finally, our grant dollars were not released until mid- December/early January and we did not receive clear communication around the timing of these needed funds..			
Describe the areas for improvement in your school's 12-13 SCEP.			
Would like to focus more funding and support around Students with Disabilities			
Describe the barriers and challenges encountered while developing and implementing your school's 12-13 SCEP.			
The challenges are around the submission date for the SCEP.			
Describe the degree to which your school's 12-13 SCEP was successfully implemented.			
Our SCEP was successfully generated based on evidence that we gathered at the end of the school year.			
Were all the goals within your school's 12-13 SCEP accomplished?	<input type="checkbox"/>	Yes	<input checked="" type="checkbox"/> x <input type="checkbox"/> No
If all the goals were not accomplished, provide an explanation.			
We will need more time to accomplish our goals. We have made gains in several Core areas however there is still much work that needs to be done.			
Did the identified activities receive the funding necessary to achieve the corresponding goals?	<input type="checkbox"/>	Yes	<input checked="" type="checkbox"/> x <input type="checkbox"/> No

Developing the 2013-14 SCEP

Answer the following questions regarding the 13-14 SCEP			
Describe the anticipated barriers and challenges in developing and implementing your school's 13-14 SCEP.			
We anticipated only one barrier to our 2013-2014 plan: <i>budget</i>			
List the 13-14 student academic achievement targets for the identified sub-groups.			
We developed our 2013-2014 plan and based our goals and activities on the following criteria:			
<ul style="list-style-type: none"> • Student data (current: NYS ELA/MATH , NYSESLAT, Periodic Assessments, NYSAAA, etc) • Recommendations from: Quality Review and Network feedback • Faculty and staff data (evaluations & observations) • Parent and student feedback (surveys & meetings) 			
We identified the academic achievement targets in ELA and Math for identified subgroups to range:			
• Hispanic and Latino	10% - 20%		
• African American	10% - 20%		
• Students with Disabilities	10% - 20%		
• Limited English Proficiency	10% - 20%		
• Economically Disadvantaged	10% - 20%		

Describe how the school leader(s) will communicate with school staff and the community.

We identified goals that facilitate school leaders to communicate our 2013-2014 plan in a variety of ways; for example, the establishment of School, Family, Community, and Partner Leader Collaborative, School Based Planning Team, and faculty/staff meetings; professional development; school-wide events; faculty bulletin; parent monthly newsletters (English and Spanish) school websites; and bulletin boards.

We communicated our drafted 2013-2014 plan for feedback in a variety of methods. For example, we shared draft through email communications, posted on our school website and we held a SLT team meeting which consisted of teachers, parents, and administrators. Staff will be informed through our Faculty Meetings and at our Grade Level meetings throughout the school year. We also communicated to parents through weekly-automated phone calls.

Describe your theory of action at the core of your school's SCEP.

We wrote our 2013-2014 plan to address the following identified needs of our school: consistent implementation of visions and goals; common core lesson plans to increase academic rigor and higher-order thinking skills; and inquiry-based instruction for student engagement. In addition, we addressed the continuation of expanded time, students' social and emotional development support systems as well as parent and community engagement.

Describe the strategy for executing your theory of action in your school's SCEP.

We highlighted the following initiatives in our 2013-2014 plan: inquiry-based projects (6-8 per year) to engage students; CCLS aligned units of study and lessons to promote rigor and higher-order thinking skills; expanded time and data cycles to differentiate supports; and focused school wide priorities to communicate vision and goals. To support our highlighted initiatives, we allocated funds from our Title I grant, Title 1 budget as well as school operating costs.

List the key elements and other unique characteristics of your school's SCEP.

We recognized the guiding principles of the school and district: targeted teacher development, student engagement, differentiated supports, and most importantly, two focused school-wide priorities connected our 2013-2014 plan to our identified school's needs. .

We selected professional development based on identified SCEP goals and targets. We planned to deliver professional development daily during designated times in our extended day. We plan to provide differentiated professional development based on the needs of faculty and staff. Finally, we planned a variety of professional development opportunities such as model classrooms, demonstration lessons, Inter-school visitations, guided observations, collegial learning circles, webinars & webcasts, coaching, and data cycles.

Provide evidence of your school's capacity to effectively oversee and manage the improvement plan.

We have the capacity to oversee our School improvement which will be monitored and addressed by the School Leadership team on a monthly basis. Also the Administrative Cabinet will be very instrumental in ensuring that our School Improvement items are implemented.

Goal and Action Plan #1 School Leader Practices and Decisions (Tenet 2)

Use this template to identify an annual goal. Respond to each section to indicate strategies and activities in support of accomplishing this goal.

Major Recommendation

Cite the Major Recommendation in the space below from your latest intervention (DTSDE Review, QR, or Alt DQR) which will form the basis of your needs assessment. Include the review type, year, page number, and HEDI rating (“H” = Highly effective, “E” = Effective, “D” = Developing, “I” = Ineffective, “NA” = Not Applicable).

Strengthen teacher practice so that across classrooms students are engaged in high levels of discussions and appropriately challenging tasks in order to extend their thinking.

Review Type:	QUALITY REVIEW	Year:	2012-13	Page Number:	5	HEDI Rating:	D
---------------------	----------------	--------------	---------	---------------------	---	---------------------	---

Tenet 2: School Leadership Practices and Decisions

Indicate using an “X” the Standard(s) of Practice (SOP) that aligns to the recommendation from above. The SOP selected should align to the goal and inform the development of the activities selected to address the goal.

2.2 School leader’s vision	X	2.3 Systems and structures for school development
2.4 School leader’s use of resources	X	2.5 Use of data and teacher mid-management effectiveness

Annual Goal #1

Describe the identified goal for the year based on the recommendation, tenet, and SOP(s) selected. Refer to the directions and guidance for assistance in developing your goals.

By June of 2014, 100% of our staff will be effectively trained with the Danielson Framework and the focus will be on Domain 3- (Using Questioning and Discussion Techniques).

Instructional Strategies/Activities

Describe the research-based school wide reform instructional strategies and activities that will be used to achieve this goal in part A. Enumerate each strategy/activity and its corresponding subsection in parts B, C, D, and E. Include the corresponding SOP(s) for each strategy/activity enumerated in part A. For each strategy/activity identified in part A, a corresponding item must be provided in parts B, C, D, and E.

- 1. Strategies/activities that encompass the needs of identified subgroups**
 - 1. Activity- Teachers will be trained on how to increase rigor and develop higher-order questions in instruction.**
 - 2. Activity-All teachers will complete 3 workshops afterschool that address Danielson –Domain 3.**
 - 3. Activity –All teachers will develop and use CCLS appropriately aligned lessons plans that promote higher-order thinking skills in all groups of students and develop analytical, evaluative and reflective skills across content areas by providing supports and extensions necessary for student achievement.**
- 2. Key personnel and other resources used to implement each strategy/activity**
 - 1. DOE Talent coach will meet with all Grade level teams regarding the Implementation of the Danielson rubric (Domain 3)**
 - 2. The hiring of a Literacy Support Specialist to work with teachers throughout the school year.**
 - 3. Pearson Consultant will conduct weekly workshops and study groups around Danielson rubric(Domain-3)**
- 3. Identify targets to evaluate the progress, effectiveness, and impact of each strategy/activity**
 - 1. The administrative team will monitor the progress and effectiveness of teacher practice by conducting on-going observations, both formal and informal.**
 - 2. Observation feedback with a focus on Domain 3 will be gathered and analyzed to monitor growth.**
 - 3. 100% of teachers will receive three PD sessions related to the observation patterns and trends from observations.**
- 4. Timeline for implementation and completion including start and end dates**
 - 1. Every week beginning in September to June of 2014.**
 - 2. All teachers will be observed on a daily basis and feedback provided within 24 hours.**
 - 3. After each month.**
- 5. Describe programmatic details and resources that will be used to support each instructional strategy/activity**
 - 1. No cost associated with activity**
 - 2. Tax Levy funds will be utilized to hire a Literacy Support Specialist**
 - 3. Common planning time will be built into the schedule**
 - 4. Teacher Per Session**

Budget and Resource Alignment

Indicate using an “X” the fund source(s) that your school is using to support the instructional goal.

x	PF Set Aside	X	Tax Levy		Title IA		Title IIA		Title III	x	Grants
----------	---------------------	----------	-----------------	--	-----------------	--	------------------	--	------------------	----------	---------------

List any additional fund sources your school is using to support the instructional goal below.

Indicate using an "X" the P&F activity categories from the P&F program dropdown in Galaxy used to support the activities listed in part A.							
	PF AIS		PF CTE		PF College & Career Readiness	x	PF Common Core
X	PF ELT	X	PF Inquiry Teams	X	PF NYS Standards and Assessments		PF Parent Engagement
X	PF Positive Behavioral Management Programs				PF RTI	X	PF Supporting Great Teachers & Leaders

Goal and Action Plan #2 Curriculum Development and Support (Tenet 3)

Use this template to identify an annual goal. Respond to each section to indicate strategies and activities in support of accomplishing this goal.

Major Recommendation

Cite the Major Recommendation in the space below from your latest intervention (DTSDE Review, QR, or Alt DQR) which will form the basis of your needs assessment. Include the review type, year, page number, and HEDI rating ("H" = Highly effective, "E" = Effective, "D" = Developing, "I" = Ineffective, "NA" = Not Applicable).							
Enhance The alignment of the school's curriculum with the Common Core Learning Standards to include key standards							
Review Type:	Quality Review	Year:	2012-13	Page Number:	Page 5	HEDI Rating:	D

Tenet 3: Curriculum Development and Support

Indicate using an "X" the Standard(s) of Practice (SOP) that aligns to the recommendation from above. The SOP selected should align to the goal and inform the development of the activities selected to address the goal.			
X	3.2 Enact curriculum	X	3.3 Units and lesson plans
X	3.4 Teacher collaboration	X	3.5 Use of data and action planning

Annual Goal #2

Describe the identified goal for the year based on the recommendation, tenet, and SOP(s) selected. Refer to the directions and guidance for assistance in developing your goals.	
By June of 2014, all students in grades K-5 will be engaged in rigorous and coherent Literacy and mathematics curriculum aligned to the NYS CCLS with embedded high order thinking skills which will result in a 20% increase in student progress as measured by assessments that enhance the alignment of our Literacy and Math curriculum with the Common Core Learning Standards to include key standards that consistently engage students in rigorous tasks in order to promote higher order thinking as evidenced in our increase in student performance.(.1.1)	

Instructional Strategies/Activities

Describe the research-based school wide reform instructional strategies and activities that will be used to achieve this goal in part A. Enumerate each strategy/activity and its corresponding subsection in parts B, C, D, and E. Include the corresponding SOP(s) for each strategy/activity enumerated in part A. For each strategy/activity identified in part A, a corresponding item must be provided in parts B, C, D, and E.	
A. Strategies/activities that encompass the needs of identified subgroups	
<ol style="list-style-type: none"> 1. Collaborative teams involved in the inquiry process will focus on instructional coherence through the collection of data on how well students are learning. Modifications to the curriculum to address special needs and ESL students. Special education and ESL teachers will look at student work, formative and summative data, lesson plans. All teachers will be trained in the new READYGEN Literacy program. 2. Collaborative Teams will examine data that involves student performance and progress. Teams will gather and analyze a range of data including summative and formative assessments (e.g. State assessments, periodic assessments, performance tasks, student work,etc.) in order to determine and monitor the progress of the ReadyGen Program. Teams will establish and sustain a transparent and collaborative system for measuring progress toward interim goals and will make adjustments periodically throughout the year. 3. Data will consistently be gathered through teacher team meetings and assessments. The data will then be interpreted for meaning through analysis and discussion. A plan of action will then be implemented, reflected upon and redefined. Through the use of the Common Core standards, teachers will begin to look at the larger goal, grade-specific goals and earlier grade-level goals to understand what pathways will allow a student to eventually produce grade appropriate work. By doing so, teachers will see what a student can do and adapt their teaching to meet the needs of their students, supporting differentiated and adaptive instruction. Collaborative Planning sessions will include discussion over data, establishing trends and patterns among the grade and school-wide, researching possible strategies, interventions, resources and implementation 	
B. Key personnel and other resources used to implement each strategy/activity	

1. Grade Level leaders per grade will be the Core members of our implementation team for ReadyGen.
2. Literacy Specialist will provide support to teachers and administration.
3. Data Specialist will review assessments and students work to identify trends and areas of focus
C. Identify targets to evaluate the progress, effectiveness, and impact of each strategy/activity
1. The Teams will also identify and communicate effective methods of improvements through ARIS as a forum of pedagogical knowledge and practice, therefore strengthening instruction. For the 2013-2014 school year, we will establish teams that will meet weekly and monthly to help implement, inform and further develop instructional program reforms.
2. Teachers will ensure that unit and lesson plans are appropriately aligned to the CCLS curriculum and introduce complex materials that stimulate higher-order thinking and develop knowledge around specific content. Teacher teams will develop lessons that are rigorous with higher order questions in instruction as well as inquiry based learning opportunities.
3. Support teachers to develop and nurture their instructional expertise during regularly scheduled meetings with targeted agendas based on student and grade data to ensure that all unit plans across their grade subjects are appropriately aligned to the CCLS curriculum and students' needs. Provide weekly professional development and team meetings, to conduct data cycles and plan differentiated supports for students.
D. Timeline for implementation and completion including start and end dates
6. The start date will be October 2013
7. February Mid year assessments
8. June- End of Year Assessments
E. Describe programmatic details and resources that will be used to support each instructional strategy/activity
1. Scheduling provides the structure that encourages teacher collaboration through a common flow of the day that supports professional development (inter-visitation, lunch-n-learn sessions).
2. All teachers will be given time to work with the collaborative teams weekly.
3. No costs involved
4. Supervisor Per Session
5. Teacher Per Diem

Budget and Resource Alignment

Indicate using an "X" the fund source(s) that your school is using to support the instructional goal.										
X	PF Set Aside		Tax Levy		Title IA		Title IIA	X	Title III	Grants
List any additional fund sources your school is using to support the instructional goal below.

	PF Positive Behavioral Management Programs		X	PF RTI			PF Supporting Great Teachers & Leaders			

Goal and Action Plan #3 Teacher Practices and Decisions (Tenet 4)

Use this template to identify an annual goal. Respond to each section to indicate strategies and activities in support of accomplishing this goal.

Major Recommendation

Cite the Major Recommendation in the space below from your latest intervention (DTSDE Review, QR, or Alt DQR) which will form the basis of your needs assessment. Include the review type, year, page number, and HEDI rating ("H" = Highly effective, "E" = Effective, "D" = Developing, "I" = Ineffective, "NA" = Not Applicable).									
Strengthen teacher practice so that across classrooms students are engaged in high levels of discussions and appropriately challenging tasks.									
Review Type:	QR	Year:	2012-13	Page Number:	5	HEDI Rating:	D		

Tenet 4: Teacher Practices and Decisions

Indicate using an "X" the Standard(s) of Practice (SOP) that aligns to the recommendation from above. The SOP selected should align to the goal and inform the development of the activities selected to address the goal.									
X	4.2 Instructional practices and strategies	X	4.3 Comprehensive plans for teaching						
	4.4 Classroom environment and culture	X	4.5 Use of data, instructional practices and student learning						

Annual Goal #3

Describe the identified goal for the year based on the recommendation, tenet, and SOP(s) selected. Refer to the directions and guidance for assistance in developing your goals.									
--	--	--	--	--	--	--	--	--	--

By June of 2014, improve assessment practices across classrooms and grades so that adjustments to instruction are timely and provide students with effective feedback in order to accelerate learning. (2.2)

Instructional Strategies/Activities

Describe the research-based school wide reform instructional strategies and activities that will be used to achieve this goal in part A. Enumerate each strategy/activity and its corresponding subsection in parts B, C, D, and E. Include the corresponding SOP(s) for each strategy/activity enumerated in part A. For each strategy/activity identified in part A, a corresponding item must be provided in parts B, C, D, and E.

A. Strategies/activities that encompass the needs of identified subgroups

- All students will submit a performance task in literacy. Each task will be scored using a 1-4 rubric. Each assessment will be annotated with comments explaining student’s strength and needs with a clear understanding for the learner. After administering benchmark assessments, teachers will determine targets to measure exemplary progress on the final performance tasks.**
- In addition, 100% of students will submit a performance task in Mathematics. Each task will be scored using a 1-4 rubric. Each assessment will be annotated with comments explaining student’s strengths and needs. After administering benchmark assessments, teachers will determine targets to measure exemplary progress on the final performance task.**

B. Key personnel and other resources used to implement each strategy/activity

- Literacy Support Specialist- Working with teachers on a Continuous Weekly basis to develop and modify assessments based on Performance tasks**
- Literacy Consultant**

C. Identify targets to evaluate the progress, effectiveness, and impact of each strategy/activity

- Beginning of the year screening tests will help determine what scaffolds are needed. Performance indicators utilizing Behaviors of Understanding will be the core of daily, actionable, formative assessments.**
- Units and end-of year interim and summative assessments assess close reading comprehension, writing to texts, vocabulary, and foundational skills. Performance tasks for every unit module will involve writing, speaking, and listening requiring students to draw from unit text sets to demonstrate their knowledge of core understandings.**

D. Timeline for implementation and completion including start and end dates

- September/October –Teacher teams will focus on Performance Based Assessments that are embedded in well crafted instructional units with appropriate supports. Nov./Dec.-Teachers teams will administer benchmark formative assessments to gather data around students’ strengths and needs. Teachers will continue to develop units of study to support final performance assessments.**
- Jan./Feb.- Teachers will fully develop units based on targeted Common Core Standards and the needs established from the formative assessments. March/April- Teacher teams will teach units and administer Performance Based Assessments. All assessments will be scored by teachers using 1-4 rubric and annotated with comments to identify areas in needs of improvement.**

E. Describe programmatic details and resources that will be used to support each instructional strategy/activity

- Teachers will be provided with resources that are offered through the ReadyGen curriculum and math support through the Envisions Math curriculum.**
- Additional planning time will be incorporated into the schedule**

Budget and Resource Alignment

Indicate using an “X” the fund source(s) that your school is using to support the instructional goal.

X	PF Set Aside	X	Tax Levy		Title IA		Title IIA		Title III		Grants
----------	---------------------	----------	-----------------	--	-----------------	--	------------------	--	------------------	--	---------------

List any additional fund sources your school is using to support the instructional goal below.

Indicate using an “X” the P&F activity categories from the P&F program dropdown in Galaxy used to support the activities listed in part A.

X	PF AIS		PF CTE		PF College & Career Readiness	X	PF Common Core
	PF ELT	X	PF Inquiry Teams	X	PF NYS Standards and Assessments		PF Parent Engagement
	PF Positive Behavioral Management Programs				PF RTI	X	PF Supporting Great Teachers & Leaders

Goal and Action Plan #4 Student Social and Emotional Developmental Health (Tenet 5)

Use this template to identify an annual goal. Respond to each section to indicate strategies and activities in support of accomplishing this goal.

Major Recommendation

Cite the Major Recommendation in the space below from your latest intervention (DTSDE Review, QR, or Alt DQR) which will form the basis of your needs assessment. Include the review type, year, page number, and HEDI rating (“H” = Highly effective, “E” = Effective, “D” = Developing, “I” = Ineffective, “NA” = Not Applicable).

The school’s investment in Positive Behavior Intervention Systems (PBIS) ensures students are honored and celebrated for academic and personal

behaviors that support self regulation and learning.

Review Type: QR 2013	Year: 2013	Page Number: 4	HEDI Rating: D
-----------------------------	-------------------	-----------------------	-----------------------

Tenet 5: Student Social and Emotional Developmental Health

Indicate using an "X" the Standard(s) of Practice (SOP) that aligns to the recommendation from above. The SOP selected should align to the goal and inform the development of the activities selected to address the goal.

X	5.2 Systems and partnerships	X	5.3 Vision for social and emotional developmental health
X	5.4 Safety		5.5 Use of data and student needs

Annual Goal #4

Describe the identified goal for the year based on the recommendation, tenet, and SOP(s) selected. Refer to the directions and guidance for assistance in developing your goals.

- **By December of 2013, the school will increase the number of collaborations with community based organizations to provide parental support, mental health, health care, fund raising and after school programming for students and summer camps. Through collaborative efforts with the various community based organizations, we will increase parental involvement.**
- **By June 2014 all students in grades K-5, through our arts program will participate in ten assemblies that are designed to build community among students, grow student self-esteem, and showcase the individual talents/abilities of students.**
- **By June of 2014, our average monthly attendance will increase by 5%.**
- **By June 2014, our school wide suspensions will decrease by 25%.**

Instructional Strategies/Activities

Describe the research-based school wide reform instructional strategies and activities that will be used to achieve this goal in part A. Enumerate each strategy/activity and its corresponding subsection in parts B, C, D, and E. Include the corresponding SOP(s) for each strategy/activity enumerated in part A. For each strategy/activity identified in part A, a corresponding item must be provided in parts B, C, D, and E.

A. Strategies/activities that encompass the needs of identified subgroups

- 1. Through consultants from the Ramapo For Children organization, teachers will receive professional development in the area of positive student engagement. Ramapo Training is structured, practical, and valuable for seasoned practitioners as well as those new to the field. The professional development sessions introduce educators to the Ramapo approach and provide tools and techniques for building teacher capacity in the areas of classroom and behavior management. Individualized Coaching sessions will be offered to teachers based on a needs assessment. Coaching is an integral part of the Ramapo Training program that helps teachers with their particular classroom and behavior management challenges. Ongoing coaching provides individuals and small groups of school staff with specific problem-solving techniques, objective feedback, and an opportunity to reflect on their current practice. Realizing the impact of peer pressure on students, it is important that teachers are trained in the most effective methods of building cohesive and collaborative classrooms. Additionally, we will continue to implement (year 2) our PBIS program and support our students with a positive and preventive approach to social/emotional issues.**
- 2. Across disciplines teachers will collaborate in the development of monthly assembly programs that show case grade level accomplishments and provide students a forum to demonstrate their talents. Classroom, grade level and school wide attendance rewards will be distributed on a monthly basis. Classroom teachers will be informed on a daily basis of their class attendance percentage. Attendance graphs will be placed outside each classroom, informing students of their class attendance percentage. Students will participate in healthy exercise assemblies, which will focus on taking responsibility, planning and being a good student. Our parent coordinator and school base support team will facilitate workshops with parents to understand their challenges and to offer support to improve their child's attendance. Our guidance counselor and school base support team members will be assigned students that have demonstrated the need for emotional support. School administrators and teachers will meet daily to proactively discuss behavioral concerns. The parent coordinator will conduct parent workshops on topics such as: building strong families, constructive habits, productive television programs, after school supervision, childcare and pro social skills. In collaboration with our parents, community outreach initiatives will take place on a monthly basis. Focusing on the need for parent support services, counseling, health care and academic tutoring, and various communities based organizations will be contacted and invited to meet with school personnel. Parent training will be provided on the use of the ARIS parent link**

B. Key personnel and other resources used to implement each strategy/activity

1. Guidance Counselor will be the PBIS coordinator and point person
2. Assistant Principals will ensure proper implementation of PBIS
C. Identify targets to evaluate the progress, effectiveness, and impact of each strategy/activity
1. By the end of the 2013-14 school year, school leaders and teachers will see the positive results of the PBIS program
2. Students' disruptive behaviors will decrease significantly monthly
D. Timeline for implementation and completion including start and end dates
1. Every Month
2. June of 2014
E. Describe programmatic details and resources that will be used to support each instructional strategy/activity
1. OTPS budget categories selected above that will support the coordination and integration of Federal, State and local services, including programs supported under NCLB (i.e., services for Students in Temporary Housing (STH) violence prevention programs, nutrition programs, housing programs, Head Start).
2. Fiscal and human resources are coordinated with the instructional strategies/activities to achieve this goal, and will support the coordination and integration of Federal, State and local services, including programs supported under NCLB (i.e., services for Students in Temporary Housing (STH) violence prevention programs, nutrition programs, housing programs, Head Start).

Goal and Action Plan #5 Family and Community Engagement (Tenet 6)

Use this template to identify an annual goal. Respond to each section to indicate strategies and activities in support of accomplishing this goal.

Major Recommendation

Cite the Major Recommendation in the space below from your latest intervention (DTSDE Review, QR, or Alt DQR) which will form the basis of your needs assessment. Include the review type, year, page number, and HEDI rating ("H" = Highly effective, "E" = Effective, "D" = Developing, "I" = Ineffective, "NA" = Not Applicable).
Extend the communication and collaboration with parents to increase their capacity to engage in school decision making and use educational tools in order to assist in their child's learning.

Review Type: SQR	Year: 13	Page Number: 6	HEDI Rating: D
-------------------------	-----------------	-----------------------	-----------------------

Tenet 6: Family and Community Engagement

Indicate using an "X" the Standard(s) of Practice (SOP) that aligns to the recommendation from above. The SOP selected should align to the goal and inform the development of the activities selected to address the goal.			
X	6.2 Welcoming environment	X	6.3 Reciprocal communication
X	6.4 Partnerships and responsibilities		6.5 Use of data and families

Annual Goal #5

Describe the identified goal for the year based on the recommendation, tenet, and SOP(s) selected. Refer to the directions and guidance for assistance in developing your goals.
To increase the number of parent involvement by 15 % for the 2013-14 school year as evidenced by an increase in parent teacher conference, workshops, and special events.

Strategies to Increase Parental Involvement and Engagement

Include the corresponding SOP(s) for each strategy/activity enumerated in part A. For each strategy/activity identified in part A, a corresponding item must be provided in parts B, C, D, and E. Title I schools should reference these activities in your school's Title I Parent Involvement Policy (PIP).
A. Strategies/activities that encompass the needs of identified subgroups

1. Parents and families of students in the P.S. 306 will be provided with opportunities to participate in school-based planning committees, and in the School Leadership Team. Parent education activities that relate to building strong home/school partnerships, family literacy, child development and accessing the services of community resources will also be available.

2. Offer-parent training workshops/meetings related to:

3. Eligibility criteria for entrance into various programs (e.g. bilingual programs);
4. Educational structure and terminology;
5. Rules and regulations regarding budget expenditures
6. Parenting skills;
7. Math, literacy, Home School Partnership , Health Education
8. Introduction to Microsoft Word, Excel, PowerPoint, and the use of the internet
9. Summer camp listings and assistance
10. Resume and cover letter development
11. Medical/health related resources in the community
12. Adult and Continuing Education program (ESL and Basic Education)

3. Encourage parental involvement in our school by:

- a. Establishing a school level Parent Advisory Committee;-Title I
- b. Federal Grant Opportunity- Cook Shop (Teaching Healthy Eating Habits)
- c. Conducting outreach activities and training parents, especially new parents and non-English-speaking parents;
- d. Training administrators and teachers in strategies that enhance meaningful parent involvement;
- e. Holding orientation meetings to present the overall goals of our school, as well as specific grade/class goals;
- f. Encouraging and training parents to volunteer and assist in classrooms, in libraries and on trips;
- g. Distributing notices in the languages spoken by the parents.

•

4. Parents and families of students at P.S. 306 will be provided with opportunities to participate in the Parents' Association, the School Leadership Team, parent education activities that relate to building strong home/school partnerships, family literacy, family math, workshops which promote an understanding of performance standards and the new promotional criteria, the parent volunteer program, and accessing the services of community resources.

B. Key personnel and other resources used to implement each strategy/activity

1. Parent Coordinator will organize these events and events
2. Guidance counselor will provide ongoing workshops on Parent skills
3. PTA President will assist and coordinate Parent informational meetings
4. School Leadership team will be used to share ideas and strategies around parental involvement.

C. Identify targets to evaluate the progress, effectiveness, and impact of each strategy/activity

1. Sept- Feb- Parent conferences, workshops

<ol style="list-style-type: none"> 2. Mid-year monitoring of increase or decrease in parent involvement 3. Parent surveys will be conducted monthly to monitor parents' feedback 4. June Of 2014 Parent Survey
D. Timeline for implementation and completion including start and end dates
<ol style="list-style-type: none"> 1. Sept- June 2014 2. Every month 3. Mid February 4. June 2014
E. Describe programmatic details and resources that will be used to support each instructional strategy/activity
<ol style="list-style-type: none"> 1. No costs 2. Per session rate for Staff that attends and facilitate workshops 3. No costs 4. Non Contractual funds

Academic Intervention Services (AIS)

Schools need to maintain accurate records of students who are receiving Academic Intervention Services to ensure that students who are not at proficiency receive effective and timely assistance. These records need to be made available upon request and indicate the total number of students receiving AIS in each subject area listed below and for each applicable grade in your school.

Description

Type of Academic Intervention Service (AIS)	Type of Program or strategy (e.g. repeated readings, interactive writings, etc.)	Method for delivery of service (e.g. small group, one-to-one, tutoring, etc.)	When the service is provided (e.g. during the school day, before or after school, etc.)
ELA	INTERVENTION BY DESIGN RTI	Differentiated instruction will take place in every classroom through Tier I interventions and small group instruction. Through frequent content assessments, AIS meetings, and data analysis of student performance students will be placed in Tier II & III intervention. Students who are not benefiting from Tier I interventions will be referred to participate in the Intervention By Design program with close monitoring. Additionally those students will participate in the Young Scholars After School program.	<p>During the Day</p> <p>Before School</p> <p>After School</p>
Mathematics	ENVISIONS	For Math AIS we will be using the Math Diagnosis and Intervention System that accompanies Pearson's <i>enVisionMath</i> Program. This 4 step system is built around Assessment, Diagnosis, Intervention, and Monitoring. There is an entry level assessment that is used to diagnose the areas of need students have. Students are then grouped according to similar needs. The materials provided in the program run parallel to the <i>enVisionMath</i>	<p>During the Day</p> <p>Before School</p> <p>After School</p>
Science	Harcourt Science Program	In addition to the state mandated periods of science instruction, we have two Science cluster teachers who service students in grades K to 5. The classroom teachers also integrate Science into the literacy block via the use of Science related books and materials.	<p>During the Day</p> <p>Before School</p> <p>After School</p>
Social Studies	Harcourt Social Studies Program	In addition to the state mandated periods of Social Studies instruction, we have two Social Studies cluster teachers who service students in	<p>During the Day</p> <p>Before School</p>

		<p>grades K to 5. The classroom teachers also integrate Social Studies into the literacy block via the use of Science related books and materials.</p>	<p>After School</p>
<p><i>At-risk services (e.g. provided by the Guidance Counselor, School Psychologist, Social Worker, etc.)</i></p>	<p>PBIS At Risk Counseling Mandated Counseling</p>	<p>Individual counseling for students in crisis to address emotional issues. This service is scheduled during the school day. Small group or individual counseling to address the social and emotional needs of at risk students. This service is scheduled during the school day. Crisis intervention, individual, small group and family counseling to address behavioral, emotional and social issues. This service is scheduled during the school day and after school, including evenings</p>	

**Title I Information Page (TIP)
For School Receiving Title I Funding**

4. All elements of the *All Title I Schools* section must be completed*.
4. School Wide Program (SWP) schools must also complete the *SWP Schools Only* section.
5. Targeted Assistance (TA) Schools must also complete the *TA Schools Only* section

*If a required component is addressed elsewhere in this plan, you may refer to the page number(s) where the response can be found.

Title I Status

Indicate with an "X" your school's Title I Status.			
X	School Wide Program (SWP)		Targeted Assistance (TA) Schools
			Non-Title I

All Title I Schools

Highly Qualified Teachers (HQT)

Describe the strategies and activities including strategies for recruitment, retention, assignments, and support including high quality professional development that ensures staff is highly qualified.

All staff members will receive professional development that is targeted and specific to their license area. New Teachers will be paired with a Mentor and will be supported by the New Teachers organization. I will continue to build capacity from among my staff and train teachers for leadership positions. Our administrative team will further support teacher leaders by selecting at least one teacher per grade to participate in the 2013-14 Teacher Leadership Program (TLP). The Teacher leadership program is designed to build the capacity of teacher leaders in order to promote distributive leadership and improve student outcomes. Additionally, TLP is working with teacher leaders to ensure that the work of teacher teams is aligned to Quality Review indicator 4.2. TLP is training teacher leaders to facilitate and support their colleagues in teams to engage in learning with texts, look at teacher and student work in order to assess its alignment to the Common Core Learning Standards, visit colleagues' classrooms to give actionable feedback using the targeted competencies in Danielson's *Framework for Teaching*, and create professional learning communities focused on increasing student achievement. Teacher leaders will facilitate learning opportunities with their colleagues in three ways:

- **Logistics:** Teacher leaders will be implementing the logistical strategies they are learning in the program to develop a long term plan to work with their teams as well as understand how to plan agendas for and facilitate weekly team meetings.
- **Learning:** With their teams, teacher leaders will develop a vision for the work they will do together and tracking the progress of the team.
- **Longevity:** Teacher leaders will help their colleagues identify how the inquiry work of the team is related to school goals and broader DOE initiatives such as the citywide instructional expectations and special education reform (A Shared Path to Success).

High Quality and Ongoing Professional Development

Describe the strategies and activities for high quality professional development for teachers, principals, and paraprofessionals, and staff that enable all students to meet Common Core State Standards (CCSS).

Professional Development will be an essential component to support teachers understanding and extend best practices in all areas of instruction to bring students to grade level performance. Teachers will receive training and support from various school leaders including the Data Specialist, Instructional Support Specialists, Lead Teachers, peer teachers, Network Specialist and the Department of Education on effective instructional strategies, interventions and differentiation. As written in our School Wide Professional Development Plan, each teacher will be provided with internal or external learning experiences based on their needs. The Instructional Team will monitor compliance standards and revise the systems as needed. A major initiative for the 2013-2014 school year will be our work to support and improve instruction in Reading, Writing and Math. Staff developers will work with our Administrators and Teaching staff to ensure that our instructional model supports effective strategies which includes measureable timelines, established goals, and identified resources to supports students.

Teachers will be involved in a sequence of professional development throughout the year that provides multilayered support to teachers; involving demonstration of teaching, in-class coaching, assessment support, and study-groups on lifting the level of instruction on particular units of study or on supporting students with particular needs. Professional development opportunities will encourage teachers to continuously evaluate and revise their classroom practices to improve student outcomes.

The Charlotte Danielson Framework will be used as the foundation for professional conversations among practitioners of the school's mentoring, coaching, professional development, and teacher evaluation processes. The Charlotte Danielson Framework will be used as an observational tool to enable administrators to provide consistent feedback to staff on order to improve the quality of instruction. Teachers will be supported in the use of a variety of instructional strategies, including the use of technology to encourage students' development of critical thinking, problem solving and performance skills.

Teachers will be provided with differentiated support on specific developmental, pedagogical, and content knowledge needs (including mentoring, teacher learning, coaching, and targeted professional development opportunities) with special attention to new teachers and teachers who are new to an in/out of classroom position in the school.

All teachers working with our ELL population will receive professional development specific to meeting the needs of our ELL population, including the use of NYSESLAT data to differentiate strategies to meet the needs of students and in the use of effective ESL strategies. This will be provided by our participation with the NYSEIB grant with CUNY.

Coordination and Integration of Federal, State, and Local Services and Programs

Describe how the coordination and integration of Federal, State, and/or local funds are used to meet ***the intent and purpose*** programs whose funds are consolidated (i.e., services for Students in Temporary Housing (STH), violence prevention programs, housing programs, Head Start, etc.).

Funds will be utilized to address the needs of our students based on current data and data trends. The SLT will determine which funds should be utilized with a close monitoring of progress.

SWP Schools Only

Transition Plans to Assist Preschool Children (Elementary Schools Only)

Describe the transition plans used to assist preschool children from early childhood programs to the elementary school program (e.g. aligned curriculum, joint PD & parent involvement activities, sharing of records/info, early intervention services, etc.).

The PreSchool programs in the area will be provided with a Spring Orientation for upcoming students and families. At this orientation, they will get the opportunity to learn about the Kindergarten curriculum and expectations. The Parent Coordinator along with the Assistant Principal in Kindergarten/1st grade will collaborate an ongoing partnership through the year to ensure a seamless transition for students from Preschool to Kindergarten.

Measures to Include Teachers in Decisions Regarding Assessments

Describe the decision making process that teachers participate in regarding the use and selection of appropriate multiple assessment measures and the professional development provided regarding the use of assessment results to improve instruction.

The Principal will meet with the Grade Level leaders, Literacy Support Specialist, Math Support Specialist, ESL Coordinator, and Special Education Coordinator on a bi-weekly basis to survey the needs of our student population and to determine which assessment tools to use for each Unit of Study.

TA Schools Only

Use of Program Resources

Describe how the TA program resources will assist participating children to meet proficiency.

TA Coordination with the Regular Program

Describe the planning, coordination and support of the TA program with the regular educational program (i.e., providing ELT, accelerated, high-quality curriculum, including applied learning; and minimize removing children from the regular classroom during regular school day).

**Directions and Guidance for Developing and Updating the
Parent Involvement Policy (PIP) (Required for Title I Schools ONLY)**

The template below meets the parental involvement requirements of Title I. Your school is encouraged to use the template below to update your school's current policy or replace it entirely with a Parent Involvement Policy created by your school that meets federal requirements. The activities and/or strategies included in your school's policy should align with current CEP goals for improving student achievement.

The PIP should describe how your school will plan and implement effective parent involvement activities and/or strategies to improve student academic achievement and school performance. The School-Parent Compact is a component of the PIP that outlines how parents, the entire school staff, and students will share this responsibility. Schools are encouraged to include feedback from the Parent Coordinator when updating the policy. In addition, if your school community will be engaged this year in central parent involvement initiatives, such as Parent Academy, which will provide training for school communities to help strengthen family-school partnerships, please be sure to include these activities in your policy.

Parent Involvement Policy (PIP) Template

Educational research shows a positive correlation between effective parental involvement and student achievement. The overall aim of this policy is to develop a parent involvement program that will ensure effective involvement of parents and community in our school. Therefore, our school, in compliance with the Section 1118 of Title I, Part A of the No Child Left Behind (NCLB) Act, is responsible for creating and implementing a parent involvement policy to strengthen the connection and support of student achievement between our school and the families. Our school's policy is designed to keep parents informed by actively involving them in planning and decision-making in support of the education of their children. Parents are encouraged to actively participate on the School Leadership Team, Parent Association, and Title I Parent Committee as trained volunteers and welcomed members of our school community. Our school will support parents and families of Title I students by:

- providing materials and training to help parents work with their children to improve their achievement level, e.g., literacy, math and use of technology;
- providing parents with the information and training needed to effectively become involved in planning and decision making in support of the education of their children;
- fostering a caring and effective home-school partnership to ensure that parents can effectively support and monitor their child's progress;
- providing assistance to parents in understanding City, State and Federal standards and assessments;
- sharing information about school and parent related programs, meetings and other activities in a format, and in languages that parents can understand;
- providing professional development opportunities for school staff with the assistance of parents to improve outreach, communication skills and cultural competency in order to build stronger ties between parents and other members of our school community;

Our school's Parent Involvement Policy was designed based upon a careful assessment of the needs of all parents/guardians, including parents/guardians of English Language Learners and students with disabilities. Our school community will conduct an annual evaluation of the content and effectiveness of this parent involvement policy with Title I parents to improve the academic quality of our school. The findings of the evaluation through school surveys and feedback forms will be used to design strategies to more effectively meet the needs of parents, and enhance the school's Title I program. This information will be maintained by the school.

In developing the Title I Parent Involvement Policy, parents of Title I participating students, parent members of the school's Parent Association (or Parent-Teacher Association), as well as parent members of the School Leadership Team, were consulted on the

proposed Title I Parent Involvement Policy and asked to survey their members for additional input. To increase and improve parent involvement and school quality, our school will:

- actively involve and engage parents in the planning, review and evaluation of the effectiveness of the school's Title I program as outlined in the Comprehensive Educational Plan, including the implementation of the school's Title I Parent Involvement Policy and School-Parent Compact;
- engage parents in discussion and decisions regarding the required Title I set-aside funds, which are allocated directly to schools to promote parent involvement, including family literacy and parenting skills;
- ensure that the Title I funds allocated for parent involvement are utilized to implement activities and strategies as described in our Parent Involvement Policy and the School-Parent Compact;
- support school-level committees that include parents who are members of the School Leadership Team, the Parent Association (or Parent-Teacher Association) and Title I Parent Committee. This includes providing technical support and ongoing professional development, especially in developing leadership skills;
- maintain a Parent Coordinator (or a dedicated staff person) to serve as a liaison between the school and families. The Parent Coordinator or a dedicated staff person will provide parent workshops based on the assessed needs of the parents of children who attend our school and will work to ensure that our school environment is welcoming and inviting to all parents. The Parent Coordinator will also maintain a log of events and activities planned for parents each month and file a report with the central office.;
- conduct parent workshops with topics that may include: parenting skills, understanding educational accountability grade-level curriculum and assessment expectations; literacy, accessing community and support services; and technology training to build parents' capacity to help their children at home;
- provide opportunities for parents to help them understand the accountability system, e.g., NCLB/State accountability system, student proficiency levels, Annual School Report Card, Progress Report, Quality Review Report, Learning Environment Survey Report;
- host the required Annual Title I Parent Meeting on or before December 1st of each school year to advise parents of children participating in the Title I program about the school's Title I funded program(s), their right to be involved in the program and the parent involvement requirements under Title I, Part A, Section 1118 and other applicable sections under the No Child Left Behind Act;
- schedule additional parent meetings, e.g., quarterly meetings, with flexible times, such as meetings in the morning or evening, to share information about the school's educational program and other initiatives of the Chancellor and allow parents to provide suggestions;
- translate all critical school documents and provide interpretation during meetings and events as needed;
- conduct an Annual Title I Parent Fair/Event where all parents are invited to attend formal presentations and workshops that address their student academic skill needs and what parents can do to help;

Our school will further encourage school-level parental involvement by:

- holding an annual Title I Parent Curriculum Conference;
- hosting educational family events/activities during Parent-Teacher Conferences and throughout the school year;
- encouraging meaningful parent participation on School Leadership Teams, Parent Association (or Parent-Teacher Association) and Title I Parent Committee;
- supporting or hosting Family Day events;
- establishing a Parent Resource Center/Area or lending library; instructional materials for parents;
- hosting events to support men asserting leadership in education for their children. parents/guardians, grandparents and foster parents;
- encouraging more parents to become trained school volunteers;
- providing written and verbal progress reports that are periodically given to keep parents informed of their children's progress;
- developing and distributing a school newsletter or web publication designed to keep parents informed about school activities and student progress;
- providing school planners/folders for regular written communication between /teacher and the home in a format, and to the extent practicable in the languages that parents can understand;

SCHOOL-PARENT COMPACT
REQUIRED OF ALL SCHOOLS
MAY BE LAST YEARS BUT MUST BE UPDATED

Our school, in compliance with the Section 1118 of Title I, Part A of the No Child Left Behind (NCLB) Act, is implementing a School-Parent Compact to strengthen the connection and support of student achievement between the school and the families. Staff and parents of students participating in activities and programs funded by Title I, agree that this Compact outlines how parents, the entire school staff and students will share responsibility for improved academic achievement and the means by which a school-parent partnership will be developed to ensure that all children achieve State Standards and Assessments.

I. School Responsibilities

Provide high quality curriculum and instruction consistent with State Standards to enable participating children to meet the State's Standards and Assessments by:

- using academic learning time efficiently;
- respecting cultural, racial and ethnic differences;
- implementing a curriculum aligned to the Common Core State Learning Standards;
- offering high quality instruction in all content areas;
- providing instruction by highly qualified teachers and when this does not occur, notifying parents as required by the No Child Left Behind (NCLB) Act;

Support home-school relationships and improve communication by:

- conducting parent-teacher conferences each semester during which the individual child's achievement will be discussed as well as how this Compact is related;
- convening an Annual Title I Parent Meeting prior to December 1st of each school year for parents of students participating in the Title I program to inform them of the school's Title I status and funded programs and their right to be involved;
- arranging additional meetings at other flexible times, e.g., morning, evening and providing (if necessary and funds are available) transportation or child care for those parents who cannot attend a regular meeting;
- respecting the rights of limited English proficient families to receive translated documents and interpretation services in order to ensure participation in the child's education;
- providing information related to school and parent programs, meetings and other activities is sent to parents of participating children in a format and to the extent practicable in a language that parents can understand;
- involving parents in the planning process to review, evaluate and improve the existing Title I programs, Parent Involvement Policy and this Compact;
- providing parents with timely information regarding performance profiles and individual student assessment results for each child and other pertinent individual school information;
- ensuring that the Parent Involvement Policy and School-Parent Compact are distributed and discussed with parents each year;

Provide parents reasonable access to staff by:

- ensuring that staff will have access to interpretation services in order to effectively communicate with limited English speaking parents;
- notifying parents of the procedures to arrange an appointment with their child's teacher or other school staff member;
- arranging opportunities for parents to receive training to volunteer and participate in their child's class, and to observe classroom activities;
- planning activities for parents during the school year, e.g., Parent-Teacher Conferences;

Provide general support to parents by:

- creating a safe, supportive and effective learning community for students and a welcoming respectful environment for parents and guardians;
- assisting parents in understanding academic achievement standards and assessments and how to monitor their child's progress by providing professional development opportunities (times will be scheduled so that the majority of parents can attend);

**OFFICE OF ENGLISH LANGUAGE LEARNERS
GRADES K-12 LANGUAGE ALLOCATION POLICY
SUBMISSION FORM
2013-14 TO 2014-15 SCHOOL YEARS**

DIRECTIONS: This submission form assists schools with gathering and organizing the quantitative and qualitative information necessary for a well-conceived school-based language allocation policy (LAP) that describes quality ELL programs. This is a two-year plan on how schools will support ELLs' linguistic and academic needs. This LAP form is a part of the school's CEP. Agendas and minutes of LAP meetings should be kept readily available on file in the school. Also, when preparing your school's submission, provide extended responses in the green spaces. Spell-check has been disabled in this file, so consider typing responses to these questions in a separate file before copying them into the submission form. For additional information, hold your cursor over the .

Part I: School ELL Profile

A. School Information

District 10	Borough Bronx	School Number 306
School Name PS 306		

B. Language Allocation Policy Team Composition NOTE: The following staff members should be on the LAP team: principal, assistant principal (where applicable), at least one bilingual teacher from each subject area (where there is a bilingual program), at least one ESL teacher, and one parent.

Principal Darryl Harrington	Assistant Principal John Kickman
Coach Miriam Katz	Coach Martha Canales
ESL Teacher Stephanie Torres	Guidance Counselor Betsaida Bonano
Teacher/Subject Area Brenda Diaz, Bilingual, 3rd	Parent Margaret Johnson
Teacher/Subject Area Ivelisse Perez, 4th /5th	Parent Coordinator Debra Sloan
Related Service Provider Altagracia Jorge, Speech	Other Wanda LLamas, ESL, 2nd Grade
Network Leader(Only if working with the LAP team) type here	Other Melissa Newmark, ESL, 3rd

C. Teacher Qualifications

Please provide a report of all staff members' certifications referred to in this section. Press TAB after each number entered to calculate sums and percentages.

Number of certified ESL teachers currently teaching in the ESL program.	4	Number of certified bilingual teachers <u>not</u> currently teaching in a bilingual program	0	Number of teachers who hold both content area and ESL certification	0
Number of certified bilingual teachers currently teaching in a bilingual program	3	Number of certified NLA/foreign language teachers	0	Number of teachers who hold both a bilingual extension and ESL certification	3
Number of certified ESL teachers <u>not</u> currently teaching in the ESL program	0	Number of teachers currently teaching a self-contained ESL class who hold both a common branch license and ESL certification	1	Number of special education teachers with bilingual extensions	0

D. Student Demographics

Total number of students in school (Excluding Pre-K)	766	Total number of ELLs	135	ELLs as share of total student population (%)	17.62%
--	------------	----------------------	------------	---	---------------

Part II: ELL Demographics

A. ELL Programs

This school serves the following grades (includes ELLs and EPs)
Check all that apply

K 1 2 3 4 5
6 7 8 9 10 11 12

This school offers (check all that apply):

Transitional bilingual education program	Yes <input checked="" type="checkbox"/>	No <input type="checkbox"/>	If yes, indicate language(s): Spanish
Dual language program	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>	If yes, indicate language(s):

Provide the number of classes for each ELL program model at your school. For all-day programs (e.g., Transitional Bilingual Education, Dual Language, and Self-Contained ESL), classes refer to a cohort of students served in a day. For push-in ESL classes, refer to the separate periods in a day in which students are served. Departmentalized schools (e.g., high school) may use the self-contained row.

ELL Program Breakdown														
	K	1	2	3	4	5	6	7	8	9	10	11	12	Total #

After reviewing and analyzing the assessment data, answer the following:

1. Describe what assessment tool your school uses to assess the early literacy skills of your ELLs (e.g., ECLAS-2, EL SOL, Fountas and Pinnell, DRA, TCRWP). What insights do the data provide about your ELLs? How will this data help inform your school's instructional plan? Please provide any quantitative data available to support your response.

Several assessment tools are used to assess the early literacy skills of our ELLs. We use ECLAS-2, DRA in English, and EDL in Spanish to gather data to drive our instruction. In addition, teachers' observations gathered from small group instruction, guided reading, and individual conferences also inform our instructional decisions.

Our school uses some components of the ECLAS, DRA and EDL (Evaluacion del desarrollo de la lectura) to assess the ELLs' literacy development in English and Spanish. We use the ECLAS, to measure the ELLs' letter identification, phonemic awareness and word recognition. The ELLs in the ESL program are administered the ECLAS to assess their early literacy skills. The ELLs in our transitional bilingual program are assessed using either the Estrellita or ECLAS depending on the language of literacy instruction. The DRA and EDL are used to assess the ELLs' reading behaviors in English and Spanish.

All ELLs are assessed mid-year using the DRA to determine whether or not they are meeting the reading benchmarks. Towards the end of the school year, they are again assessed using the ECLAS, DRA, and EDL. The ELLs in first grade are assessed using the DRA and EDL three times a year. Some of them might be assessed more often if they are struggling with learning to read.

The ELLs are assessed using the DRA and EDL three times a year. Some of them might be assessed using Estrellita, a Spanish Reading Program for new entrants. All the other ELLs entering our school are assessed using the DRA and/or EDL to determine their reading abilities to establish a baseline reading level at the beginning of the year. The goal is to determine whether or not the ELL is on grade level in English and/or Spanish reading so that appropriate instruction can be provided. At the end of the school year, all the ELLs are assessed using the DRA and EDL. The majority of the ELLs in the transitional bilingual program are at or above grade level in reading in Spanish. In English, their reading levels will vary depending on their time of entering into the TBE or ESL program.

Overall, the ELLs are at the beginning literacy level when they first enter the school in kindergarten and first grade. As they progress to the second and third grade, they start developing stronger reading skills. The ELLs in the TBE program progress faster in their native language than in English, which is their second language. Based on the early literacy assessment data, 100 % of entering ELLs in kindergarten and 92% of the entering ELLs in first grade are at the beginning literacy level. Most ELLs enter first grade with complete letter recognition and phonemic awareness in their native language. With the English reading levels gathered for the ELLs in the third grade TBE and ESL programs, the data show that their English reading levels are about the same: 95% of ELLs in the bilingual program are at the beginning and intermediate levels and 100% of ELLs in the ESL program are at the beginning and intermediate levels. It seems that in this grade the ELLs in the ESL program read at a little higher level than those in the bilingual program.

The data seem to confirm the current research that a solid L1 leads to a stronger L2 and that reading skills can be transferred from the first language to the second language. Our school builds our ELLs' native language proficiency as much as we can so that the acquired literacy skills of the native language can be transferred to the acquisition of the second language, i.e., English.

2. What is revealed by the data patterns across proficiency levels (on the LAB-R and NYSESLAT) and grades?

Overall, ELLs of lower grades, Kindergarten and grade 1 are mostly at the beginning levels: in kindergarten 70% of all new admits scored at the beginning level and 30% scored at the advanced level. In grade 1, 50% of the students are at the beginning level and 50% are at the intermediate and advanced levels. In grade 2, only 8% of the students are at the beginning level and 92% are at the intermediate and advanced levels. ELLs in grade 3, 16% of the students are at the beginning level and 84% scored at the intermediate and advanced levels. In the fifth grade, ELLs 34% are at the beginning level and 66% are at the intermediate and advanced levels. Our ELL population proficiency levels are as follow: 30% are at the beginning level, 27% are the intermediate level and 43% are at the advanced level.

3. How will patterns across NYSESLAT modalities—reading/writing and listening/speaking—affect instructional decisions? How does your school use information about Annual Measurable Achievement Objectives? What does the data reveal? (see [SED memo](#) and [AMAO tool](#))

As of November 15, the RNMR has not been updated with the information necessary to address this question.

4. For each program, answer the following:
 - a. What are the patterns across proficiencies and grades? How are ELLs faring in tests taken in English as compared to the native language?
 - b. Describe how the school leadership and teachers are using the results of the ELL Periodic Assessments.

c. What is the school learning about ELLs from the Periodic Assessments? How is the native language used?

Transitional Bilingual Education (TBE) Program

Overall, the ELLs' English proficiency levels seem to have to do with the extent of exposure to the English language when the students first enrolled in our school. If the language spoken at home is exclusively one other than English, the student tend to be at the beginning level of English proficiency. In other cases, there are varying proficient levels of English due to the prior language environments.

In K and Grade 1 the ELLs cluster around the beginning and intermediate levels in the NYSESLAT: 70% in K and 50% in Grade 1.

Data for the comparison between English LABR and Spanish LAB assessments are available for newly enrolled students. For the newcomer ELLs, the comparison between Spanish LAB and English LABR scores shows that most ELLs are at the beginning level in English. In their native language, Spanish, 60% of ELLs in kindergarten are at the beginning level, 40% are at the intermediate level, and at the advanced or proficient level. In Grade 1, the ELLs are mostly at the intermediate level in English as well as in Spanish. In second grade, the ELLs are at a lower level in Spanish than in English, only 8% of the ELLs are at the beginning level in English, and 92% of the ELLs are at either advanced or intermediate. 4% of these second graders are at the proficient level in Spanish. New admits in grades 3,4, 5, are at the beginning level in English, and 37% are at the intermediate in Spanish. Overall, ELLs of lower grades, Kindergarten and grade 1 are mostly at the beginning levels: in kindergarten 70% of all new admits scored at the beginning level and 30% scored at the advanced level. In grade 1, 50% of the students are at the beginning level and 50% are at the intermediate and advanced levels. In grade 2, only 8% of the students are at the beginning level and 92% are at the intermediate and advanced levels. ELLs in grade 3, 16% of the students are at the beginning level and 84% scored at the intermediate and advanced levels. In the fifth grade, ELLs 34% are at the beginning level and 66% are at the intermediate and advanced levels. Our ELL population proficiency levels are as follow: 30% are at the beginning level, 27% are the intermediate level and 43% are at the advanced level.

Freestanding English as a Second Language (ESL) Programs.

In general, the ELLs in all grades but K in the ESL program have higher proficiency levels in English based on the NYSESLAT than their counterparts in the TBE program. Grade 1, 50% in Grade 2, 92% in Grade 3, 84% in grade 4, 82% in grade 5, 66% cluster at the intermediate and advanced levels.

In addition, the proficiency levels tend to be higher as the grade goes up across the NYSESLAT. The majority of ELLs reach the intermediate and higher levels in the NYSESLAT: 84% in Grade 3, in Grade 4, 83% and in Grade 5, 66%. As mentioned before, the new comers in different grades need more time to achieve a higher level in all modalities. In the 5th grade, the 4 students who are at a beginning level have been in the country less than two years.

On the NYS Math, the majority of ELLs scored at Levels 2. 41% scored at a level 2 and a 15% scored at level 3 and 15% scored a level 4. In the NYS ELA more ELLs scored at Level 1 and 2. In science, 45% of ELLs scored at levels 2 and 3.

4b. The interim assessments were not given to our ELLs during the 2012-13 school year. included three language modalities: listening, writing, and reading. Overall the majority of the ELLs in Grade 4 and up are at the advanced and proficient levels. The patterns above are reflected in the Listening modality. The data show that in Grades 3 and 4 the ELLs are at a higher proficiency level in listening than in writing and reading.

As for the role of the native language, there are variations in the TBE and ESL programs. In a TBE program, the native language is an integral part of instruction. Considering second language acquisition research and our ELL population, we have put into practice the theory that strong L1 will facilitate the acquisition of L2. As ELLs' proficiency levels in English progress in grade one, a higher percentage of English use is applied in instruction. For example, the beginning ELLs are instructed in their native language for 60% of the day, the intermediate ELLs, 50%, and advanced ELLs, 25%. In other words, the beginning ELLs receive 40% of instruction in English per day, the intermediate ELLs, 50%, and the advanced ELLs, 75%.

In the ESL program, the native language is more of a support role. Whenever the use of the native language facilitates learning, it is used through a Spanish dictionary and peer interaction as well as literature in the native language depending on the student levels of language acquisition. One example of native language use in the ESL program is providing new arrivals (0-6 months in our school system) with literature in their native language so they can use their native language to understand and apply the strategies their class is learning in the language they are most proficient in.

5. Describe how your school uses data to guide instruction for ELLs within the Response to Intervention (RtI) framework (for grades K-5). (see [RtI Guide for Teachers of ELLs](#).)

We use data to guide and improve the quality of core instruction and to make sure that our students have quality opportunities to learn and that they are thriving academically. If a student or group of students is having difficulty, we either provide additional support for the teacher Core Instruction with new research-based ideas to improve the delivery of effective instruction or we provide Tier 2 or Tier 3 intervention depending on the number of students showing difficulty by analyzing the data. We also look at other

factors to be addressed like family dynamics, motivation, or health issues to provide appropriate support. Our school uses data to guide instruction for ELLs in many ways. First, teachers look at how many ELLs are struggling in their classes, if the majority of them are showing little progress then teachers focus on improving core instruction. After, we examine achievement at the classroom level, the next step is to gather specific information about the students' classrooms experiences, and their home and community context in order to support their needs. We analyze data through a language acquisition lens to make sure the students needs are not confused with a learning disability. Then, we design and implement targeted supplemental support and we use assessments to monitor the effectiveness of the supports.

6. How do you make sure that a child's second language development is considered in instructional decisions?
Our school analyze informal and formal assessment data in order to determine ELL progress in different content areas as it pertains to English proficiency
7. For dual language programs, answer the following:
 - a. How are the English-proficient students (EPs) assessed in the second (target) language?
 - b. What is the level of language proficiency in the second (target) language for EPs?
 - c. How are EPs performing on State and City Assessments?

Paste response to questions here:

8. Describe how you evaluate the success of your programs for ELLs (e.g. meeting AYP for ELLs, etc.).
We make sure we are using formal and informal assessments throughout the year. At the beginning of the year, we look carefully at result of the NYS performance assessments like the ELA, Math, and NYSESLAT. We use the results to provide us, teachers and administrators, detailed information to plan instruction, staff development, as well as academic intervention instruction and RTI. In addition to NYS and NYC formal assessments, we assess our students regularly using DRA and instructional unit assessments aligned with our curriculum in our subject areas.

Part IV: ELL Identification Process

Describe how you identify English Language Learners (ELLs) in your school. Answer the following:

1. Describe the steps followed for the initial identification of ELLs. These steps must include administering the Home Language Identification Survey (HLIS) which includes the informal oral interview in English and in the native language, and the formal initial assessment. Identify the person(s) responsible, including their qualifications, for conducting the initial screening, administering the HLIS, the LAB-R (if necessary), and the formal initial assessment. (Refer to [ELL Policy Brief](#) and [EPIC](#).)

1. In order to identify English Language Learners in our school, we follow the following steps. During the months of August and September, the ESL/bilingual coordinator, and a licensed ESL teacher, work with the pupil accounting secretary, Reina Melendez during the registration process to complete the intake of potential English language learners. Both teachers are fully certified by the state of New York as teachers of English to speakers of other languages. In addition, one of the teachers is a certified Spanish teacher and the other one is a certified bilingual teacher. Parents of potential ELLs are welcomed into the school by the ESL/bilingual coordinator, the parent coordinator, Debra Sloan and the ESL teacher. The ESL staff sits with the pupil accounting secretary during registration in the first week of school to ensure that no potential ELL is missed. To identify our ELL population, each family completes a Home Language Identification Survey (HLIS) upon registration. The ESL/bilingual coordinator reads the HLIS to determine a home language other than English. To aid the parents in filling out this form correctly only a trained pedagogue conducts an informal interview with the families. Normally, the ESL/bilingual coordinator conducts the interview in Spanish if this is the family's native language. When necessary, the ESL/bilingual coordinator uses the translation and interpretation hotline to communicate with the parents. The child is also interviewed in English and in their native language (when possible) to determine their status as a potential English language learner. Then, students are administered the LAB-R (Language Assessment Battery - Revised) on the spot. The tests are hand-scored and the results are kept on file digitally on the ESL/bilingual coordinator's computer and a hard copy is kept on file in the "Services for Pupils with Limited English Proficiency" binder in the ESL/bilingual coordinator's office. The Spanish LAB is administered when a student whose home language is Spanish receive a

raw score below the cut score on the LAB-R. This assessment is used to determine literacy in Spanish. Scores on these assessments reveal at what level the student's language acquisition is and this information is passed on to the teacher. He/She uses this information to differentiate to the specific needs of the learners.

In addition to the ESL/bilingual coordinator, Martha Canales and the ESL teachers, Stephanie Torres and Brenda Diaz, 3th grade bilingual teacher are trained in how to conduct the interviews, how to help parents complete the HLIS, and how to administer the LAB-R and Spanish LAB. Ms. Diaz is a dually certified teacher, both in ESL and in bilingual education. Also, three additional teachers were trained in the intake and initial testing process, Wanda Pimentel, 2nd grade ESL teacher, and Yvelisse Perez, 4th and 5th grade bilingual teacher. Ms. Llamas is a certified bilingual teacher too. Ms. Perez is dually certified as a teacher of ESL and as a bilingual teacher. Ms. Feliu is a certified ESL teacher. In the event that the ESL/bilingual coordinator is not available or not in the school, the intake and testing process can take place without interruption.

At the time of registration, once a child is determined to be an ELL, parents are offered the option of attending one of the two parent orientation sessions, offered within the first 10 school days of the year or watching the orientation video at the time of registration. The Orientation Video for Parents of English Language Learners is available for viewing on a computer located in the main office. This option will be offered to parents who are unable to attend one of the parent orientations or to those parents who register their children throughout the school year. Parents will sign-in and the ESL/bilingual coordinator will follow the talking points on the agenda. This sign-in sheet is kept on file in the main office. Once the parents watch the video, the ESL/bilingual coordinator explains the research behind the available language acquisition programs. The parents also learn that the language acquisition programs are most effective if they stay in the program until they reach English language proficiency and that a child cannot be changed from one program to another mid-year. All of those changes must be done at the beginning of the school year. Parents then have an opportunity to ask the ESL/bilingual coordinator any questions about the programs available throughout the city. Then, the ESL/Bilingual coordinator works with the parents to make the best program placement for the child. The parent coordinator is present and available to the parents as an advocate. At that time, parents complete the program selection form and the parent survey. If parents are interested in a dual language program, the ESL/bilingual coordinator works with the network and parents to find a nearby school that offers the program of their choice.

For those parents who do not watch the orientation video at the time of registration, an invitation letter is sent home. This letter is translated into Spanish. The parent orientation sessions are held by the ESL staff, Martha Canales, Stephanie Torres and the parent coordinator, Debra Sloan. They are conducted in English and Spanish. For those parents who speak a language other than English or Spanish, the ESL teachers contact the translation and interpretation hotline for an on-the-spot interpretation of the talking points in the meeting. Then, those parents can watch the video in their native language, if it is available. At these meetings, the teachers explain all the programs available to the parents so that they can make an informed decision. Parents watch the program video; the ESL staff explains the research behind the language acquisition programs. They also share the LAB-R test results with the parents and explain what types of English language acquisition programs are available in the city of New York. Although the ESL teachers are available to answer any questions and to offer advice, the parents are the ones who have the final say in their child's placement in an English language acquisition program. Once a decision has been made, parents complete the parent survey and the program selection form. All agendas, sign-in sheets, parent surveys and program selection forms are kept on file in the ESL/bilingual coordinator's office. In addition, a photocopy of the program selection form is made and placed into the child cumulative record. This is all done within the first 10 days of school. During School Year 2013-2014, the parent orientation meetings were held on September 21, 2013. One meeting was held in the morning for those parents dropping off their children and one was held in the early evening to accommodate working parents.

If parents register new students during the school year after the orientation meetings have been held, the pupil accounting secretary reviews the HLIS and informs the ESL/bilingual coordinator if a language other than English is spoken at home. Then, the coordinator and the parent coordinator come to the main office to welcome the new family to the school. The ESL/bilingual coordinator conducts an informal interview with the parents, reviews the choices on the home language survey and makes changes if necessary. She also interviews the child in English and in their native language (whenever possible). The LAB-R is administered on the spot to determine if the child is an ELL. If the child receives a score below the cut score, the parents watch the orientation video to learn more about the available programs after the meeting has been held. Then, the ESL/bilingual coordinator has a one-on-one conference with the parents to determine the most effective placement and to complete the necessary paperwork. Parents complete the survey and the program selection form. As always, the parent has the final say in the choice of

their child's program. If the ESL/bilingual coordinator is not available or out of the building, one of the other teachers in the school who are licensed and trained in the process is called to guide the parent through the selection of a program for their child.

For those parents who may be missed during this extensive intake process, the ESL/bilingual coordinator, the ESL teacher, the family worker, and the parent coordinator, Ms. Sloan, make phone calls to reach out to these families. They ask the parents to come into the school to view the video and to discuss the program placement for their child. If they are unavailable to attend a one-on-one meeting, the parent survey and program selection form is then mailed home, and must be returned as soon as possible.

2. What structures are in place at your school to ensure that parents understand all three program choices (Transitional Bilingual, Dual Language, Freestanding ESL)? Please describe the process, outreach plan, and timelines.

To ensure that parents of ELLS understand all three program choices Transitional Bilingual, Dual Language, and Free Standing ESL,

during the parent meetings, the ESL staff explain the three programs to the parents in parent's home language when is possible. During this time, parents have the opportunity to ask questions about educational programs and services available for their children in the school. They are also provided with with a brochure "A Guide for Parents: Transitional Bilingual Education Programs, Dual Language Programs, and English as a second Language Programs" All the literature is provided in the parent's language if is available. In addition, parents view the Parent Orientation Video for English Language Learners. The video is available in different languages such as Bengali, Urdu, Russia and Spanish. If a parent's home language is other than what is available in the brochures and videos there is usually a parent interpreter present for assistance whenever is possible or the ESL staff contact the translation and interpretation hot-line.

3. Describe how your school ensures that entitlement letters are distributed and Parent Survey and Program Selection forms are returned, and secured/stored. (If a form is not returned, the default program for ELLs is Transitional Bilingual Education as per CR Part 154 [\[see tool kit\]](#).)

Parents of students who are entitled to ESL/ Bilingual services are notified at the beginning of the school to inform them of the services available to their children. Every September, for those students who do not receive a proficient score on the NYSESLAT, continued entitlement letters are sent to parents. The letter tells parents what level their child scored and what program their child is currently in. At the bottom of the form is a slip to sign and return to show that parents approve of the continued placement in the selected program. The signature slips for continued entitlement are kept on file in the ESL/Bilingual coordinator's office. If parents wish to change from one English language acquisition program to another, they call or visit the ESL/Bilingual coordinator to discuss their options. During this meeting, a decision is reached. Parents complete a new program selection form, indicating the new program; the original is kept on file in the ESL/bilingual coordinator's office and a copy is placed in the child's cumulative record. To ensure that all Entitlement Letters, Parent Survey and Program Selection Forms are returned, our school has different steps in place. The ESL staff reaches out to the students to remind their parents to return the signed forms in. If parents do not send them by the second reminder, a duplicate of the form is sent home along with a phone call. The ESL staff or the Parent Coordinator, Debra Sloan, place phone calls to the parents who have not returned these forms to invite them to schedule an appointment at a convenient time for them. In cases where parents cannot be reach, a letter is sent to notify them about dates and time of new meetings. As for the parents of newly enrolled and identified English Language Learners these forms are completed and collected during the different scheduled orientation meetings with them. At these meetings parents are provided with all the information regarding the programs available in the New York City education system. Every effort is made to reach our parents of ELLs to inform them and collect all entitlement letters, Parent Survey and program Selection Forms. If a program selection form is not returned after all these steps are taken place, the student will be place in a default program for ELLs, Transitional Bilingual Program as per CR Part 154.

4. Describe the criteria used and the procedures followed to place identified ELL students in bilingual or ESL instructional programs; description must also include any consultation/communication activities with parents in their native language.

In order to place identified ELL students in a bilingual or ESL program our ESL staff review the Home Language Survey, the LAB-R, and the NYSESLAT scores to make sure the child is eligible for bilingual or ESL services. If the child is eligible for bilingual or ESL services the Bilingual/ESL Coordinator will show the parent the Orientation Video for Parents of English Language Learners in the parent's native language if available. The video informs them about the options available. Then the parent selects his or her program preference and the child is placed based on the parent's choice.

5. Describe the steps taken to administer all sections of the New York State English as a Second Language Achievement Test

(NYSESLAT) to all ELLs each year.

Every spring all ELLs take the NYSESLAT (New York State English as a Second Language Achievement Test) to determine the level of English achievement for that school year. To ensure that all ELLs are administered the exam, the ESL/bilingual coordinator and the ESL teacher run the RLER report from ATS to review the students that are eligible to take the NYSESLAT. The ESL team works with the testing co-coordinator, Miriam Katz, to ensure the security of the test, to uphold appropriate testing procedures and to work out a testing schedule. The Testing Coordinator/ESL coordinator sends the entire staff an email informing teachers of NYSESLAT testing. This email includes lists of students who will be tested along with testing rooms, dates, and times. The Testing Coordinator works with a team of certified teachers to administer all sections of the NYSESLAT during the annual testing window. Certified pedagogues individually test students for the Speaking Section. Students are individually escorted to the library to complete the Speaking section and then escorted back to their classes once they have completed the Speaking section. The Testing Coordinator keeps a list of student who have completed each section and coordinates with ESL and Bilingual teachers to administer sections to students who were absent during the annual make up window. When the results become available in late July of this year, administrators use this information to determine continued entitlement and class placement. At the beginning of the school year, teachers use this information to identify the level of English proficiency to facilitate grouping.

6. After reviewing the Parent Survey and Program Selection forms for the past few years, what is the trend in program choices that parents have requested? (Please provide numbers.) Are the program models offered at your school aligned with parent requests? If no, why not? How will you build alignment between parent choice and program offerings? Describe specific steps underway. 
- According to the Parent Survey and the Parent Selection forms for newly admitted students for the past three years, more parents have chose the Transitional Bilingual Program as their first choice. During registration this year(2013-2014), 50 % of the parents chose a bilingual program typically if their child had recently immigrated to the US within the last year for grades K-5 and the other 50% choose an ESL program. Seven out of thirty parents did not get their choice because there are not sufficient parent requests for a Transitional Bilingual Program in those grades. One parent chose an ESL program for the child in the third grade due to the fact that the family speaks French at home. For the school year of 2011-2012, in 1st grade, one parent chose bilingual, in 2nd grade seven parents chose a bilingual program for their children, in 3rd grade one chose bilingual, in 4th grade two parents chose a bilingual class and in 5th grade three parents chose a bilingual program for their children. As in grades 1 to 5, in kindergarten, most of the parents chose a bilingual program for their children. A total of 19 students were placed in a bilingual program based on parent choice and 4 students were placed in an ESL program. This was a new trend. Over the past three years, approximately half of parents choose an ESL program for their kindergartener and the other half choose a bilingual program. For Spanish-speaking new arrivals in our school, parents choose a Transitional Bilingual Program 100% of the time. For students that score in the intermediate or advanced levels on the NYSESLAT, 4 parents selected Free Standing ESL Program. No parent requested Dual Language Program (0%). The program models we offer are aligned to parent requests and program offerings. For those students whose parents request a program not being offered will be sent to the website Ell Program Transfers @schools.nyc.gov. Our school will also maintain a record of those students whose parents requested bilingual education in the lower grades. If there are 15 or more students with the same home language, and in the same or two contiguous grades, then we will open a bilingual program in those grades.

Part V: ELL Programming

A. Programming and Scheduling Information

1. How is instruction delivered? (see [*The Practitioners' Work Group for Accelerating English Language Learner Student Achievement: Nine Common Features of Successful Programs for ELLs*](#))

- a. What are the organizational models (e.g., departmentalized, push-in [co-teaching], pull-out, collaborative, self-contained)?
- b. What are the program models (e.g., block [class travels together as a group], ungraded [all students regardless of grade are in one class], heterogeneous [mixed proficiency levels], homogeneous [proficiency level is the same in one class])?

Our ELL population is provided with the mandated services mostly through homogeneous grouping based on their English proficiency levels and grades. In most of the bilingual classes, the students are at the beginning and intermediate levels. 28% of the students in the third grade bilingual class are at the advanced level and the other 72% are at the beginning and intermediate levels. The three bilingual classes are formed by grade. As for the ESL pull-out and push-in programs, the grouping is mainly based on the students' English proficiency levels and grades. The Grade 1 group is composed of ELLs at the beginning and intermediate levels. The Grade 2 group is heterogeneous. The Grade 3 group is at the intermediate level. 75% of the grades 4, and 5, groups are mainly at the advanced level. When there are differences in proficiency levels, other groups are formed to make the grouping more homogeneous. For instance, the new comers in Grades 4 and 5 receive the ESL instruction in a small group instruction to meet their unique language needs. Every effort has been made to group students according to their language needs.

2. How does the organization of your staff ensure that the mandated number of instructional minutes is provided according to proficiency levels in each program model (TBE, Dual Language, ESL)?

- a. How are explicit ESL, ELA, and NLA instructional minutes delivered in each program model as per CR Part 154 (see table below)?

In order to ensure that all students receive the mandated instructional minutes from Part 154, all bilingual teachers incorporate ESL, ELA, and NLA into their daily instructional day. ESL, ELA and NLA instructional minutes are integrated throughout the content area instruction over the course of the day. The beginning ELLs receive 360 minutes of ESL per week and 60-90 minutes of NLA per day. The intermediate ELLs receive 360 minutes of ESL and 45-60 minutes of NLA per day. And the advanced ELLs receive 180 minutes of ESL and 180 minutes of ELA per day, and 45 minutes of NLA per day.

The ESL instruction in the pull-out and push-in programs is delivered following the NYS Common Core Standards in ESL. As required by CR Part 154, the beginning and intermediate ELLs receive 360 minutes of ESL per week, and the advanced ELLs receive 180 minutes of ESL per week. The ELA instruction is delivered following the NYS Learning Standards in English Language Arts. As required by CR Part 154, the advanced ELLs in the TBE and ESL programs receive one unit of instruction per week, i.e., 180 minutes of English Language Arts instruction. The ELLs are receiving the required instruction in the content areas: Math, Science, and Social Studies. As required by CR Part 100 and CR Part 154, the ELLs receive one unit of instruction, i.e., 180 minutes, in each of the content areas per week.

Our Freestanding ESL program is a majority push-in model with co-teaching. Nearly all students in the ESL program are grouped into one heterogeneous class on the grade and the ESL teachers work with the classroom teacher to adapt and enrich instruction, creating comprehensible input. Our ESL teacher Martha Canales co-teaches with the classroom teachers Ms. Newmark 301, Bautista 401, and Ms. Hernandez of class 501. In addition, Stephanie Torres provides targeted, small-group instruction for our ELLs in class 01, 012, 013 and, class 104. ESL teachers push into class 104, 301, 401, and 501 for eight 45 periods a week. Ms. Torres pushes into class all the kindergarten classes five 45 minute periods a week, as most the ELLs in the class are at an advanced level. ESL instruction is delivered through a self-contained model in the second grade by ESL certified teacher, Ms. Pimentel. All of the lessons are adapted to plan for language, as well as content instruction.

For our ELL population in self-contained special education classes, ESL instruction is delivered through a combination push-in/pull-out model. Instruction is delivered by ESL certified teachers Martha Canales and Stephanie Torres. Students are grouped in the pull-out program based on their NYSESLAT levels, as well as their language needs. These teachers have a total of four groups, a group of newcomers, a group of first and second grade students who are beginning or intermediate, a group of third through fifth graders who are beginning and intermediate and a group of advanced students in grades three through five.

The classroom teachers and ESL teachers plan together at least three times a month to have continuity during the periods that the ESL teacher pushes in. All instruction is delivered in English; however, students who are transitioning out of a bilingual class or who have literacy in their native language are encouraged to use their native language though writing journals or reading in their native language. All ELL classes have books available in Spanish. During the math period, students who are transitioning out of the bilingual program have the math text book and other materials available for their use in Spanish. Science and Social Studies

are taught through inquiry-based projects in English, and are enriched through hands-on activities, such as science experiments and technology based lessons using interactive white boards. In addition, teachers use realia, modeling with guided practice, graphic organizers and role playing to make content comprehensible for our ELLs. Teachers give students ample time to engage in group work, as ELLs often need to talk about what they will write before putting pen to paper. The ESL teachers help classroom teachers of English language learners to be more thoughtful in their planning. They help them to differentiate their lessons through careful grouping, planning for language and content instruction at the same time, and developing many activities around the same subject. Thematic instruction for ELLs is one of the most effective ways to aid in English language acquisition. When children are exposed to science and social studies in various contexts, learning becomes more fluid and interrelated. "They are reading, writing and thinking about content while building different linguistic skills that help them improve their understanding of academic subject areas. (Garcia, 2008)"

In the bilingual program, bilingual common branch teachers work with a heterogeneous group of students throughout the day. The teacher is constantly grouping and regrouping students to accommodate their various language learning needs. The bilingual teachers are responsible for delivering the required minutes of weekly ESL. In the lower grades, the teacher of the kindergarten ESL class and Wanda Pimentel, teacher of second grade class deliver ESL through the content areas of science and social studies. Instruction is inquiry-based and content is made comprehensible by hands-on activities such as science experiments, the use of visual aids and interactive read alouds, and vocabulary development in context. Essentially, the bilingual teachers use the same techniques that ESL teachers use when planning and delivering content instruction. Teaching the content areas through ESL methodologies provided the bilingual students with a total of 225 minutes of ESL. In addition, the lower grade teachers do a total of 90 minutes of targeted small group ESL instruction and 90 total weekly minutes of writing through ESL. This accounts for over 360 total minutes of ESL per week. In the upper grades, the bilingual teachers, Yvelisse Perez and Brenda Diaz, deliver ESL lessons throughout the day in different subject areas in an attempt to prepare the students for the language demands of the New York State Testing Program. Many of the readings on the New York State English Language Arts exam are non-fiction in the content areas of science and social studies. A total of 90 minutes of weekly ESL are taught through the content areas of science and social studies. In addition, several of the required weekly ESL periods are taught through the reading and writing workshop, a total of 90 minutes in reading and 90 minutes in writing. To make English language arts instruction comprehensible for the ELLs in the bilingual program, the classroom teacher uses various approaches such as extensive modeling with plenty of guided practice before students go into independent practice. Finally, once a week, the bilingual teachers in third through fifth grade teach one 90 minute period of math using ESL methodologies. This is a total of 360 required ESL minutes.

The fourth and fifth grade class is following a 50:50 model. In all bilingual classes, the reading workshop follows an NLA model three times a week. Reading instruction in English is delivered during targeted small group instruction time three times a week. The other three days a week of small group instruction are done in Spanish. The writing workshop is taught in Spanish three times a week and in English twice a week. Math instruction is delivered in Spanish four times a week and once a week in English. Finally, as stated earlier, all science and social studies instruction is done in English using ESL methodologies.

For class 317, the reading and writing workshops are taught in Spanish two times a week and in English three times a week. Math instruction is done primarily in Spanish, as the students will be tested in that language. One 45 period minute a week is done in English. Ms. Perez uses math games in English to reinforce concepts taught during the week in Spanish. Small group instruction is taught according to the students' language needs. Therefore, the schedule indicates that both native language and ESL instruction are going on in during that 45 minute period five times a week. The content areas are taught in both English and Spanish. Science is taught in Spanish one day and in English the next. As social studies is a less hands-on pursuit in the upper grades and has very specific content vocabulary, two days are taught in Spanish and one day is taught in English.

Class 547 is following a 50:50 model, as the majority of the students fall in the intermediate range. 15 total weekly periods are taught in Spanish and 15 periods are taught in English, using ESL methodologies. Reading and writing workshops are taught in Spanish three times a week and in English two times a week. Small group instruction is taught according to the students' language needs. Therefore, like class 317, the schedule indicates that both native language and ESL instruction are going on in during that 45 minute period five times a week. Math is taught in Spanish only three times a week and in English two times a week. This is to prepare students transitioning to middle school, as our community zoned middle school does not currently offer a bilingual program. Science is taught in Spanish one day and in English the next. Social studies is taught as it is in class 317, two days in Spanish and one day in English.

Transitioning to the next language breakdown normally happens in January. Teachers use the DRA results in Spanish and English in all grades, and teachers use the ELA predictive tests in the upper grades, to determine if students are prepared to make the transition to the next language breakdown. This year, we expect the students in classes 317 and 457 to be ready to transition to a 25:75 language breakdown in late January. At the time of the transition, the schedules are revamped and revised.

In addition to the work that the bilingual classroom teachers are doing, Ms. Canales and Ms. Torres also push into the bilingual classes to provide additional ESL support. Ms. Canales does targeted English guided reading instruction in the fourth and fifth grade bilingual class five times a week. Ms. Torres supports the students in the kindergarten class and the first and second grade class with small group ESL instruction.

3. Describe how the content areas are delivered in each program model. Please specify language, and the instructional approaches and methods used to make content comprehensible to foster language development and meet the demands of the Common Core Learning Standards.

Mathematics, science, and social studies are taught according to the workshop model, which is a familiar means of presentation for students. Language and content are naturally scaffolded when presented within this clear structure. Student work time includes small groups and partner ships to foster conversation among peers. Contents in these subjects are presented visually on chalkboards, charts, and SMART Boards. Individual student copies of textbooks and workbooks are also provided (class sets). The Envision Math Program curriculum has a ‘spiraling’ structure that revisits concepts. This supports ELLS-SWDs who may not grasp material as readily as their classmates. Partnership work is also an integral component to the program. Science and social studies lessons focus attention on content-area vocabulary through integration of literacy skills and content. Material is often presented through a shared reading format.

Additional staff has been assigned to teach both science and mathematics, increasing instructional time in both areas. Hands-on science lessons are designed for exploratory work in small-groups and partnerships. Mathematics lessons contain visual, auditory, and kinesthetic components. All lessons have the goal of creating a risk-free environment to foster student learning.

4. How do you ensure that ELLs are appropriately evaluated in their native languages throughout the year?

A variety of assessment tools are in place to evaluate our ELLs in their native language, Spanish. Based on the Home Language Identification Survey, the new admits are administered LABR if they are eligible for testing. The newly identified ELLs are then administered Spanish LAB to determine their language dominance to ensure proper placement in one of the two educational programs for the ELLs.

In Kindergarten, first and second grade, El Sol, the Spanish version of ECLAS, is used to assess the basic literacy skills such as letter recognition, sound correspondence, sight words and so on. Kindergarten students are also assessed using EDL and EDL2, the Spanish version of DRA and DRA2. In all the other grades all ELLs in the bilingual classes are evaluated at three different benchmarks throughout the year (beginning, middle, end) in Spanish through the DRA assessment. These evaluations consist of running records with reading comprehension passages. Third, fourth and fifth grade classes ELLs in the bilingual class also take ELE in the spring of each school year. In addition, they take modified assessments in Spanish, particularly in Mathematics: quizzes, end-of-unit assessments (Invision Math Program) and state exams such as math and science.

5. How do you ensure that ELLs are appropriately evaluated in all four modalities of English acquisition throughout the year?

To ensure ELL students are appropriately evaluated across all four modalities of English acquisition throughout the year, all teachers, ESL and Bilingual included, follow our school's Language Arts and Math curricula completed under the guidance of our consultant from Learner-Centered Initiatives (LCI) and aligned to the Common Core Learning Standards (CCLS). Each unit contains embedded CCLS performance tasks, as well as a summative task. These allow us to continually assess progress and adjust our teaching to meet the needs of our students. To support ELLs in having access to these performance and summative tasks, teachers regularly collaborate during Teacher Team meetings to design lessons where students meaningfully interact with each other and texts to make meaning. Students regularly work in pairs and groups to discuss complex texts, to find and analyze text-based evidence, to create shared writings, and to analyze their own and peers' writing. Structured opportunities for student collaboration ensure our ELLs are actively using all four modalities to develop English proficiency and engage in the tasks embedded in our common units of study. Teachers use listening in during pair and group activities as a formative assessment strategy to evaluate students' progress in all four modalities.

6. How do you differentiate instruction for ELL subgroups?

- a. Describe your instructional plan for SIFE.
- b. Describe your plan for ELLs who have been in US schools less than three years (newcomers)..

- c. Describe your plan for ELLs receiving service 4 to 6 years.
- d. Describe your plan for long-term ELLs (completed 6+ years).
- e. Describe your plan for former ELLs (in years 1 and 2 after testing proficient).

To differentiate instruction for the various subgroups, ESL and classroom teachers use a variety of methods. It is important to note that effective differentiation always begins with assessment and is content area specific. For example, it is possible to have a newcomer who has instructional needs similar to an ELL who has been here for 4-6 years. However, as a whole the various ELL subgroups do tend to have similar needs as they move along in their years of service. Scaffolding is done throughout all subgroups. The ESL teacher aids the classroom teacher in making these lesson adaptations. All ESL lessons include a language and content objective. ESL and bilingual classroom teachers work together to develop language objectives that fit into the overarching objective of the lesson. Bilingual teachers develop these objectives on their own. An effective language objective may include vocabulary instruction, grammar structures, or language forms. Continuous and ongoing explicit vocabulary instruction is essential when working with ELLs. Successful vocabulary instruction includes five essential components: intentional word instruction, direct instruction in word meaning, modeling strategies or processes for learning new words, multiple exposure to the new words and a system to track new vocabulary. Following these five components ensure a systematic approach to vocabulary instruction. In addition, teachers constantly link new learning to background knowledge. Activating prior knowledge is essential to link new learning to prior learning. Current brain research supports this fact showing “that learning is increased when the students can directly relate new concepts and skills to something they already know or have had some experience with. (Welch, 2009)” Teachers not only use shared classroom experiences to link new learning to prior knowledge, but they also tap into students’ personal backgrounds and experiences.

The general needs of the newcomer ELLs focus more on oral language development. First and foremost, teacher attitude is essential when working with newcomer ELLs. Teachers must work to lower the affective filter and to create a risk free environment where the students feel comfortable and will be more willing to participate. Teachers achieve this by showing a genuine interest in their students, their language and culture. Teachers plan for plenty of structured group work where the newcomer students will have a chance to work with English proficient students or ELL students who have been in the country for more than four years. By pairing students in this manner, newcomers have an opportunity to improve the basic interpersonal communication skills, as well as develop oral academic language. In the structured group work, teachers provide students with sentence frames to lower anxiety around speaking, to give students grammatically correct language, and to encourage academic conversations. If need be, students are allowed to verbalize in their native language first and then work with in their partnership to translate their responses. Also, if the teacher speaks the child’s native language, they can accept the verbalization in the native language. Grammatical and pronunciation errors are not over-corrected, allowing students to feel more confident in their productive skills. To correct spoken or written errors, teachers model appropriate language usage at all times. Students can use gestures, pantomime or drawings to respond to questions. Teachers work with the class to encourage an atmosphere of acceptance, where students feel comfortable sharing their cultures and backgrounds.

For those ELLs who have four to six years of service, instruction is differentiated in various ways. Nearly all of the ELLs who fall into this category are in an ESL program and are at an intermediate or advanced level, with a proficient or advanced level in listening and speaking. Students receive extensive preparation for the NYSESLAT exam during the school day using the Empire State NYSESLAT materials from Continental Press. We expect this program to begin in late November once the materials have arrived in the school. In addition, like the newcomer group, students are provided with extensive opportunities for structured group interactions. Even at this level, students need to verbalize what they want to write before putting pen to paper.

Overall, ELL students with four to six years of service need extensive support in developing reading and writing skills. To support students in reading, teachers do guided reading during the literacy block. Guided reading provides time during the school day for direct reading instruction, focusing on reading strategies. During the guided reading period, students develop as individual readers as they are given the opportunity to develop and use reading strategies. They have a chance to experience success in reading for meaning and learn how to problem solve with the new text independently. Teachers also benefit from the guided reading time as they are able to observe individual students as they problem solve new texts and have a chance to assess individual students using running records.

In addition to guided writing, teachers use various reading strategies to attack tricky texts. Teachers follow the before reading, during reading and after reading model. Proficient readers use this model every time they interact with a text. Interacting with the text before reading allows readers to evoke relevant thoughts, memories, and associations which will help them to comprehend the text. Before reading activities may include activating prior knowledge through a question about a personal experience, making a brainstorming web based on a story’s title, or a preview and predict strategy. An adept reader is constantly interacting with a text during reading, creating an ongoing dialog with the author to mentally paraphrase what the author is saying. They check and monitor understanding through

imagining, inferring, predicting, and confirming. Finally, new information learned is linked with prior knowledge, which leads to real learning. During reading, students can use the GIST summarizing strategy, make connections, use visualization, or practice self-monitoring strategies. After reading, strategic readers summarize and reflect on what they have read. They also apply new ideas from the text to broader world perspectives. After reading activities include reflections and responses. Children can respond to a text by rewriting the ending, designing a new cover, or writing a letter to the author.

To support students with the productive skill of writing, teachers use process writing in a variety of genres. Using genres is essential when teaching writing to ELLs because each genre has its own characteristics: a specific purpose, an overall structure, and specific linguistic features. These characteristics of each genre are shared and understood by the members of the culture (Gibbons 2002). When the students are immersed in the specific genres, their understanding of the writing is enhanced, as specific writing skills are all taught within an explicit context. The writing process is used because “it puts the learner at the center of the learning process (Gibbons 2002).” The context of the writing is further embedded in the students’ minds, increasing comprehension around the genre in which the students are writing.

To scaffold genre process writing successfully, teachers of ELLs use modeled, shared and guided writing practices. In these approaches the teacher and children work together to compose the specific writing piece. Children provide the ideas and the teacher supports the process as a scribe, typically writing about a shared class experience whenever possible. The teacher provides full support, modeling and demonstrating the process of putting children's ideas into written language. In this way the text becomes richer, as the entire class is working on the piece together. Then, students used the skills learned in a particular lesson to apply them to their own writing pieces.

We currently provide ESL services to five long-term ELLs with a total of seven years of service. Their instruction is adapted in much the same way as it is for the students who have four to six years of service. Particular attention is placed on writing instruction with these students. They are in an ESL pull-out group of advanced learners where the current focus is writing. The ESL teacher helps the students through the stages of the writing process, paying particularly close attention to conferring. Students’ writing improves through careful writing conferences, focusing on craft and mechanics. These students also receive support and enrichment throughout the school day to effectively prepare them to meet English Language Learning Standards for the NYSESLAT.

All of our 5 SIFEs are in the bilingual program. Differentiation for the SIFEs is handled at the classroom level, by the bilingual teacher. Much like the classroom adaptations for the newcomers, teachers lower the affective filter, creating a risk free environment. Teachers also help students to adjust to school life through creating regular classroom routines. . In addition to the small-group instruction during the school day to address their social and academic needs, these students will also receive extended instructional time. The extended instructional time can be offered through after-school classes or tutoring, Saturday programs, and/or summer programs. In all these programs, scaffolding strategies such as contextualization and schema building will be used for significant ESL and academic development. During our LAP planning meetings at the end of school year 2013-14, we plan to improve our SIFE education plan by examining the work of Dr. Margarita Calderon of Johns Hopkins University and Nancy Cloud.

7. **What instructional strategies and grade-level materials do teachers of ELL-SWDs use that both provide access to academic content areas and accelerate English language development?**

ESL services for our ELLs in the special education program are adapted based on the students’ needs as per their IEPs. They are provided English language services through an ESL push-in/pull-out program. Differentiated instruction includes development of listening, speaking, reading and writing skills in English through guided reading and writing groups, heterogeneous group work, and scaffolding the academically rigorous curriculum. In addition, students use the AWARD reading program. It is a comprehensive program for teaching and assessing literacy, with a strong technology component. The AWARD Reading program successfully provides individualized instruction using technology to improve the literacy of the digital native. With more than 10 years of research showing its effectiveness with students in a special education program, it is producing quantifiable gains with our population. It is an all-encompassing program that features assistive technology, differentiated instruction, and educational materials that engage students at all levels. ESL services for our ELLs in the special education program are adapted based on the students’ needs as per their IEPs. They are provided English language services through an ESL push-in/pull-out program. Differentiated instruction includes development of listening, speaking, reading and writing skills in English through guided reading and writing groups, heterogeneous group work, and scaffolding the academically rigorous curriculum. In addition, students use the AWARD reading program. It is a comprehensive program for teaching and assessing literacy, with a

strong technology component. The AWARD Reading program successfully provides individualized instruction using technology to improve the literacy of the digital native. With more than 10 years of research showing its effectiveness with students in a special education program, it is producing quantifiable gains with our population. It is an all-encompassing program that features assistive technology, differentiated instruction, and educational materials that engage students at all levels. Our Special Education students have Individualized Education Plans (IEPs) and receive services through the school's Special Education program, which provides students with the least restrictive environment consistent with their individual needs. A full-time IEP teacher, Ms. Spence monitors the implementation of each student's plan. ICT, mainstreaming, and Special Education Teacher Support Services (SETSS) are instrumental in achieving our goals. The ICT program places Special Education students in General Education classes full time, while maintaining a student-teacher ratio of 12:1 (two teachers are assigned to each ICT classes). Students are placed in the ICT program through IEPs, teacher input, and review by Special Education Coordinator. This program allows special education students to receive departmental instruction from licensed specialists in each subject, and also to interact fully with their peers.

In working with our Special Needs ELLs, the instruction is prescribed in a manner that accommodates the student's exceptionality. Instruction is provided within a relevant cultural context so that the students can understand expectations. Our Special Education teachers work together to develop lessons and materials appropriate to student needs, modify unit lessons and materials, evaluate the student progress, and develop individual plans and materials as needed.

8. How does your school use curricular, instructional, and scheduling flexibility to enable diverse ELL-SWDs to achieve their IEP goals and attain English proficiency within the least restrictive environment?

As per our ELL-SWDs students' needs and IEP recommendations, we offer one ICT (Integrated Co- Teaching) classes in each grade, and three self-contained classes, mixed grades. In ICT classes, Special Educators are paired with content teachers to provide support as mandated by students' IEPs, and two ESL teachers provide pull-out services to self-contained ELL-SWDs. By providing students with the instructional program recommended within their IEPs, students are ensured instruction in the least restrictive environment that also supports their English language development. ICT classes follow the same common core units as all general education, ESL and Bilingual classes. Self-contained classes, whenever appropriate, use common units as well, supplemented with texts and materials that meet ELL-SWD needs.

Courses Taught in Languages Other than English ⓘ

NOTE: This section refers to classes/subject areas in which the language of instruction is English and another language which all students in the class speak. Do not include:

- classes that are taught in English using books in the native language
- heritage classes
- foreign language (LOTE) classes

Class/Content Area	Language(s) of Instruction	Class/Content Area	Language(s) of Instruction
Native Language Arts:			
Social Studies:			
Math:			
Science:			

NYS CR Part 154 Mandated Number of Units of Support for ELLs, Grades K-8

	Beginning	Intermediate	Advanced
ESL instruction for <i>all</i> ELLs as required under CR Part 154	360 minutes per week	360 minutes per week	180 minutes per week
ELA instruction for <i>all</i> ELLs as required under CR Part 154			180 minutes per week
FOR TBE /DL PROGRAMS: Native Language Arts	45 minutes per day	45 minutes per day	45 minutes per day

NYS CR Part 154 Mandated Number of Units of Support for ELLs, Grades 9-12

	Beginning	Intermediate	Advanced
ESL instruction for <i>all</i> ELLs as required under CR Part 154	540 minutes per week	360 minutes per week	180 minutes per week
ELA instruction for <i>all</i> ELLs as required under CR Part 154			180 minutes per week
FOR TBE /DL PROGRAMS: Native Language Arts	45 minutes per day	45 minutes per day	45 minutes per day

Native Language Usage and Supports

The chart below is a visual representation designed to show the variation of native language usage and supports across the program models. Please note that native language support is never zero.

TBE and dual language programs have both native language arts and subject areas taught in the native language; ESL has native language supports.

B. Programming and Scheduling Information--Continued

9. Describe your targeted intervention programs for ELLs in ELA, math, and other content areas (specify ELL subgroups targeted). Please list the range of intervention services offered in your school for the above areas as well as the language(s) in which they are offered.

We have many subgroups of ELLs within our school. So, in order to increase the percentage of students meeting promotional standards, all ELLs that have taken the NYS exams are targeted for Academic Intervention Services (AIS), after-school and enrichment programs. Our main intervention program for our ELLs in our Title III program. We are offering four different extended day classes to meet the diverse needs of our ELL population. The students in the first and second grade ESL classes will form one group and the students in the fourth and fifth grade bilingual bridge class will form another group. Another extended day group will be comprised of newcomer students in grades 3 through 5. The last two groups will be made up of third and fourth grade students in the ESL program. They will be grouped by NYSESLAT level, one group of intermediate students and the other group of advanced students. The class will contain approximately 15 students each, for a total of 50 students to be serviced by the extended day program. Each group will meet three days a week for one hour and 45 minutes. The program will start November 4, 2013 and run until May 12, 2014, for a total of 23 weeks or a total of 63 instructional days. All instructors will be New York State Certified as teachers of English to Speakers of other languages or bilingual common branches or have at least three satisfactory years of teaching experience with English language learners.

Each day, students will participate in English language arts or English language development for approximately 55 minutes daily. The mathematics period will run for 35 minutes and will be taught in Spanish to those students in the bilingual program and taught in English to the students in the ESL program. The math period will follow a specific flow of the lesson. Students will engage in an independent problem of the day. Then, students will take part in a five-minute math skill activity, practicing essential computation to develop automaticity. Then, teachers will engage students in a 10 to 15 minute mini-lesson, followed by 10 minutes of guided practice. Then, the children will work independently or in heterogeneous groups to complete the independent practice activities. Then, the entire class will come back together to share for five minutes. The calendar of lesson will be based upon the New York State Mathematics Strands using the September-April performance indicators as a guide. Students will use Test Ready from Curriculum Associates (available in English and Spanish) to develop familiarity with the type of test questions and the test format.

During the literacy block, all of our ELLs will be instructed solely in English. The ELLs who must take the ELA test in May will participate in an ELA block to improve their literacy skills in English. Teachers will first engage students in a thematic book in the content areas from the Language, Literacy and Vocabulary guided reading program from National Geographic/Hampton Brown. The program contains thematic units built around essential key concepts in science, social studies and math. The program offers rich opportunities for learners to build background knowledge, develop vocabulary and oral language, and learn grade level-content. Working in the content areas, students will develop their academic vocabulary skills, as vocabulary development leads to improved writing skills. The teachers will select 10 of the program's 12 themes. One theme will be paced over a two week period. During the first week, on day one students and teachers will read the concept book to build vocabulary and background knowledge around the theme. Teachers will introduce concepts and vocabulary and then model and share the reading. On day two, students will reread the concept book, develop concepts and vocabulary, introduce the comprehension strategy, and participate in small group reading and modeled writing. On day three, students will read the first non-fiction book in the theme, developing concepts and vocabulary from that text. Then, they will participate in small group reading to practice the comprehension strategy and finally participate in shared writing. During week two of the theme, students will further enrich their non-fiction knowledge of the theme. On day one, students will read the second non-fiction book in the theme in a small group using the comprehension strategy and will review concepts and vocabulary. On day two, teachers will engage in individual assessment using running records. Meanwhile, students will reread the non-fiction texts and start the guided writing activity. Finally on day three, students will complete the guided writing activity and engage in various assessment activities as deemed appropriate by the teacher. This portion of the ELA block will take approximately 35 minutes.

Those students who are exempt from taking the ELA will first participate in an eight week newcomer program to develop basic English vocabulary and language structures necessary for success in school. The program from National Geographic/Hampton Brown will enable students to develop English vocabulary and concepts, language development and communication skills, and beginning writing ability to prepare them for the rigors of classroom work in English. Students will also use the supplemental program from National Geographic/Hampton Brown called Reading Basics to develop phonics, word structure skills, blending and

decoding strategies. After the eight week newcomer program, the students will begin work in English in the content areas. Students will also use the Language, Literacy, and Vocabulary guided reading program to strengthen academic vocabulary and background knowledge in the content areas of science, social studies and mathematics. Each lesson includes modeling and guided practice of a comprehension strategy, academic vocabulary development and opportunities to gain reading fluency. Student in the newcomer group will follow the same pacing of the themes as the other groups, using only six of the themes. The first part of the literacy block will take approximately 35 minutes.

Both the newcomer group and the group of ELLs who will be tested will finish their literacy block by engaging in test sophistication for the NYSESLAT. We will order *Finish Line for ELLs: English Proficiency Practice* from Continental Press. This program gives practice in multiple-choice, written-response, and oral-response questions across the five content areas (conversational language, academic language arts, academic mathematics, academic science, and academic social studies) through the listening, reading, writing, and speaking domains. Exposing students to the test format and the type of test question well before the testing day helps minimize test-day anxiety, allowing students more opportunity to display their content knowledge and language proficiency. The program is carefully designed so that the proficiency levels of the questions increase within each lesson to promote advancement. The books are broken into a total of 34 lessons. The reading, listening and speaking lessons will be done one per day and the writing lessons will be broken down into two days. Each lesson will take approximately 20 minutes.

We also offer intervention services during the extended day period. During 37.5 minutes, our ELLs work in small groups of 10 or less students to improve literacy and math skills. In kindergarten through second grade, the ELLs in the ESL program are using the *Foundation* program from Wilson reading, as well as phonemic awareness. *Foundations* lessons focus on carefully sequenced skills that include print knowledge, alphabet awareness, phonological awareness, phonemic awareness, decoding, vocabulary, fluency, and spelling. The phonemic awareness component is systematic instruction that teacher children to analyze words at the phoneme level. Each lesson contains teacher modeling followed by independent student practice. Students are allowed frequent practice with blending, segmenting and manipulating phonemes. The phonic component aids student in relating letter to sounds, blending sounds to form words, manipulating sounds to learn the relationship between letter, sounds and word meaning, an encoding tasks that have children break spoken words into sounds.

Bilingual students in the extended day program use the *Estrellita* program and phonemic awareness program. *Estrellita* is an accelerated, systematic, explicit phonics program which aids to accelerate students through the decoding process. Students practice the initial sounds, followed quickly by blending of consonant and vowels. Then, students begin to use syllables to form words. Then, during native language instruction students learn how to hear, identify and manipulate the sounds in spoken words. They do activities with the syllables in Spanish, including isolation, identity, categorization, blending, segmentation, deletion, addition and substitution. During phonics instruction, students work on letter-sound association, word blending and building, reading decodable text, and spelling.

In third through fifth grade, both ESL and bilingual students are working in shared reading activities in English and guided math practice in the appropriate language. One month has a reading focus and the following month has a math focus. During the months where reading is the focus, teachers are using shared reading strategies. Shared reading is a collaborative reading experience in which the teacher and the students join in reading together. It is a widely used technique that allows students to engage in the reading process, regardless of ability. Shared reading builds experience with written text, makes challenging text accessible, and strengthens problem-solving abilities. Not only does the teacher model fluency during these sessions, she also stops periodically to think aloud. Engaging students in strategies that proficient readers are always using aid students in applying these strategies to their own reading.

During those months where the students are engaged in a study of mathematics, students are focusing on various problem solving activities. To reinforce the most effective way to use these strategies, we follow a gradual release model, or “I do, we do, you do.” the gradual release of responsibility “emphasizes...instruction that mentors students into becoming capable thinkers and learners when handling the tasks with which they have not yet developed expertise” (Buehl 2009). During this three step process, teachers first provide direct instruction, establish goals, model, and think aloud, while the student actively listens and asks for clarification. Then, during guided instruction the teacher provides interactive instructions, works with students providing checks, clues, and prompts, and provides additional modeling if necessary. Meanwhile, the students are asking and responding to questions, while completing the task alongside their classmates. Finally, during independent practice, teachers provide feedback and evaluate,

while students work alone relying on classroom learning to complete the task. By systematically following this process during the extended day period, students will become independent learners and problem solvers.

ELL students who are designated at-risk because of hold-over status participate in a special program where a team of faculty meets to discuss each child's specific case. The team works together to develop a personalized intervention plan for each child. According to the plan, the child may receive different types of small group instruction during the school day, like guided reading. Typically, they also receive reading intervention through the Intervention by Design Program. This program is a highly-structured intervention program that directly teaches the structure of the language to students who have struggled with other teaching strategies.

Our fourth and fifth grade ELL classes, both ESL and bilingual participate in the ST Math program. The ST Math K-5 courseware is a research-proven, comprehensive, grade-level math instructional software program that utilizes Spatial-Temporal (ST) reasoning to teach math concepts that aligned with state standards. Spatial-Temporal reasoning is the innate ability to visualize and manipulate images through a sequence of steps in space and time - a process critical to solving problems in math, science and other curriculum

Support our former ELLs as they move from an advanced to a proficient level is considered on a case-by-case basis. Our former ELLs in the ESL program complete one more year in the heterogeneous ELL class on their corresponding grade. It is in this way that the push-in ESL teacher, either Ms. Canales or Ms. Torres can support that student with whatever language learning issue that they may experience. Students in the bilingual program transitioning from English learner to English proficient are moved from the bilingual class to the ELL class on their corresponding grade. In this setting, students are offered more instructional scaffolding and additional support from push-in personnel. Materials for math instruction are provided in Spanish. In addition, some students require a little extra support when transitioning from math instruction in Spanish to instruction in English. These students go to the bilingual class for their math instruction. As students feel more comfortable with math instruction in English, they can transition fully into the English program.

All former ELLs are provided with testing accommodations for the first two years of their proficiency. The testing accommodations include a time extension, the use of bilingual dictionaries and glossaries, the simultaneous use of English and alternative language editions, third reading of listening selection, writing responses in the native language and oral translations of lower incidence languages. We also proctor exams to ELLs in the optimal testing environment.

When the LAP team meets in May and June, the efficacy of our current programs will be reviewed. Team members will use formal and informal assessments, student and teacher reflections, and first hand experience with the program to determine what programs shall continue and which programs will be discontinued.

10. Describe the effectiveness of your current program and how it is meeting the needs of your ELLs in both content and language development.

In our school, we are currently using various, enriching curricula and instructional materials. Our ELLs follow the same curricula as the English proficient students. In math, we currently use Envision Math Common Core program, available in English and Spanish. This is a fully research-based program, designed and compiled by an experienced authorship team and is completely aligned with the New York Core Curriculum Standards. The proven effectiveness of Scott Foresman's previous math programs provided a longitudinal research base that spans more than 100 years. Longitudinal classroom studies further validated the efficacy of the program. Starting in kindergarten, the program develops and extends mathematical thinking through stories, games, and center activities. Students grow to understand the concept of numbers, numeracy, and equality. The program includes daily assessment, differentiation for all learners, extensive problem solving, customized intervention and interactive activities.

For the past two years, our reading and writing workshop was taught through the use of the research-based developmental literacy program Storytown and Villa Cuentos. Now we are following ReadyGen. The Storytown and Villa Cuento programs reflect current, confirmed research by prioritizing and sequencing essential skills and strategies into an organized model for instruction. Lessons include explicit, systematic instruction in the areas of phonemic awareness, phonics, vocabulary, fluency, comprehension and writing. The foundation of the program is its high-quality children's literature and informational texts. Students are

regularly exposed to a variety of genres, allowed for ample practice and application of skills, using a variety of meaningful tools and activities. All instruction and activities are adaptable to accommodate all types for learners. All materials are available in both English and Spanish. There are extensive components for intervention, differentiation and reteaching. Through the use of these elements, ESL and classroom teachers are able to reach all learners.

Our content areas are delivered using the core curriculum materials from the Department of Education. For science, we currently use the Delta FOSS kits and science modules and Harcourt Science text books in fourth and fifth grade. FOSS engages students in the inquiry process allowing students construct an understanding of scientific concepts through their own investigations and analyses. Students use laboratory equipment, readings, and interactive technology to exercise logical thinking and decision-making skills appropriate to their age level. The FOSS kits are available in both English and Spanish. Bilingual classes are doing science instruction in English, adapting the lessons to make them as hands-on as possible. In four through fifth grade, instruction in science is delivered both in English and in Spanish. The English lessons are taught using ESL methodologies.

In social studies, we follow the scope and sequence guidelines from New York City. In kindergarten through second grade, students begin to develop awareness about self, family, neighborhoods, and communities large and small. In third through fifth grade, they are introduced to the diversity of world communities, the historic development of New York State, and the similarities and differences among the nations that make up the Western hemisphere. The early grade teachers use authentic literature, songs and chants, shared experiences and hands-on activities to engage students in higher order thinking about important social studies concepts. The bilingual teachers deliver ESL through social studies.

11. What new programs or improvements will be considered for the upcoming school year?

Our school Instructional team and the SLT team will carefully analyze our school data to see what changes need to be made.

12. What programs/services for ELLs will be discontinued and why?

None. Our school will continue to provide programs and services as per ELL population, parent choice, and student needs.

13. How are ELLs afforded equal access to all school programs? Describe after school and supplemental services offered to ELLs in your building.

We have many subgroups of ELLs within our school. So, in order to increase the percentage of students meeting promotional standards, all ELLs that have taken the NYS exams are targeted for Academic Intervention Services (AIS), after-school and enrichment programs. Our AIS program is designed for students who are at risk of academic failure, as well as SIFE students or those students performing at Levels 1 and 2 on English or mathematics state standardized exams. Teachers identify and provide individualized instruction to the targeted population. AIS services are also offered to ELLs, where an ESL teacher works with students approximately one period per week in either a push-in or pull-out model. Our after-school program is offered through an extended school-day program designed for all ELLs and Special Needs students. The program provides extra support to our students in the areas of reading comprehension, vocabulary and word analysis. It also provides our students with test sophistication skills.

In addition to AIS intervention and push-in and pull-out support, all ELLs are invited to attend the Title III Saturday program. This program is held for 15 Saturdays in late fall, winter and spring for 4.5 hours each Saturday to engage students in intensive literacy and math instruction to supplement their regular school day academic program. Students use supplemental materials ordered with Title III funds to practice literacy and math skills needed to succeed on NYS ELA and Math exams, as well as the NYSESLAT. All programs are provided in English, with the exception of AIS and pull-out, which may to some degree require the use of Spanish as per ELL needs and proficiency levels.

14. What instructional materials, including technology, are used to support ELLs (include content area as well as language materials; list ELL subgroups if necessary)?

Instruction in all these curricula is enhanced through the use of technology. ELLs have access to the same technology as the rest of the school population. Collaboration and interactivity with digital technology help improve student learning outcomes. Currently, all classes with ELLs have an interactive whiteboard in their classroom. The use of SMART boards with ELLs enhances instruction, making it more interactive and engaging. Our Invision Math Program, Storytown, and Villa Cuentos all contain an interactive whiteboard component in their programs. In addition, students in second through fifth grade have access to notebook computers. The technology specialist, also has many other technological enhancements available to teachers of ELLs in the school's technology lab. Teachers can use ELMO projectors, Flip cameras, digital cameras, camcorders and iPods to add technology into lessons and student projects. Also we were able to add 20 ipads in our bilingual classrooms through the CUNY-New York State Initiative Bilingual Grant. In addition, our school has purchased a Rosetta Stone language program that allows

students to use technology and work independently on building vocabulary and basic sentence structures in English.

15. How is native language support delivered in each program model (TBE, Dual Language, and ESL)?

In our school, Native language support, which reinforces the development of oral and written fluency, content knowledge, and the ability to communicate, is delivered in each program model. First, standards-based literacy instruction is provided in the native language and in English for the duration of our students' education in the TBE program. The native language and English are also used consistently to teach core academic content areas for the duration of our students' in the TBE program. Further, since ongoing assessments of students in academic content areas, as well as language development, inform teaching and learning, we assess content-area learning and language development in the language of instruction and analyze this data to set goals and identify areas for improvement. Materials used include textbooks in the native language and technology enrichments in the native language.

In freestanding ESL, language development and content instruction are supported in the native language in order to enrich comprehension. This type of support includes bilingual dictionaries, glossaries, native language classroom libraries, and technology enrichments. ESL teachers provide students with regular access to dictionaries and Spanish-English dictionaries, and students are paired and grouped strategically to meet students' needs. In addition, teachers with Spanish proficiency help ELLs develop bilingual glossaries, and ESL teachers seek support from Spanish-literate colleagues to develop bilingual instructional materials, especially bilingual glossaries and picture glossaries, to support the needs of beginner ELLs. These classrooms are provided with libraries that contain books in Spanish, French, and Arabic.

16. Explain how the required services support, and resources correspond to ELLs' ages and grade levels.

All materials ordered are age appropriate and meet the identified needs of our ELLs. Materials are geared to address the needs of our students based on age and grade level. For example, high interest, low level texts, and books with picture support are ordered as needed.

17. Describe activities in your school that assist newly enrolled ELL students before the beginning of the school year. Please include activities for new ELLs who enroll throughout the school year.

When the ELL students arrives at our school, the ESL staff and the Parent Coordinator, Ms Sloan, and the school staff welcome the students and their families to our school. The students and parents are given a brief tour of the school and uniforms and school supplies are provided. Also the parents are introduced to the school nurse, who registered them in the clinic. Parents are provided with the Orientation Video and assisted to complete schools forms if necessary. Parents and students usually have the opportunity to meet the Assistant Principals of the grade. They are also given information about additional programs which are in our school such as AIS, Extended-day program for at risk students, Saturday programs, Title III programs, SES and After-school programs.

18. What language electives are offered to ELLs?

N/A

19. For schools with dual language programs:

- a. How much time (%) is the target language used for EPs and ELLs in each grade?
- b. How much of the instructional day are EPs and ELLs integrated? What content areas are taught separately?
- c. How is language separated for instruction (time, subject, teacher, theme)?
- d. What Dual Language model is used (side-by-side, self-contained, other)?
- e. Is emergent literacy taught in child's native language first (sequential), or are both languages taught at the same time (simultaneous)?

Paste response to questions here:

C. Professional Development and Support for School Staff

1. Describe the professional development plan for all ELL personnel at the school. (Please include all teachers of ELLs.)
2. What professional development is offered to teachers of ELLs (including ESL and bilingual teachers) in supporting ELLs as they engage in the Common Core Learning Standards?
3. What support do you provide staff to assist ELLs as they transition from elementary to middle and/or middle to high school?
4. Describe the minimum 7.5 hours of ELL training (10 hours for special education teachers) for all staff (including non-ELL teachers) as per Jose P.

Our professional development program will be extensive and ongoing. All teachers of English language learners will be included in the professional development opportunities. The team of ELL teachers and administrators will meet on a monthly basis for an hour and 45 minutes each time. During school year 2013-2014, we will hold total of 20 meetings. The first two meetings will focus of adjusting and improving the language allocation policy. The last eighteen meetings will focus on instructional strategies, such as writing, academic vocabulary development, higher-order questioning strategies, effective instruction for ELLs using an RtI approach, developing and expanding oral language to support literacy learning and content knowledge and additional topics as the teachers feel needs arise. Our teachers of ELLs will also participate in various workshops on the New York State Bilingual Common Core Initiative offered through the Office of English Language Learners and the BETACs at our nearby universities, including Fordham University, Hunter College and New York University. Teachers will attend workshops on their own and then turnkey the information with all of the teachers of ELLs.

In addition, our teachers of ELLs will continue our partnership with CUNY-New York State Initiatives on Emergent Bilinguals, a collaborative project of the Research Institute for the Study of Language in Urban Society. Through this project, our teachers of ELLs will receive Professional Development on the topics of translanguaging, curriculum planning with emergent bilinguals, developing student's academic language proficiency, differentiating instruction, and assessment with emergent bilinguals.

Our teachers are trained to meet instructional goals set by our school, the NYC Children First Initiative and NYS Common Core Learning Standards. Our ELLs are challenged to meet the academic demands expected of the other general education students. Their teachers are given full support and training to achieve these goals in literacy, math and the other content areas. There are on-going grade and departmental meetings with our literacy and math coaches and other support staff. Modifications and scaffolds for ELLs are part of the discussions at these grade and departmental meetings. Our scheduled coaching sessions for teachers in the ELL programs (with articulation afterwards) are consistent with the training and/or focus discussed at these meetings. There are also meetings/study group held specifically to support our teachers in the transitional bilingual program. Teachers of ELLs also attend ESL/bilingual workshops offered by the Bilingual Team at our school.

In order to facilitate the transition of our ELLs from elementary to middle school, articulation is discussed between the guidance and fifth and sixth grade classroom teachers, ESL teacher, and students. In addition, middle school workshops are held for parents in English and Spanish. Data on the exam history (ELA, Math NYSESLAT) are reviewed. It is our goal to help students find the right placement for their middle school studies and ELL services in the middle schools. The needed ELL services at the time of the middle school application are pre-printed on the middle school application. Once choices are listed, matches are made to choices. Every effort is made to inform the parents of our ELLs about the middle school options that are available to their children.

To ensure that all of our staff received the minimum 7.5 hours of mandated ELL training, all teachers will be surveyed to discover who has already been given training. For those who still require training, annual professional development about best strategies for English language learners will be offered during two dates of our Monday faculty conferences (final dates to be determined) and during the June 9th professional development date in 2014. Teachers will be furnished with a certificate upon the completion of the 7.5 hours.

D. Parental Involvement

1. Describe ELL parent involvement in your school. Include specific activities that foster parental involvement for parents of ELLs.
2. Does the school partner with other agencies or Community Based Organizations to provide workshops or services to ELL parents?
3. How do you evaluate the needs of the parents?
4. How do your parental involvement activities address the needs of the parents?
 1. Parents are members of the PTA and they serve on the School Leadership Team. They participate in school-led workshops, volunteer in classrooms, and assist with school initiatives. Parents including the parents of ELLs are involved in school events/activities. The majority of the workshops/orientations are bilingual (Spanish/English). In the instances when a workshop may only be presented in one language, it is shortly after offered in the other dominant school language. For parents that speak limited English and their second language is not Spanish, if there is not an individual in the building that speaks their language, the Parent Coordinator sits with them one-on-one and contacts the Language Interpretation Unit for over-the-phone translation.
 2. The school does partner with other agencies or Community Based Organizations to provide bilingual workshops or services to ELL parents. The Community Morris Height Health Center comes to the school to conduct workshops on asthma, healthy homes and financial planning. Parents of Pre-K students participate bilingual Jump Start activity affiliated with the Davidson Community Center. The CPR classes for parents are offered in Spanish and are presented by the Fire Department. Cornell University is also scheduled to present a series of Nutrition Workshops presented in a bilingual setting (Spanish/English). ELL Orientations are offered in a bilingual setting (Spanish/English) and when there is a parent whose primary language is not English or Spanish, the appropriate presentation is shown to them and the handouts are given to them in their native language. Also, if needed the Language Interpretation Unit is contacted for over the phone translation. Parents are also referred to Office of Adult Education for free ESL classes as well as the Fordham Library Center for ESL and computer classes. There are ARIS Link workshops and Curriculum workshops with pointers on how to work with students at home. Various bilingual workshops are offered to parents based on their needs.
 3. Parents participate in the citywide parent survey and complete surveys send by our Parent Coordinator. They submit their concerns and ideas to the Leadership Team. The needs of the parents are evaluated through surveys and one-on-one conversations between parents and the Parent Coordinator. The Parent Coordinator also takes into consideration the needs of the students to present workshops to the parents offering techniques on how to better assist their children with their schoolwork at home.
 4. Parent survey results are used to determine workshop topics. The activities parents are offered are activities they can use with their families at home. For example, parents are always asking for ways they can assist their children with math or reading for the State Exams. As a result a series of workshops is scheduled for the parents to teach them games they can play at home with their children so that they may reinforce the skills the children have learned at school. Another example is the nutrition workshop, CookShop, which teaches parents and students to cook healthier meals. As part of our work with the CUNY-New York State Initiative on Emergent Bilinguals, the teachers will be holding a series of workshops for parents regarding parents rights and responsibilities. The topics will include helping with homework, state testing, school volunteerism, using ARIS and Common Core Standards. The meetings will be held monthly from December 2013- to April 2014, beginning with helping with homework in December.

In addition, for the first time, we will start a study group for parents. It will be limited to 20 participants and will be facilitated by two ESL teachers. The study group will meet once a month, from December to May, for an hour each time for a total of six meetings. It will be done bilingually to accommodate as many parents as possible. We will order 5 English copies and 15 Spanish copies of *The Ten Basic Principles of Good Parenting* by Laurence Steinberg. This book will serve as the foundation for our study group. For one hour each session the facilitators will focus upon one of the principles of the book, starting with a synopsis and then following a protocol to engage the parents in a discussion. The goal is to encourage parents to come up with practical strategies to incorporate the principles into all the good ways they are already rearing their children. Another book the facilitators will refer to as a reference is *Parenting with Love and Logic/Ser Padre con Amor y Logico* by Foster Cline and and Jim Fay. This book will be used in a few meetings to reinforce specific important points that we want parents to understand, such as teaching children to take responsibility for their own education and helping their children to develop their self-esteem. As it is only a reference guide, not the foundation of the group, we will only order 2 copies in English and 2 copies in Spanish. We will also order 5 English copies and 15 Spanish copies of *Help Your Children Succeed in School/Ayude a su hijo tener exito en la escuela* by Mariela Dabbah to use as a guide for directing parents when it comes to becoming more involved in the school community and academic issues their children may face.

E. Additional Information

Please include any additional information that would be relevant to your LAP and would further explain your program for ELLs. You may attach/submit charts. This form does not allow graphics and charts to be pasted.

Paste response to question here:

LANGUAGE TRANSLATION AND INTERPRETATION 2013-2014 TO 2014-2015

Requirement under Chancellor's Regulations – for all schools

DBN: **10X306**

School Name: **306**

Cluster: _____

Network: **CFN 109**

Goal: To communicate whenever feasible with non-English speaking parents in their home language in order to support shared parent-school accountability, parent access to information about their children's educational options, and parents' capacity to improve their children's achievement.

Part A: Needs Assessment Findings

1. Describe the data and methodologies used to assess your school's written translation and oral interpretation needs to ensure that all parents are provided with appropriate and timely information in a language they can understand.

The methodology used to assess our school's written translation and oral interpretation begins during the registration process of all our students. Each family is asked to complete the "Preferred Language Part" on the Home Language Identification Survey and on the Emergency card upon registration. The parents are asked to complete these forms where they choose the language in which they want to receive written information and communicate orally. All information is provided in their respective languages. These forms are used to determine the needs for written translation and oral interpretation. At this point an interview is conducted in English or Spanish by a trained pedagogue and when necessary the translation and interpretation hotline is used to communicate with parents. Teachers and administrative personnel are also able to access parent written and oral interpretation preferences through the ARIS website.

2. Summarize the major findings of your school's written translation and oral interpretation needs. Describe how the findings were reported to the school community.

Our school population consists of 766 students, 74% are English-speaking, 17% are Spanish-speaking and the remaining 9% speak French, Arabic, Bengali, Twi, Ewe, or Hausa. Our school community is provided and informed with the exact numbers of speakers of English and other languages during staff conferences. This information is also included in our CEP and in our Language Allocation Policy. Teachers and administrators are made aware of the written and oral interpretation needs of the parents in their classrooms by using the ARIS website.

Part B: Strategies and Activities

1. Describe the written translation services the school will provide, and how they will meet identified needs indicated in Part A. Include procedures to ensure timely provision of translated documents to parents determined to be in need of language assistance services. Indicate whether written translation services will be provided by an outside vendor, or in-house by school staff or parent volunteers.

At P.S. 306 all written translation is provided in-house, by school staff, or parent volunteers. All notices and letters about workshops, school trips, meetings, after-school programs, and assessments are sent to parents in English and Spanish. We also offer translations in Bengali, Arabic, French and Twi. Our school's ESL team makes sure that all parents of ELL's receive all letters and notifications in their respective languages. These forms include the Home Language Identification Survey, ELL parent brochures, Parent Survey, program forms, ELL parent notifications -entitlement and non-entitlement letters, placement, continuation of services, transition letters, and Title II after-school letters. Spanish translations will be done on site by one of our bilingual teachers. Written translation of lower incidence will be done by the translation and interpretation unit of the Department of Education. When needed, an outside vendor will be used to prepare written translations.

2. Describe the oral interpretation services the school will provide, and how they will meet identified needs indicated in Part A. Indicate whether oral interpretation services will be provided by an outside contractor, or in-house by school staff or parent volunteers.

All oral interpretations are provided in house by school staff and parent volunteers. Oral interpretation will always be provided in Spanish by a bilingual teacher or a parent volunteer during parent meetings. Parents can also request an interpreter in advance and we will contact the interpretation unit. We will also use the over the phone service. This year we will seek help from outside contractors if standardized tests are not available in students' native languages. We will hire interpreters for our ELLs who speak French since math and science tests are not available in their language.

3. Describe how the school will fulfill Section VII of Chancellor's Regulations A-663 regarding parental notification requirements for translation and interpretation services. Note: The full text of Chancellor's Regulations A-663 (Translations) is available via the following link: <http://docs.nycenet.edu/docushare/dsweb/Get/Document-151/A-663%20Translation%203-27-06%20.pdf>.

In order to comply with Section VII of Chancellor's Regulations A-663, the parent coordinator sends home the Bill of Parent Rights in their native language. This notice informs parents of their right to request for interpretation services. Our school also posts translated signs indicating the availability of interpretation services. We post the signs in the entrance of the school and in the main office making parents aware of their interpretation rights. The signs posted include "Interpretation Services Available", "Please see a staff member for interpretation services", "Welcome Parents!" and "To obtain a translation of this document in [language] please see a staff member". To ensure that all parents are provided with translation services, we will have a staff member or parent volunteer available to translate. We will also use an outside contractor or the translation and interpretation hotline to communicate with the parents.

2012-13 Comprehensive Education Plan (CEP)

Title III Supplemental Program for ELLs

Directions: Title III supplemental services for ELLs must include all of the following three components:

- **Direct instruction:** activities must be used to support language development, English and native language instruction, high academic achievement in math, and/or other core academic areas.
 - The Title III supplemental instructional services must be based on student need
 - These supplemental services should complement core bilingual and ESL services required under CR Part 154.
 - Direct supplemental services should be provided for before school, after school, and Saturday programs as well as reduced class-size, and/or push-in services.
 - Teachers providing the services must be certified bilingual education and/or ESL teachers.
- **High quality professional development** that is “of sufficient intensity and duration to have a positive and lasting impact on the teachers’ performance in classrooms.”
 - Professional development activities should be well-planned, ongoing events rather than one-day or short-term workshops and conferences.
- **Parent engagement** and supports must ensure that there are appropriate translation and interpretation services to meet community needs.
 - These are in addition to mandated activities, such as parent orientation during ELL identification process.

For more information on Title III requirements, please see the School Allocation Memo or contact your ELL Compliance and Performance Specialist.

Describe the direct instruction supplemental program here and include the

- rationale
- subgroups and grade levels of students to be served
- schedule and duration
- language of instruction
- # and types of certified teachers
- types of materials

Begin description here:

During school year 2012-2013, we plan to offer four extended day classes to meet the diverse needs of our ELL population. We plan to use the monies from the federal Title III grant to service the ELLs in the bilingual and ESL programs. We will service students in grades 3 through 5. In order to address the needs of our English language learners the students will be grouped by grade level and by English language acquisition level. The classes will contain approximately 10-12 students each, for a total of 50-60 students to be serviced by the extended day program. Each group will meet three days a week for one hour and 45 minutes. The program will start December 4, 2012 and run until April 30, 2013 for a total of 22 weeks or a total of 65 instructional days. The program will meet on Tuesdays, Wednesdays, and Thursdays from 3:00 P.M. to 4:45 P.M. All instructors will be New York State Certified as teachers of English to Speakers of other languages or bilingual common branches or have at least three satisfactory years of teaching experience with English language learners. All participating teachers will be part of a two day planning session. This program will be run by two certified bilingual teachers, two certified ESL teachers and one certified content area teacher who will be team-teaching with one of our ESL teachers.

Each day, students will participate in English language arts or English language development for approximately 55 minutes daily. During the literacy block, all of our ELLs will be instructed solely in English. The ELLs who must take the ELA test in April will participate in an ELA block to improve their literacy skills in English. Teachers will first engage students in a thematic book in the content areas from the Language, Literacy and Vocabulary guided reading program from National Geographic/Hampton* Brown. The program contains thematic units built around essential key concepts in science, social studies and math. The program offers rich opportunities for learners to build background knowledge, develop vocabulary and oral language, and learn grade level-content. Working in the content areas, students will develop their academic vocabulary skills, as vocabulary development leads to improved writing skills. The teachers will select 10 of the program's 12 themes. One theme will be paced over a two week period. During the first week, on day one students and teachers will read the concept book to build vocabulary and background knowledge around the theme. Teachers will introduce concepts and vocabulary and then model and share the reading. On day two, students will reread the concept book, develop concepts and vocabulary, introduce the comprehension strategy, and participate in small group reading and modeled writing. On day three, students will read the first non-fiction book in the theme, developing concepts and vocabulary from that text. Then, they will participate in small group reading to practice the comprehension strategy and finally participate in shared writing. During week two of the theme, students will further enrich their non-fiction knowledge of the theme. On day one, students will read the second non-fiction book in the theme in a small group using the comprehension strategy and will review concepts and vocabulary. On day two, teachers will engage in individual assessment using

Part B: Direct Instruction Supplemental Program Information

running records. Meanwhile, students will reread the non-fiction texts and start the guided writing activity. Finally on day three, students will complete the guided writing activity and engage in various assessment activities as deemed appropriate by the teacher. This portion of the ELA block will take approximately 35 minutes.

Students will also use the Language, Literacy, and Vocabulary guided reading program to strengthen academic vocabulary and background knowledge in the content areas of science, social studies and mathematics. Each lesson includes modeling and guided practice of a comprehension strategy, academic vocabulary development and opportunities to gain reading fluency.*

All students will finish their literacy block by engaging in test sophistication for the* NYSESLAT. Students will be able to put into practice the best strategies in standards-based instruction. We will order Getting Ready for the NYSESLATand Beyond and Empire State NYSESLAT from Continental *Press. These programs gives practice in multiple-choice, written-response, and oral-response questions across the five content areas (conversational language, academic language arts, academic mathematics, academic science, and academic social studies) through the listening, reading, writing, and speaking domains. Exposing students to the test format and the type of test question well before the testing day helps minimize test-day anxiety, allowing students more opportunity to display their content knowledge and language proficiency. The program is carefully designed so that the proficiency levels of the test preparation materials help teachers of English Language Learners use ongoing assessment activities to measure progress in attaining English language proficiency. This program also familiarize students with the structure of the NYSESLATand allow them to transition from the NYSESLAT to the ELA test. The books are broken into a total of 34 lessons. The reading, listening and speaking lessons will be done one per day and the writing lessons will be broken down into two days. Each lesson will take approximately 20 minutes.

??????

Part C: Professional Development

Describe the school's professional development program for Title III Program teachers as well as other staff responsible for delivery of instruction and services to ELLs.

- rationale
- teachers to receive training
- schedule and duration
- topics to be covered
- name of provider

Begin description here:

Our professional development program will be extensive and ongoing. All teachers of English language learners will be included in the professional development opportunities. Our ELL teachers will work closely with the ESL/Bilingual Coordinator and the Network Support Specialist for ELLs to identify strengths within our own staff. Classroom teachers of ELLs in both the ESL and bilingual programs will be designated as lab sites around specific instructional topics, such as academic language development, planning and implementing differentiated math lessons or high quality reading and writing instructions.

Part C: Professional Development

Teachers of ELLs will observe various techniques in the specific lab sites to gain a better understanding of certain instructional strategies and to have a chance to try it out in their own classrooms. A schedule of inter-visitations will be developed according to the need of each specific educator. Teachers will participate in lab sites visits during their preparatory periods or during their administrative periods. In addition, the team of ELL teachers and administrators will meet on a monthly basis for an hour and 45 minutes each time. During school year 2012-2013, we will hold total of 8 meetings. These meetings will focus on instructional strategies, such as writing, academic vocabulary development, higher-order questioning strategies, and additional topics as the teachers feel needs arise. Our series of professional development on the *Six Traits of Writing is scheduled as follow: September 20th -Six Traits of Writing Overview, November 26th -Teaching Ideas, December 11th -Teaching organization, February 20th - Teaching Voice, February 27th- Word Choice/Sentence Fluency. Our literacy development date meetings are: October 24th, November 25 and December 17th. Our meetings will be held from 3:00 P.M. to 4:45 P.M. and they will be facilitated by our Reading Support Specialist, and Miriam Katz, our Math Support Specialist. □□□□□

Part D: Parental Engagement Activities

Describe the parent engagement activities targeted toward parents of ELLs that will impact higher achievement for ELLs. NOTE: These are in addition to mandated activities, such as parent orientation during ELL identification process.

- rationale
- schedule and duration
- topics to be covered
- name of provider
- how parents will be notified of these activities

Begin description here:

As part of our work with the Project Smart Teacher Leader Quality Partnership (TLQP) State Education grant through the State University of New York, Oswego, teachers participating in this project will be holding a series of five workshops for parents regarding parent's rights and responsibilities. These workshops will be held after school and on Saturdays for one hour and thirty minutes each. The topics will include helping with homework, state testing, school volunteerism, using ARIS and school curriculum state and city standards. The meetings will be held monthly from January to May, beginning with helping with homework in January.

In addition, for the first time, we will start a study group for parents. It will be limited to 20 participants and will be facilitated by two ESL teachers. The study group will meet once a month, from January to June, for an hour and thirty minutes each time for a total of six meetings. Each session will start at 9:00 A.M. to 10:30 A.M. The tentative dates for our parental activities are as follow: January 25, February 8, March 11, April 9, May 13, and June 10. It will be done bilingually to accommodate as many parents as possible. We will order 5 English copies and 10 Spanish copies of *The Ten Basic Principles of Good Parenting* by Laurence Steinberg. This book will serve as the foundation for our study group. Each session the facilitators will focus upon one of the principles of the book, starting with a synopsis and then following a protocol to engage the parents in a discussion. The goal is to encourage parents to come up with practical strategies to incorporate the principles into all the good ways they are already rearing their children. Another book the facilitators will refer to as a reference is *Parenting with Love and Logic/Ser Padre con Amor y Logico* by Foster Cline and Jim Fay. This book will be used in a few

Part D: Parental Engagement Activities

meetings to reinforce specific important points that we want parents to understand, such as teaching children to take responsibility for their own education and helping their children to develop their self-esteem. As it is only a reference guide, not the foundation of the group, we will only order 1 copy in English and 1 copy in Spanish. We will also order 5 English copies and 10 Spanish copies of Help Your Children Succeed in School/Ayude a su hijo tener éxito en la escuela by Mariela Dabbah to use as a guide for directing parents when it comes to becoming more involved in the school community and academic issues their children may face. All parents will be informed about these workshops during our PTA meetings, topics, time and dates of workshops will be posted throughout the school and notices will be sent home in both, English and Spanish. For those parents of children of other languages, notices will be also translated.

Part E: Budget

FOR SCHOOLS NOT CONCEPTUALLY CONSOLIDATED ONLY. Ensure that your Title III budget matches your Title III Plan.

Allocation Amount: \$
