

Galaxy Release Notes: Release 65 (v 2.5.73)

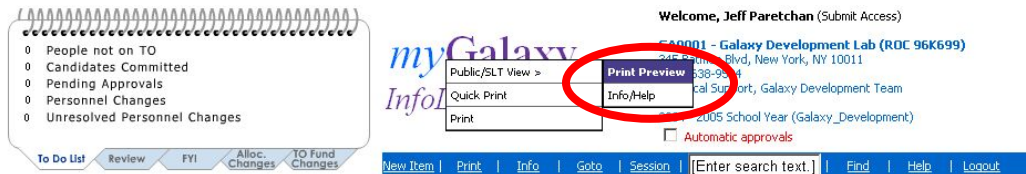

What's in Release 65 (v 2.5.73)?

Release 65 (v 2.5.73) includes the following updates and enhancements:

myGalaxy

Organization Sheet Report:

- The new report is a school organization report. Confidential information such as social security number has been removed. It is intended for use when the school is asked to provide organization/budget information to external users such as the School Leadership Team. Additional information has been provided in the Principals' Weekly. This function is accessed by hovering your mouse over the Print button on the myGalaxy menu bar, hovering over Public/SLT View > in the sub-menu and clicking on Print Preview. A print preview window will appear. Click the Print button and the Print Dialog box will appear.

Print functions:

- A print button has been added to the following screens of the Budget Book in myGalaxy: Allocation Category Filter Rules, School Allocations, Valid Titles, Valid Quick Codes, Allocation History.

Entering Intended SSN:

- An edit has been placed in the system so that the Intended SSN can only be entered if the SSN is in RMS and has a commitment letter in RMS or if the SSN is in EIS.

Additions to the InfoLink:

- Two new tabs (Alloc Changes and TO Fund Changes) have been added to the InfoLink.
