## TO Views

- Some sections and items were being displayed twice when viewing the TO by Program or Academy (from the views menu). The views have been modified.

## Personnel Changes

- The Personnel function has been updated. When title change and date change increases are processed automatically an icon appears next to the record indicating what changes were made. These icons should not be appearing on records with final approval. After an item is approved in batch this icon will be removed.

“Actual Salary” Screen

- The name of the “Actual Salary” screen has been updated. This screen will display either the Actual Salary or the Average Salary (depending on whether the person’s title is available for an Average rate). Therefore, the name has been changed to “Cost Basis.”

**No longer reads “Actual Salary”**

## Acknowledger Function

- The Acknowledger function was allowing all users to acknowledge items in the file cabinet. Only one person should have acknowledgement authority. The system now allows only the designated Acknowledger to use this function.

## School list:

- The School list function was not allowing the creation of a school location id with the letter, "Z." For example: Location 46QAZ could not be created because the system was not allowing the entry of the "Z" in the final character. This has been changed.

Custodial payroll:

- The Custodial payroll function has been updated. A Runtime error occurred when trying to open the Custodial Payroll screen in Galaxy 2000. The screen will now open properly.

## Report Profile

- The Report Profile function has been updated. The IEP-BILINGUAL value has been added in the list of values for ASSIGNMENT.

## Line Item Approvals

- When approving or recalling a vacancy in Line Item Approvals, an error message might appear reading “RMS Check Failed!!” This error message was too broad and gave no detail as to why it failed. The message has been improved. Now, the reason for the failure will appear under the main message. For instance:

RMS Check Failed!!

Vacancy cannot be removed because a candidate has been selected into the job.
