Please Note: For a complete list of ROC and DHR authorization exception criteria, please see FY '06 Rollover documentation: Hold Harmless Enhancements.

DHR Approvals

A new feature has been added to the DHR Approvals window. DHR users will now be able to export "Approved", "Disapproved", and "Awaiting Authorization" records to an Excel spreadsheet.

When the Export to Excel button (located at the bottom of the Authorization window) is clicked, an HTML spreadsheet will open. To save the data, select File - Save As and save the file as an Excel file type.

Step 1

Location	TITLE	Message
20K505	TEACHER - REGULAR GRADES	Seniority Exception Received DHR Authorization B

Step 2

Select Save As and save the file as and Excel (.xls) file type.

Vacancy Workflow

The Vacancy Workflow has been improved. If an attempt is made to create a new vacancy using option 1, and the SSN or EIS ID is already attached to an item in another school, the following error messages will appear (after the RMS title check):

Galaxy 2000

Line Item Approval

An enhancement has been made to the LIA Screen. Simultaneous attempts to approve a line item will result in the following error message:

Line Item Approval Status			
Item No	Item Seq No	Status	Details (With Error Description)
514	1	FAILED	An inprocess item already exists for the current approval.
