

## F. Assistive Technology Allocation

Federal IDEA resources are being allocated to ROCs to support the purchase of IEP-mandated pupil equipment. Allocation amounts are listed below. The Assistive Technology allocation supports both the cost of equipment and the cost of services needed to train staff and parents on the use of the equipment. Per session costs associated with training that needs to take place after regular school hours is also permissible. Service costs may also include any work required to program the devices.

Assistive Technology	
A-Man 7th Ave	362,000
B-Bronx Fordham Plaza	425,000
C-Queens Linden Pl	220,000
