

Galaxy Release Notes
Release 2.5.78

What's in Release 2.5.78?

Release 2.5.78 includes the following updates and enhancements:

myGalaxy

Allocation Category

If a change was made to a rule 2, 3, or 4 Allocation Category, the controls amounts for that AC would be deleted. This will no longer happen

Note: The way the Control Amounts are entered will be changed in the near future.

Moving Items

When Moving Line Items from one Section to another, a message would sometimes appear reading “Please fill in all required attributes before saving.” Even though all required attributes appeared to be filled in. The Grade field was not appearing in the Move box. This message will now appear only if all *visible* attributes are not filled out.

Based on the section you are moving to, some of the attributes are invalid. We have attempted to auto correct the attributes for you. If there are any in red you will need to manually correct these before saving.

Galaxy 2000 / MyGalaxy

TLump Import Utility

The TLump Import Utility and the ROC Transfer Utility allow users to enter a reason for the allocation. These reasons have been added to all views in the Transaction Ledger including the Allocation History view. The "Title" field in the Transaction Ledger has been changed to read "Title/Desc"

Galaxy 2000

Actual Expenditures

The School's location code has been added to the printout of the Actual Expenditures screen in Galaxy 2000. The location currently appears at the top of the Actual Expenditures screen when viewed – it will now appear on the printout as well.
