

SCHOOL ALLOCATION MEMORANDUM NO. 81, FY 12

DATE: December 21, 2011

TO: Community Superintendents
High School Superintendents
Children First Networks
School Principals

FROM: Michael Tragale, Chief Financial Officer

SUBJECT: Students with Interrupted Formal Education (SIFE) and Long-Term English Language Learners (LTE) Grant

This memorandum provides resources to schools participating in the Students with Interrupted Formal Education (SIFE) and Long-term ELL (LTE) Initiative. Participating schools were required to submit program proposals which were approved by the Division of Students with Disabilities and English Language Learners. School allocations are summarized on the attached table.

In its eighth year of implementation, the SIFE/LTE Initiative provides funding, technical assistance, professional development and networking opportunities so that schools develop and implement new ways to serve these struggling students. According to the 2010-11 BESIS, one out of every ten ELLs has been identified as SIFE at some-time during their tenure. ELLs who have received service for more than six years, known as Long-term ELLs, make up even more of the overall ELL population (13.1%) in New York City. In order to serve this high-needs population, the initiative has been refined and asked schools to create student programs that address the socio-emotional needs of students and their college and career preparedness.

The SIFE/LTE Initiative allows schools to purchase recommended and/or proven effective interventions and/or professional development to support middle and high school teachers with research-based strategies, practices, materials and curricula to strengthen English language acquisition, content area development, and technology skills in the targeted populations of ELLs. Schools can also use this funding to structure programs to increase parent engagement in the academic lives of SIFE and LTEs, if included in their approved grant program.

Program schools will create learning communities based on the model they choose to implement as stated in their proposals. ELL specialists in collaboration with appropriate network team members will visit each school during the year to support program implementation, evaluate program effectiveness, and document best practices. Schools will send appropriate representatives for professional development according to recommendations for their chosen intervention programs. All sites will be required to maintain student rosters and submit final reports in order to evaluate

program implementation, materials, and overall effectiveness as well as to determine if students met goals and objectives stated in the submitted proposals. Additionally, all schools are required to send an administrator and at least one teacher to a culminating grant activity to be held in the spring where schools will share their grant activities that were most effective in meeting the needs of SIFE, LTEs, their parents, and the educators who work with them.

Allocations will be placed in each school's budget in allocation category [TL SIFE ELL](#) or [TL SIFE ELL HS](#).
