

## SCHOOL ALLOCATION MEMORANDUM NO. 08, FY10

**DATE:** May 20, 2009

**TO:** **COMMUNITY SUPERINTENDENTS, INTEGRATED SERVICE CENTERS AND SCHOOL PRINCIPALS**

**FROM:** George Raab – Chief Financial Officer

**SUBJECT:** **American Recovery and Reinvestment Act of 2009**

On February 17, 2009, President Obama signed the American Recovery and Reinvestment Act (ARRA) to create jobs in the short run and make needed investments for the long term. ARRA provides funds across many categories for investments in education. The Department of Education (DOE) is receiving \$952 million in fiscal year 2010 and \$961 million in fiscal year 2011 in ARRA funding. In fiscal year 2010, ARRA funds will be added to DOE's budget as follows:

	FY 2010	FY 2011
Fiscal Stabilization	\$459,127,247	\$468,251,832
ARRA Title I	334,726,412	334,726,412
ARRA IDEA	157,696,793	157,696,793
CD Funding	\$10,000,000	\$0
	<b>\$961,550,452</b>	<b>\$960,675,037</b>

Of the amounts allocated to the DOE, ARRA funds will be added directly to school FY10 preliminary budgets as follows:

- Fiscal Stabilization: \$353 million
- Title I ARRA: \$235 million
- IDEA ARRA \$ 37 million

The balance of ARRA funds will pay for costs outside of school budgets including fringe and related services. In addition, about \$35 million in IDEA ARRA funds will be allocated to schools for IEP Para's and other eligible needs subsequent to the preliminary budgets.

### OVERVIEW:

The \$625 million in ARRA funding being made available to our schools provides each principal with a unique opportunity to improve student outcomes and advance educational reforms by making expenditures at the school level that support these goals during the next two years. Because ARRA has strict performance monitoring and reporting requirements, it is important that each principal understands the requirements of the Act and his/her role in making allocations that comply with the Act and satisfy reporting requirements.

### 1. Funds Must be Used for Authorized Purposes

ARRA funding comes with strings attached: the funds must be used for authorized purposes. The general purpose provided by the U.S. Department of Education is that “[t]hese one-time resources should be spent in ways most likely to lead to improved results for students, long-term gains in school and school system capacity, and increased effectiveness.” They may also be used to save jobs that would otherwise be cut due to the downturn in the economy. What kinds of school programs would fit within the general purpose? Below is a list of five categories of types of programs that reflect the priorities of ARRA and a few examples of the kinds of specific programs that would fit within them (but this list is neither exclusive nor exhaustive):

- a) Adopting rigorous college- and career-ready standards and high quality assessments:
  - Increase student participation in advanced courses, such as advanced placement, international baccalaureate, and dual enrollment in postsecondary credit-bearing courses
  - Develop or adopt formative and interim assessments that are valid and reliable for all students and provide timely data to help educators track and improve student progress
  - Adapt a high-quality curriculum aligned with standards with embedded assessments, and include instructional materials appropriate for ELL’s and students with disabilities.
- b) Establishing data systems and using data for improvement
  - Develop or enhance data systems to provide teachers access to student data (such as attendance, grades, course schedules) and data that show academic performance and growth, and how this data compares to statewide averages for similar students and schools, and whether students are on track to meet standards and graduate from high school.
  - Train principals, teachers, guidance counselors and staff to use data to identify the specific help students need to succeed
- c) Increasing teacher effectiveness
  - Establish and implement a fair and reliable teacher evaluation system that provides ongoing feedback to teachers about their performance
  - Support new teachers in their first two years through induction programs that include mentoring and teacher networks
  - Provide professional development for special ed and general ed teachers on evidence-based school-wide strategies in reading, math, writing, science and other subject areas
- d) Turning around the lowest-performing schools:
  - Add time to the school day and redesign the school schedule to increase time for core academics, enrichment, and staff collaboration
  - Launch a comprehensive literacy program
  - Develop a data-driven approach to understanding school performance and the causes of low performance
- e) Improving results for all students
  - Extend learning time for students (after school programs)
  - Use technology to improve teaching and learning: purchase and train teachers to use instructional software, technology-enabled white boards and other interactive technologies
  - Modernize school facilities

### 2. Restrictions on Use of Funds

In addition to being used for authorized purposes (i.e., improved student achievement), the expenditures must comply with the statutory and regulatory requirements of Title I, Part A, which, among other things, requires that the funds “supplement but not supplant” state or city dollars. In general, this means that ARRA funds cannot be used for a program or activity that was paid for

with state or city dollars the previous year. However, this presumption of supplanting can be overcome if the following can be demonstrated:

- There was a reduction in the amount of non-federal funds available to pay for the activity;
- The school district made the decision to eliminate the activity without taking into account the availability of ARRA funds, as documented by fiscal and programmatic records confirming that, in the absence of ARRA funds, the district would have eliminated the activity;
- The activity to be paid for with Title I funds “is allowable under Title I, Part A and consistent with Title I fiscal and programmatic requirements”; and
- The use of Title I, Part A funds meets the standards of Office of Management and Budget Circular A-87 (which requires that the use of funds for a specific purpose be necessary and reasonable for the proper and efficient performance and administration of the program and be authorized and not prohibited under state and local laws or regulations).

Applying these principles to the creation of a school budget for 2009-10, where there have been budget cuts to existing programs or personnel positions, ARRA funds may be used to fund those programs or positions **provided appropriate documentation is supplied that, in the absence of ARRA funding, the district would have eliminated the program or position. Because of this requirement, it is essential that principals provide commentary explaining the basis of funding allocations.** A Galaxy tool is being put into place to record this information.

### 3. Compliance and Monitoring Requirements

With the benefit of ARRA funding comes a burden: heightened scrutiny to ensure that expenditures are made in accordance with statutory and regulatory requirements. The American Reinvestment and Recovery Act includes unprecedented and extensive requirements to promote transparency and accountability, and to minimize fraud, waste and abuse. The U.S. DOE will closely monitor ARRA expenditures and its Office of Inspector General will conduct comprehensive audits of ARRA implementation. Information on how schools use ARRA funds may be made available to the public on [www.Recovery.gov](http://www.Recovery.gov). In addition, New York is one of 16 states that will be subject to bi-monthly visits by the United States General Accounting Office (GAO) to both monitor and audit our compliance with ARRA requirements, as well as the requirements of the key federal programs under which ARRA funds are being distributed to schools, namely Title I, Part A and the Individuals with Disabilities in Education Act (IDEA).

Accordingly, it is vitally important to every school, as well as to the Department as a whole, to ensure that sufficient internal controls are in place to generate and maintain support for all budget decisions and all expenditures involving ARRA funds. On the budgeting side, it will be particularly important for schools to document what positions and programs they would have been compelled to cut, in view of the significant reductions in available tax levy and categorical funding, but for the infusion of federal ARRA funds into the schools’ budgets. On the expenditure side, it will be more important than ever before to ensure that all transactions are adequately supported by data and documentation. On the personal services side of the budget, such documentation would include, for example, per session job postings and time and attendance records. On the other than personal services (OTPS) side of the budget, documentation would include records such as evidence of competitive bid solicitations for outside vendors, detailed vendor invoices, and complete and up-to-date inventory records of any goods procured with ARRA funds. Of course, these are only examples of the internal controls that would be required to support different types of expenditures. In addition, each school must recognize the increased importance of and take responsibility for timely and accurate data entry and internal data monitoring.

If a school fails to comply with the scheduling or reporting requirements governing the use of ARRA funds, the U.S. DOE may bring an enforcement action against the school district and may seek to withhold or suspend in whole or in part ARRA funds, or may seek to recover misspent

funds following an audit. Therefore, it is essential that principals maintain accurate and reliable documentation of ARRA expenditures.

You are encouraged to consult regularly with your regional and central school support network, including Grants Officers, ISC counsel, and Internal Control Officers from the Office of Auditor General, to ensure that your school has implemented the controls necessary to protect your school's resources and the Department's resources against the risk of fraud, waste, abuse and audit disallowance. To aid in the protection of this vital federal stimulus funding to support school programs, the Department will be ramping up its own central and regional school supports, as well as engaging in expanded internal monitoring and auditing of ARRA expenditures during the 2009-2010 and 2010-2011 school years.

### **ARRA ALLOCATIONS:**

#### 1) TL DRA Stabilization

To facilitate compliance with strict federal controls, these funds will be available to support Personal Service budgets only; these funds will not be available to support Other Than Personal Service (OTPS) budgets for goods and services. All of the PS cost factors available under Fair Student Funds allocation categories will be available.

#### 2) TL Stabilization

To facilitate compliance with strict federal controls, these funds will be available to support Personal Service budgets only; these funds will not be available to support Other Than Personal Service (OTPS) budgets for goods and services. All of the PS cost factors available under Fair Student Funds allocation categories will be available.\

#### 3) Title I ARRA

These funds will support all budget items traditionally supported by regular Title I funds. Title I ARRA funds, however, will not be subject to fringe when scheduled on schools' tables of organization (TO) in Galaxy. Fringe budgets for these funds are being established separately in the DOE's budget. Regular Title I funds will continue to need to have fringe scheduled on the Galaxy TO.

#### 4) IDEA ARRA CTT

These funds are being allocated to schools to fund the cost of CTT classes. These funds will not be subject to fringe when scheduled on schools' tables of organization (TO) in Galaxy. These funds will be available to support FT Special Education Teachers only. Fringe budgets for these funds are being established separately in the DOE's budget.

Should you have questions about the ARRA funding or the ways to incorporate it in your school budget, please contact your ISC/CFN or SSO.
