### **3. On Demand Performance Task** (25 points)

#### **Spare Scene Performance Task and Assessment for Acting**

This task will be administered and scored at the school site prior to the written elements of the test. Each student should be assessed by two (2) adjudicators at the school site with the score being averaged. Of the two adjudicators, one should be from the school and one should be from another DOE High school or from a theater department at the university level.

With the On-Demand Performance Task, it is acknowledged that the assessment of acting is a complex, multi-faceted and subjective exercise. In striving to create a manageable and appropriate “on-demand” task for high school actors, we needed to arrive at an appropriate task and assessment criteria that provide demonstrable evidence in a real time setting. We realize that these chosen criteria may be seen as somewhat reductive and not inclusive of the entire range of acting and the creativity, imagination and skill that it entails. We do, however, believe that this task, the criteria and the corresponding rubric will provide an appropriate assessment if administered consistently and with commitment.

This on-demand performance task incorporates the use of “spare” or “open” scenes which are used in a variety of theater studio settings and should not be foreign to the teacher/practitioner. Actors are frequently asked to respond on the spot to direction in an audition or rehearsal situation. Actors also frequently find themselves in a situation of needing to respond creatively to new, unexamined text. The “spare scene” task recreates these scenarios and provides tools for the assessment of these particular abilities.

In choosing to use The Spare Scene performance task process, we hope to provide a means of assessing the student’s ability to:

- use and activate language
- play an objective with a change in tactics
- physicalize character
- respond to and incorporate direction

*Note that the emotional life of the character is also a key factor and should be embodied and expressed through the physical and vocal choices of the actor. Collaboration with a scene partner and the ability to respond is also embedded in the assessment criteria and rubric descriptors.*

*(See Appendix B for On-Demand Performance Task Rubric)*

## Process for On-Demand Spare Scene Performance Task

### Room set-up:

Chairs for each actor and the workshop leader(s) (teacher) as well as any adjudicators  
One chair to be used as a prop for each scene

### Materials:

5 Spare scenes (to be included)  
5 sets of given circumstance/scenario prompts (to be included)  
Directorial/environmental prompts (to be included)

**Time:** One-Hour (1) session for five scenes of two actors each

### On Demand Performance Task Process:

- 1) 10 students in any gender combination are brought into a studio room.
- 2) Students number off 1-10 and are paired in the following configuration.  
1-6    2-7    3-8    4-9    5-10
- 3) Each pair of students is given a Spare Scene, designated as either character "A" or "B" and given a "Given Circumstance Scenario" card. (Given Circumstance Scenario cards will be included)
- 4) Students are instructed that they may use only one chair in the scene, but may choose to use that prop in any way they like.
- 5) Students are instructed that they will be assessed on the following criteria:
  - use of and activating language
  - playing an objective with a change in tactics
  - physicalizing character
  - responding to and incorporating direction

Students are advised that they will be given a directorial/environmental prompt after the first presentation of the scene and will then do a second presentation.

- 6) Students are sent into various corners of the room and are given five (5) minutes to craft a scene.
- 7) Scenes are presented in the following order:  
5-10    1-6    4-9    2-7    3-8
- 8) Following the presentation of the scenes, the assessment director will ask for adjustments based on an environment change (Directorial/environmental prompt cards will be included)
- 9) Students are given one minute to discuss and present the scene again in reverse order  
3-8    2-7    4-9    1-6    5-10
- 10) Process is repeated for the each pair with the fellow students as workshop observers.

### Note to facilitators:

Behavioral expectations for the student observers should be clearly laid out and should include:

- a. no applause following the scenes,
- b. no planning or rehearsing while other scenes are being presented and
- c. respectful and attentive audience behavior.
