

# **Galaxy Release Notes**

## **Release 2.5.77**

# What's in Release 2.5.77?

Release 2.5.77 includes the following updates and enhancements:

## myGalaxy

### Transaction Ledger

The Transaction Ledger is a new screen in myGalaxy that displays detailed history of budget changes to the TO.

The Transaction Ledger will display:

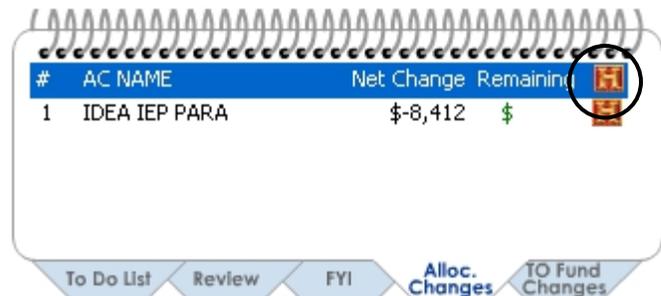

- All changes to school allocations
- All TO item changes, including item-level details and history.
- History details regarding changes to 'Intended' information (Intended Name, Intended SSN, Intended EIS ID)

The Transaction Ledger will *not* show:

- History details regarding changes to TO item calendar schedules or 'shopping list' items.

The Transaction Ledger will display detailed information about the Allocation Category, Transaction Type, Title, Job ID/ Item #, Name/ Intended, User, Date/Time, Status, Change to.., Change, Allocated, Scheduled, and Remaining.

The Transaction Ledger can be accessed by an option from the "Info" sub-menu or from a history icon in the Info Link.

Example of the New Transaction Ledger Screen viewing all Allocations for a specific AC since 12/02/04

## RMS Item Status Field

The RMS Item Status Field will report the current status, existence or non-existence of any job in RMS. The RMS Status of an Item is accessible from the “Details” Screen in the main item menu. The possible messages are as follows:

- This vacancy is already staffed.
- This vacancy exists in RMS.
- This vacancy does not exist in RMS. The vacancy does not have a commitment in RMS.
- This vacancy does not exist in RMS. The vacancy was manually removed from RMS.
- This vacancy does not exist in RMS.. The vacancy does not have an RMS title.
- This vacancy does not exist in RMS. The intended SSN for this vacancy already exists in EIS.

**Item Details**

## Itinerant Splits

Itinerant QC percent splits have been upgraded. Previously QC splits might have appeared with an additional hundredths percent of a split when saved. The upgrade will prevent this from happening. Items with this additional percentage currently have been updated (with no impact to the budget) as well.

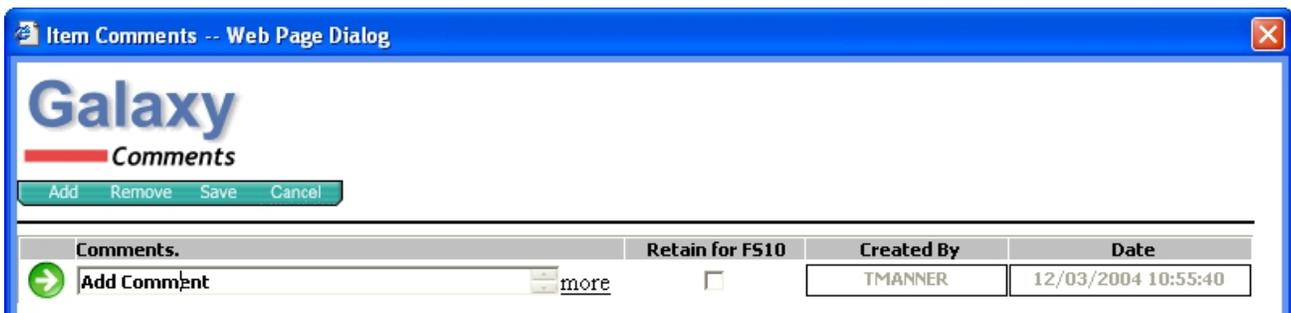

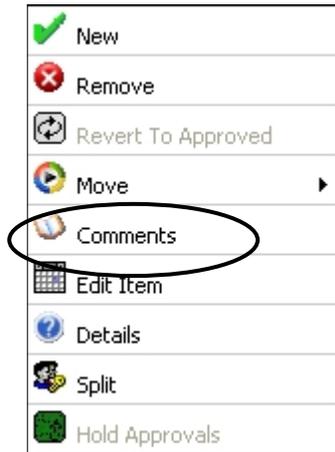

| School | Split Rate | Academy     | Section        | Eff Date | End Date  | Allocation Category | Fund Amount |
|--------|------------|-------------|----------------|----------|-----------|---------------------|-------------|
| 02M002 | 50         | Main School | Change Section | 9/7/2004 | 6/30/2005 | *Many*              | \$44,680.86 |
| 02M051 | 50.01      | Main School | Change Section | 9/7/2004 | 6/30/2005 | *Many*              | \$43,933.26 |
|        |            |             | Change Section |          |           | Click for AC        |             |
|        |            |             | Change Section |          |           | Click for AC        |             |
|        |            |             | Change Section |          |           | Click for AC        |             |
|        |            |             | Change Section |          |           | Click for AC        |             |

Clear All Clear Current Budget Amount: \$88,614.12

## Editing TO Items funded by Reimbursable Funds will now Require Comments

Editing an item funded by Reimbursable Funds will now require Comments. Enter comments for this purpose using the current Comments option in the Details screen

If Comments are not entered before the change is saved, the message below will appear and the item will not be Saved.

Once the Comments are entered and the item is saved, a message will appear asking, "Have you updated your CEP?" This message is just a reminder and does not prevent the item from being saved.

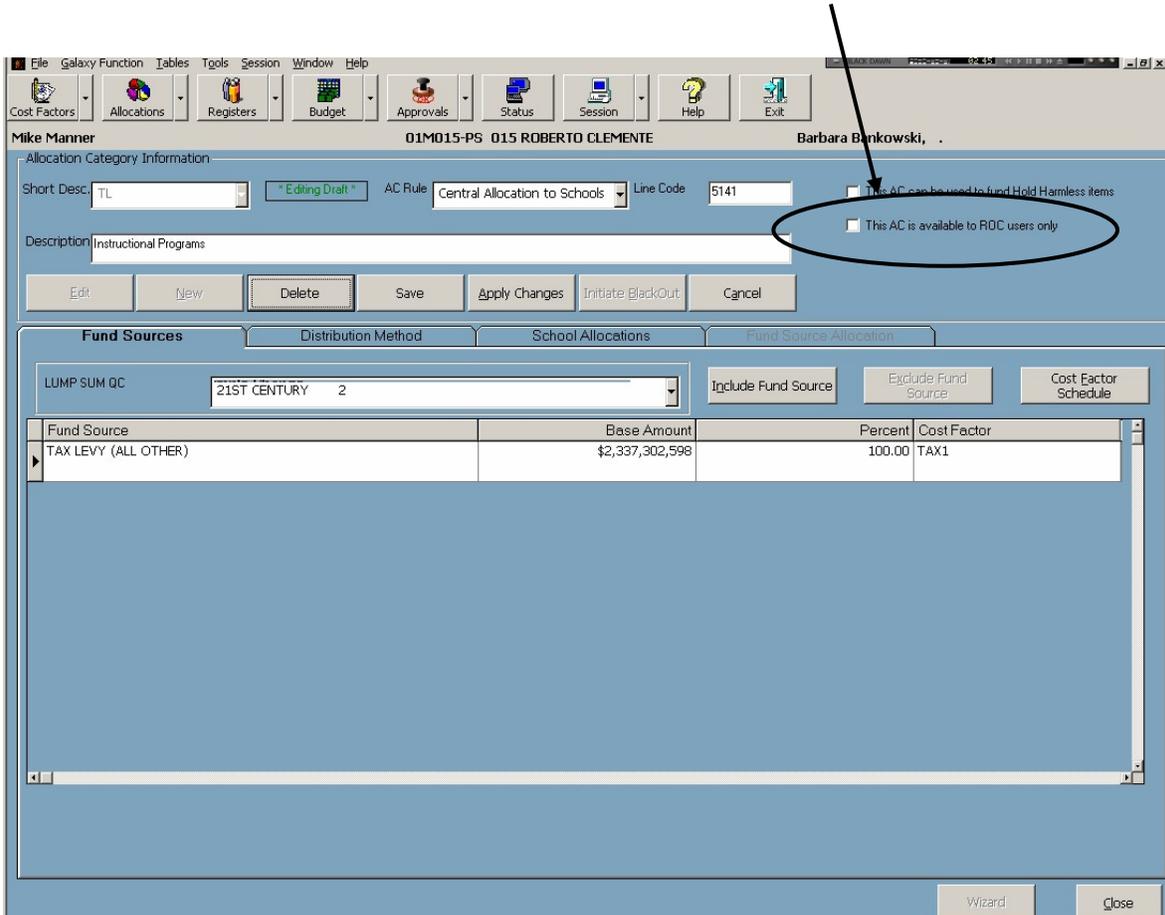

Note: This is a reminder message only – the item has already been saved when this message appears.

# Galaxy 2000/myGalaxy

## New Allocation Category Option for ROC Users Only

A new Attribute for Allocation Categories has been added to Galaxy 2000. It restricts the use of a particular Allocation Category to users with Regional access or greater. A Regional user will be able see and use the Allocation on a school's TO, but a school user will not see the Allocation in Funding Recommendations and will not be able to edit the item once it has been saved by a Regional user.

This option can be selected for new or existing Allocation Categories.

# Report Profile

The ROC location has been added to Report Profiles as an available filter option. "ROC Location" will appear in the drop down list on the second form in Report Profiles that allows criteria of a report to be defined. Below is an example of how the new field will appear.
