**SUBJECT: YOUNG ADULT BOROUGH CENTERS (YABC) ALLOCATION**

---

Tax levy funds are being provided for the continuation and expansion of the Young Adult Borough Center Programs (YABC's). The YABC is an academic program serving between 250-400 over age, under credited youth who wish to earn credits toward a high school diploma by taking intensive afternoon and evening classes up to five times per week. Students attend the YABC program instead of, not in addition to, traditional day school. Students graduate with a diploma from their sending school after they have completed and passed all of the course work and examinations required by the State.

**Students Served**

YABCs are designed specifically to serve the needs of young adult students age 17+ who have been in high school for at least four years and have only earned 17 or more credits toward graduation but are committed to earning a high school diploma. These students often have adult responsibilities that make attending classes in the evening a preferable option, and many students at YABC have faced obstacles to progressing in traditional high school settings.

**Community Based Organization (CBO's) Component**

Providers' services will complement the academic component of the YABC by providing an array of youth development supports, personal development, and life skills management services for students, including but not limited to: outreach and student recruitment, orientation and engagement, individual and family counseling and referrals, case management, extracurricular activities, youth leadership development, academic support and tutoring, college exploration and advisement, preparation for employment, employment placement, and support and guidance for planning for meaningful post secondary experiences.

**\*\*\*Please note: for fiscal year '06 the CBO contracts will be managed centrally (with the exception of the YABCs at Brandeis High School and Arts and Business High School). This change is reflected in the amounts allocated to the YABC.**

YABC allocations have been made to the appropriate YABC location code. The allocations are displayed below.
