

# **Galaxy Release Notes: Release 68**

# What's in Release 68?

Release 68 includes the following updates and enhancements:

## **Galaxy 2000**

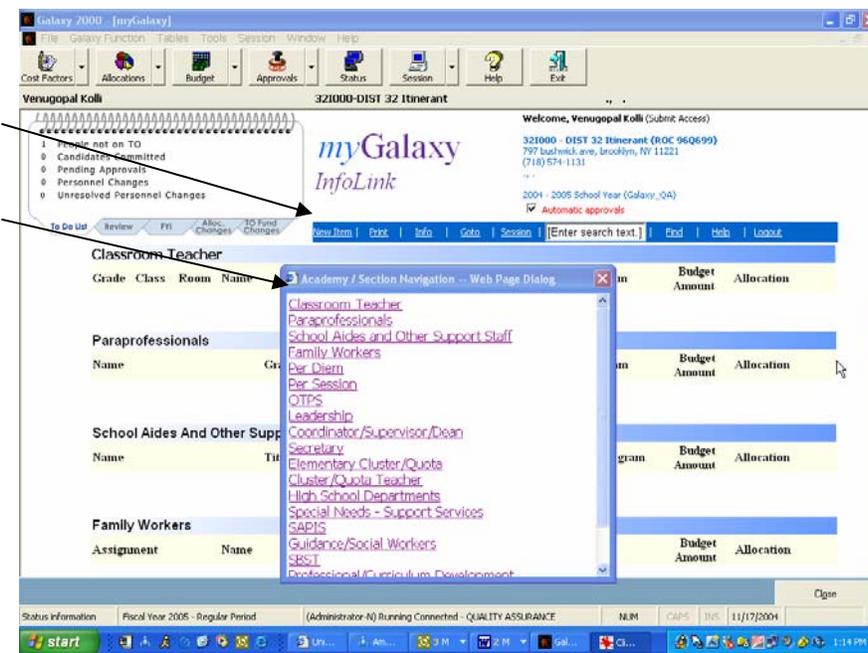

### **Itinerant Changes**

- The Itinerant function has been changed to account for the application of AC Filter Rules. Previously, funding for Itinerant split schools was selected prior to the selection of Attributes (Assignment, Mode, etc.); this excluded various Allocation Categories because certain filter rules require these attributes to be populated. Now, Attributes are selected prior to selection of Split Schools and Allocation Categories.
- Also, Sections and attributes can now be selected for each individual split location. The **Change Section** link option will now allow the selection of individual sections and attributes for each split school. However, this is not required. The Section and Attributes Selected at the main "I" location will automatically be placed in the Split Schools when selected. However, the section and attributes can then be changed as long as the title is valid for the new Section.
- The Dates for the Itinerant Main Funding Screen & Split Screen have been disabled in order to facilitate a change to the Itinerant Date Split Functionality.

*This is an example of how the enhanced functionality works when creating a new Itinerant vacancy.*

### **Step 1**

Click on "New Item" at the "I," location and select the desired Section

**Please Note:** In the previous version, the Split Screen would appear at this point, but now the item is placed on the TO before the Split Screen appears allowing the selection of Attributes before funding recommendations (where AC Filter Rules are applied).

**Step 2**

Fill in all required Attributes (any optional attributes) and click on "[Reqd]" under "Allocation"

The screenshot shows the 'myGalaxy InfoLink' interface for user Venugopal Koli. The main content area displays a table for 'Classroom Teacher' with columns: Grade, Class, Room Name, Job Id, Mode, LOI, Program, Budget Amount, and Allocation. The first row contains the following data: [Reqd], [opt], [opt], VACANT, [Reqd], English, [Opt], \$0, [Reqd]. A red circle highlights the 'Allocation' column, and a red oval highlights the '[Reqd]' button in the first row. Below this table are sections for 'Paraprofessionals', 'School Aides And Other Support Staff', and 'Family Workers', each with their respective column headers. The bottom status bar shows 'Fiscal Year 2005 - Regular Period' and 'Administrator-N Running Connected - QUALITY ASSURANCE'.

**Step 3**

Select a title and enter any Intended information (if desired).
